EXPLANATORY NOTE

This amended and restated Quarterly Report on Form 10-Q/A (this "Quarterly Report") amends and restates in its entirety the Quarterly Report on Form 10-Q for the three months ended March 31, 2023, filed by Flushing Financial Corporation (the "Company") with the Securities and Exchange Commission (the "SEC") on May 10, 2023.

As disclosed in the Company's Current Report on Form 8-K filed with the SEC on January 26, 2024, management and the Audit Committee of the Board of Directors of the Company determined that the Company's consolidated financial statements for the three month period ended March 31, 2023, required restatement to correct the accounting treatment of employee retention credits (the "ERCs") and disclosures, which ERCs were incorrectly recognized as income during such period. The change impacted net income by a decrease of \$1.1 million for the three-month period ended March 31, 2023.

In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, the Company determined that, notwithstanding reliance on its independent tax credit advisors, it is not able to treat the ultimate realization of the ERCs as "probable" under U.S. generally accepted accounting practices, therefore, requiring the restatement of the Company's previously issued consolidated financial statements for the referenced period and amendments to the Company's related previously filed quarterly report on Form 10-Q during such year.

Although the Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for the ERCs as previously reported, the Company determined that it could no longer rely on such advice.

In connection with its evaluation of the restatements described above, management of the Company has concluded that a material weakness in the Company's internal control over financial reporting existed as of March 31, 2023. Specifically, the Company did not maintain effective controls over the probability assessment associated with the recognition of income related to the ERCs. See additional discussion included in Part I – Item 4, "Controls and Procedures" of this Quarterly Report.

Notes to Consolidated Financial Statements

(Unaudited)

1. Basis of Presentation

The primary business of Flushing Financial Corporation (the "Company"), a Delaware corporation, is the operation of its wholly owned subsidiary, Flushing Bank (the "Bank").

The unaudited consolidated financial statements presented in this Quarterly Report on Form 10-Q/A ("Quarterly Report") include the collective results of the Company and its direct and indirect wholly owned subsidiaries, including the Bank, Flushing Service Corporation and FSB Properties Inc., which are collectively herein referred to as "we," "us," "our" and the "Company."

The Company also owns Flushing Financial Capital Trust II, Flushing Financial Capital Trust III, and Flushing Financial Capital Trust IV (the "Trusts"), which are special purpose business trusts. The Trusts are not included in the Company's consolidated financial statements, as the Company would not absorb the losses of the Trusts if any losses were to occur.

The accompanying unaudited consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and general practices within the banking industry. The information furnished in these interim statements reflects all adjustments that are, in the opinion of management, necessary for a fair statement of the results for such presented periods of the Company. Such adjustments are of a normal recurring nature, unless otherwise disclosed in this Quarterly Report. All inter-company balances and transactions have been eliminated in consolidation. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for the full year.

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions to Quarterly Report on Form 10-Q and Article 10, Rule 10-01 of Regulation S-X for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). The unaudited consolidated interim financial information should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2022.

When necessary, certain reclassifications were made to prior-year amounts to conform to the current-year presentation. Such reclassifications had no effect on the prior period net income or shareholders' equity and were insignificant amounts.

This Quarterly Report amends and restates in its entirety the Quarterly Report on Form 10-Q for the three months ended March 31, 2023, filed the SEC on May 10, 2023.

As disclosed in the Company's Current Report on Form 8-K filed with the SEC on January 26, 2024, management and the Audit Committee of the Board of Directors of the Company determined that the Company's consolidated financial statements for the three month period ended March 31, 2023, required restatement to correct the accounting treatment of employee retention credits (the "ERCs") and disclosures, which ERCs were incorrectly recognized as income during such period. The change impacted net income by a decrease of \$1.1 million for the three-month period ended March 31, 2023.

In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, the Company determined that, notwithstanding reliance on its independent tax credit advisors, it is not able to treat the ultimate realization of the ERCs as "probable" under U.S. generally accepted accounting practices, therefore, requiring the restatement of the Company's previously issued consolidated financial statements for the referenced periods and amendments to the Company's related previously filed quarterly reports on Form 10-Q during such year.

Although the Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for the ERCs as previously reported, the Company determined that it could no longer rely on such advice.

Notes to Consolidated Financial Statements

(Unaudited)

The following tables summarize the effects of the restatements on select consolidated financial statements as reported as of and for the periods stated and are unaudited:

In addition, the following footnotes have been updated to reflect the restated amounts:

Note 3 – Earnings Per Share

Notes to Consolidated Financial Statements

(Unaudited)

Note 13 - Regulatory Capital

2. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Estimates that are particularly susceptible to change in the near term are used in connection with the determination of the allowance for credit losses, the evaluation of goodwill for impairment, the review of the need for a valuation allowance of the Company's deferred tax assets, and the fair value of financial instruments. Management performed a qualitative review of goodwill at March 31, 2023, concluding no impairment was indicated.

3. Earnings Per Share

Earnings per common share have been computed based on the following:

	For the three months ended March 31,					
	2023					
	(As	Restated)		2022		
	(In	thousands, ex	xcept per	r share data)		
Net income, as reported	\$	4,044	\$	18,219		
Divided by:						
Weighted average common shares outstanding		30,265		31,524		
Weighted average common stock equivalents (1)						
Total weighted average common shares outstanding and common stock						
equivalents		30,265		31,524		
Basic earnings per common share	\$	0.13	\$	0.58		
Diluted earnings per common share	\$	0.13	\$	0.58		
Dividend Payout ratio		169.2 %		37.9 %		

⁽¹⁾ For the three months ended March 31, 2023, and 2022, there were no common stock equivalents that were anti-dilutive.

The corporate securities held by the Company at March 31, 2023 and December 31, 2022, are issued by U.S. banking institutions. The CMOs held by the Company at March 31, 2023 and December 31, 2022, are either fully guaranteed or issued by a government sponsored enterprise.

The following tables detail the amortized cost and fair value of the Company's securities classified as held-to-maturity and available for sale at March 31, 2023, by contractual maturity. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

The Company reviewed each available for sale security that had an unrealized loss at March 31, 2023, and December 31, 2022. The Company does not have the intent to sell these securities, and it is more likely than not the Company will not be required to sell the securities before recovery of the securities' amortized cost basis. If the Company identifies any decline in the fair value due to credit loss factors and evaluation indicates that a credit loss exists, then the present value of cash flows that is expected to be collected from the security is compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. All of these securities are rated investment grade or above and have a long history of no credit losses. It is not anticipated that these securities would be settled at a price that is less than the amortized cost of the Company's investment.

In determining the risk of loss for available for sale securities, the Company considered that mortgage-backed securities are either fully guaranteed or issued by a government sponsored enterprise, which has a credit rating and perceived credit risk comparable to the U.S. government, and that issuers of the collateralized loan obligations ("CLO") and the issuer of Corporate securities are global systematically important banks. Each of these securities is performing according to its terms and, in the opinion of management, will continue to perform according to its terms. Based on this review, management believes that the unrealized losses have resulted from other factors not deemed credit-related and no allowance for credit loss was recorded.

The Company reviewed each held-to-maturity security at March 31, 2023, and December 31, 2022 as part of its quarterly Current Expected Credit Loss ("CECL") process, resulting in an allowance for credit losses of \$1.1 million at each of March 31, 2023 and December 31, 2022.

It is the Company's policy to exclude accrued interest receivable from the calculation of the allowance for credit losses on held-to-maturity and the valuation of available for sale securities. Accrued interest receivable on held-to-maturity securities totaled \$0.1 million each at March 31, 2023 and December 31, 2022 and accrued interest receivable on available for sale debt securities totaled \$4.6 million and \$3.7 million at March 31, 2023 and December 31, 2022, respectively.

Notes to Consolidated Financial Statements

(Unaudited)

The following table presents the activity in the allowance for credit losses for debt securities held-to-maturity.

For the three months ended March

		31,				
	_	2023		2022		
	_	(In thousands)				
Beginning balance	\$	1,100	\$	862		
(Benefit) provision		(13)		124		
Allowance for credit losses	\$	1,087	\$	986		

Realized gains and losses on the sales of securities are determined using the specific identification method. The Company did not sell any securities during the three months ended March 31, 2023 and 2022.

5. Loans

The following represents the composition of loans as of the dates indicated:

	March 31, 2023	Decemb 2022	
	(In th	ousands)	
Multi-family residential	\$ 2,601,174	\$ 2,60	1,384
Commercial real estate	1,904,293	1,91	3,040
One-to-four family — mixed-use property	549,207	55	4,314
One-to-four family — residential	238,417	24	1,246
Construction	60,486	7	0,951
Small Business Administration (1)	22,860	2	3,275
Commercial business and other	1,518,756	1,52	1,548
Gross loans	6,895,193	6,92	5,758
Net unamortized premiums and unearned loan fees	8,983		9,011
Total loans, net of fees and costs	\$ 6,904,176	\$ 6,93	4,769

⁽¹⁾ Includes \$4.8 million, and \$5.2 million of SBA Payment Protection Program ("SBA PPP") loans on March 31, 2023 and December 31, 2022, respectively.

Loans are reported at their outstanding principal balance net of any unearned income, charge-offs, deferred loan fees and costs on originated loans and unamortized premiums or discounts on purchased loans. Loan fees and certain loan origination costs are deferred. Net loan origination costs and premiums or discounts on loans purchased are amortized into interest income over the contractual life of the loans using the level-yield method. Prepayment penalties received on loans which pay in full prior to their scheduled maturity are included in interest income in the period they are collected.

Interest on loans is recognized on an accrual basis. Accrued interest receivable totaled \$35.1 million and \$34.5 million at March 31, 2023, and December 31, 2022, respectively, and was reported in "Interest and dividends receivable" on the Consolidated Statements of Financial Condition. The accrual of income on loans is generally discontinued when certain factors, such as contractual delinquency of 90 days or more, indicate reasonable doubt as to the timely collectability of such income. Uncollected interest previously recognized on non-accrual loans is reversed from interest income at the time the loan is placed on non-accrual status. A non-accrual loan can be returned to accrual status when contractual delinquency returns to less than 90 days delinquent. Payments received on non-accrual loans that do not bring the loan to less than 90 days delinquent are recorded on a cash basis. Payments can also be applied first as a reduction of principal until all principal is recovered and then subsequently to interest, if in management's opinion, it is evident that recovery of all principal due is likely to occur.

Notes to Consolidated Financial Statements

(Unaudited)

Allowance for credit losses

The allowance for credit losses ("ACL") is an estimate that is deducted from the amortized cost basis of the financial asset to present the net carrying value at the amount expected to be collected on the financial assets. Loans are charged off against that ACL when management believes that a loan balance is uncollectable based on quarterly analysis of credit risk.

The amount of the ACL is based upon a loss rate model that considers multiple factors which reflects management's assessment of the credit quality of the loan portfolio. Management estimates the allowance balance using relevant information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. The factors are both quantitative and qualitative in nature including, but not limited to, historical losses, economic conditions, trends in delinquencies, value and adequacy of underlying collateral, volume and portfolio mix, and internal loan processes.

The Company recorded a provision for credit losses on loans totaling \$7.5 million and \$1.2 million for the three months ended March 31, 2023 and 2022, respectively. The provision recorded during the three months ended March 31, 2023, was driven by a loan charge-off and increased reserves on two loans that were previously identified with one business credit relationship. During the three months ended March 31, 2023, the Company made no changes to either the reasonable and supportable forecast period or the reversion period. The ACL - loans totaled \$38.7 million on March 31, 2023 compared to \$40.4 million on December 31, 2022. On March 31, 2023, the ACL - loans represented 0.56% of gross loans and 182.9% of non-performing loans. On December 31, 2022, the ACL - loans represented 0.58% of gross loans and 124.9% of non-performing loans.

The Company may modify loans to enable a borrower experiencing financial difficulties to continue making payments when it is deemed to be in the Company's best long-term interest. When modifying a loan, an assessment of whether a borrower is experiencing financial difficulty is made on the date of modification. This modification may include reducing the loan interest rate extending the loan term, any other-than-insignificant payment delay, principal forgiveness or any combination of these types of modifications. When such modifications are performed, a change to the allowance for credit losses is generally not required as the methodologies used to estimate the allowance already capture the effect of borrowers experiencing financial difficulty. During the three months ended March 31, 2023, there were no loans modified to borrowers experiencing financial difficulties. On March 31, 2023, there were no commitments to lend additional funds to borrowers who have received a loan modification as a result of financial difficulty.

On January 1, 2023, the Company adopted ASU No. 2022-02, "Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures" without material impact on the business operations or consolidated financial statements. See Note 14 ("New Authoritative Accounting Pronouncements") of the Notes to the Consolidated Financial Statements.

The following table shows loans modified as Troubled Debt Restructured ("TDR") during the period indicated:

For the three months ended,

		Iviaic	311 31, 2022
(Dollars in thousands)	Number		Modification description
Small Business Administration	1	\$ 271	Loan amortization extension.
			One loan received a below market interest rate and one loan had an amortization
Commercial business and other	2	2,768	extension.
Total	3	\$ 3,039	

The recorded investment of the loans modified and classified as TDR, presented in the table above, was unchanged as there was no principal forgiven in these modifications.

In accordance with our policy and the current regulatory guidelines, we designate loans as "Special Mention," which are considered "Criticized Loans," and "Substandard," "Doubtful," or "Loss," which are considered "Classified Loans." If a loan does not fall within one of the previously mentioned categories and management believes weakness is evident then we designate the loan as "Watch;" all other loans would be considered "Pass." Loans that are non-accrual are designated as Substandard, Doubtful or Loss. These loan designations are updated quarterly. We designate a loan as Substandard when a well-defined weakness is identified that may jeopardize the orderly liquidation of the debt. We designate a loan as Doubtful when it displays the inherent weakness of a Substandard loan with the added provision that collection of the debt in full, on the basis of existing facts, is highly improbable. We designate a loan as Loss if it is deemed the debtor is incapable of repayment. The Company does not hold any loans designated as Loss, as loans that are designated as Loss are charged to the Allowance for Credit Losses. We designate a loan as Special Mention if the asset does not warrant classification within one of the other classifications but does contain a potential weakness that deserves closer attention.

Notes to Consolidated Financial Statements

(Unaudited)

Included within net loans were \$5.2 million each at March 31, 2023 and December 31, 2022, of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings were in process according to local requirements of the applicable jurisdiction.

A loan is considered collateral dependent when the borrower is experiencing financial difficulties and repayment is expected to be substantially provided by the operation or sale of the collateral. The following table presents types of collateral-dependent loans by class of loans as of the periods indicated:

C 11 4 1 T

	Collateral Type								
	March 31, 2023					Decemb	per 31, 2022

Small Business Administration		_		949		_		950	
Commercial business and other		2,853		7,985		2,853		17,340	
Total	\$	12,021	\$	8,934	\$	11,652	\$	18,290	

Off-Balance Sheet Credit Losses

Also included within scope of the CECL standard are off-balance sheet loan commitments, which includes the unfunded portion of committed lines of credit and commitments "in-process". Commitments "in-process" reflect loans not in the Company's books but rather negotiated loan / line of credit terms and rates that the Company has offered to customers and is committed to honoring. In reference to "in-process" credits, the Company defines an unfunded commitment as a credit that has been offered to and accepted by a borrower, which has not closed and by which the obligation is not unconditionally cancellable.

Commitments to extend credit (principally real estate mortgage loans) and lines of credit (principally home equity lines of credit and business lines of credit) totaled \$427.0 million and \$438.5 million on March 31, 2023, and December 31, 2022, respectively.

The following table presents the activity in the allowance for off balance sheet credit losses for the three months ended March 31, 2023, and 2022.

	 For the three r Marcl		ded
	 2023		2022

Allowance for Off-Balance Sheet - Credit losses (1)	\$ 885	\$	1,589

⁽¹⁾ Included in "Other liabilities" on the Consolidated Statements of Financial Condition.

Notes to Consolidated Financial Statements

(Unaudited)

6. Loans held for sale

Loans held for sale are carried at the lower of cost or estimated fair value. At March 31, 2023 and December 31, 2022, the Bank did not have any loans held for sale. There were no loans sold during the three months ended March 31, 2022.

The following table shows loans sold during the periods indicated:

	F	or th	e three months	ended	March 31, 20)23	
	Loans sold		Proceeds	Net	charge-offs		Net gain
Delinquent and non-performing loans			(Dollars i	n thouse	ands)		
Multi-family residential	5	\$	1,548	\$	_	\$	54
Commercial	2		840		_		_
One-to-four family - mixed-use property	1		187		_		_
Total	8	\$	2,575	\$		\$	54

7. Leases

The Company has 31 operating leases for branches (including headquarters) and office spaces, 10 operating leases for vehicles, and one operating lease for equipment. Our leases have remaining lease terms ranging from three months to approximately 13 years, none of which has a renewal option reasonably certain of exercise, which has been reflected in the Company's calculation of the lease term.

The Company has elected the short-term lease recognition exemption such that the Company will not recognize Right of Use ("ROU") assets or lease liabilities for leases with a term of less than 12 months from the commencement date. The Company has three agreements in 2023 and two agreements in 2022 that qualified as short-term leases.

Certain leases have escalation clauses for operating expenses and real estate taxes. The Company's non-cancelable operating lease agreements expire through 2036.

Supplemental balance sheet information related to leases are as follows:

(Dollars in thousands)	Marc	h 31, 2023	Dece	ember 31, 2022
Operating lease ROU asset	\$	\$ 42,268		43,289

Less: implied interest		4,698
Total lease obligations	\$	45,353

8. Stock-Based Compensation

The Company has a long-term incentive compensation program for certain Company executive officers that includes grants of performance-based restricted stock units ("PRSUs") in addition to time-based restricted stock units ("RSU"). Under the terms of the PRSU Agreement, the number of PRSUs that may be earned depends on the extent to which performance goals for the award are achieved over a three-year performance period, as determined by the Compensation Committee of the Board. As of March 31, 2023, PRSUs granted in 2023 and 2022 are being accrued at target and PRSUs granted in 2021 are being accrued above target. The different levels of accrual are commensurate with the projected performance of the respective grant.

On May 18, 2021, stockholders approved an amendment to the 2014 Omnibus Plan (the "Amendment") authorizing an additional 1,100,000 shares available for future issuance. Including the additional shares authorized from the Amendment, 743,981 shares were available for future issuance under the 2014 Omnibus Plan at March 31, 2023.

For the three months ended March 31, 2023 and 2022, the Company's net income, as reported, included \$3.1 million and \$3.9 million, respectively, of stock-based compensation costs, including the benefit or expense of phantom stock awards, and \$0.8 million and \$1.0 million of income tax benefit respectively, related to the stock-based compensation plans.

During the three months ended March 31, 2023 and 2022, the Company granted 235,850 and 212,811 RSU awards and 79,050 and 63,250 PRSU awards, respectively.

Notes to Consolidated Financial Statements

(Unaudited)

The Company uses the fair value of the common stock on the date of award to measure compensation cost for restricted stock unit awards. Compensation cost is recognized over the vesting period of the award using the straight-line method. Forfeitures are recorded in the period they occur.

The following table summarizes the Company's RSU and PRSU awards under the 2014 Omnibus Plan for the three months ended March 31, 2023:

	R	SU Awards	PRSU Awards					
	'	Weighted-Average		Weighted-Average				
		Grant-Date		Grant-Date				
	Shares	Fair Value	Shares	Fair Value				
Non-vested awards at December 31, 2022	275,588	\$ 22.30	68,800	\$ 20.90				
Granted	235,850	19.84	79,050	19.99				
Vested	(201,324)	21.20	(53,430)	19.94				
Forfeited	(2,840)	22.14		_				
Non-vested at December 31, 2022	307,274	\$ 21.13	94,420	\$ 20.68				
Vested but unissued at March 31, 2023	239,155	\$ 20.78	142,065	\$ 20.80				

As of March 31, 2023, there was \$6.7 million of total unrecognized compensation cost related to RSU and PRSU awards granted. That cost is expected to be recognized over a weighted-average period of 2.8 years. The total fair value of awards vested for the three months ended March 31, 2023 and 2022, was \$5.0 million, and \$6.6 million, respectively. The vested but unissued RSU and PRSU awards consist of awards made to employees and directors who are eligible for retirement. According to the terms of these awards, which provide for vesting upon retirement, these employees and directors have no risk of forfeiture. These shares will be issued at the original contractual vesting and settlement dates.

Phantom Stock Plan: The Company maintains a non-qualified phantom stock plan as a supplement to its profit-sharing plan for officers who have achieved the designated level and completed one year of service. The Company adjusts its liability under this plan to the fair value of the shares at the end of each period.

The following table summarizes the Phantom Stock Plan at or for the three months ended March 31, 2023:

Phantom Stock Plan	Shares	F	air Value
Outstanding at December 31, 2022	158,410	\$	19.38
Granted	15,510		19.04
Distributions	(765)		19.35
Outstanding at March 31, 2023	173,155	\$	14.89
Vested at March 31, 2023	173,021	\$	14.89

The Company recorded stock-based compensation benefit for the Phantom Stock Plan of \$0.7 million and \$0.3 million for the three months ended March 31, 2023 and 2022, respectively. The total fair value of the distributions from the Phantom Stock Plan was \$15,000 and \$16,000 for each of the three months ended March 31, 2023 and 2022, respectively.

Notes to Consolidated Financial Statements

(Unaudited)

9. Pension and Other Postretirement Benefit Plans

The following table sets forth information regarding the components of net expense for the pension and other postretirement benefit plans.

	Thi	Three months ended							
		March 3							
(In thousands)	20:	23	2022						
Employee Pension Plan:									
Interest cost	\$	203 \$	138						
Amortization of unrecognized loss		—	1						
Expected return on plan assets		(277)	(257)						
Net employee pension benefit	\$	(74) \$	(118)						
Outside Director Pension Plan:									
Service cost	\$	2 \$	3						
Interest cost		15	11						
Amortization of unrecognized gain		(40)	(7)						
Net outside director pension expense	\$	(23)	7						
									
Other Postretirement Benefit Plans:									
Service cost	\$	40 \$	67						
Interest cost		95	70						
Amortization of unrecognized gain		(60)							
Amortization of past service credit			(7)						
Net other postretirement expense	\$	75 \$	130						

The Company previously disclosed in its Consolidated Financial Statements for the year ended December 31, 2022 that it expects to contribute \$0.2 million to the Outside Director Pension Plan (the "Outside Director Pension Plan") and \$0.3 million to the other postretirement benefit plans (the "Other Postretirement Benefit Plans"), during the year ending December 31, 2023. The Company does not expect to make a contribution to the Employee Pension Plan. As of March 31, 2023, the Company had contributed \$32,000 to the Outside Director Pension Plan and \$15,000 to the Other Postretirement Benefit Plans. As of March 31, 2023, the Company has not revised its expected contributions for the year ending December 31, 2023.

10. Fair Value of Financial Instruments

The Company carries certain financial assets and financial liabilities at fair value in accordance with GAAP which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP permits entities to choose to measure many financial instruments and certain other items at fair value. At March 31, 2023, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$13.2 million and \$48.1 million, respectively. At December 31, 2022, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$13.0 million and \$50.5 million, respectively. The Company did not elect to carry any additional financial assets or financial liabilities under the fair value option during the three months ended March 31, 2023 and 2022.

Notes to Consolidated Financial Statements

(Unaudited)

The following table presents the financial assets and financial liabilities reported at fair value under the fair value option, and the changes in fair value included in the Consolidated Statement of Income – Net gain (loss) from fair value adjustments, at or for the periods ended as indicated:

	Mea	nir Value surements March 31,	Me	Fair Value easurements December 31,	Changes in Fair Values For Items Measured at Fair Value Pursuant to Election of the Fair Value Option For the three months ended March 31,						
Description		2023		2022		2023	2022				
(In thousands)											
Mortgage-backed securities	\$	288	\$	295	\$	1	\$	(4)			
Other securities		12,904		12,728		109		(536)			
Borrowed funds		48,117		50,507		2,509		(1,269)			
Net gain (loss) from fair value adjustments					\$	\$ 2,619		(1,809)			

Included in the fair value of the financial assets and financial liabilities selected for the fair value option is the accrued interest receivable or payable for the related instrument. The Company reports as interest income or interest expense in the Consolidated Statement of Income, the interest receivable or payable on the financial instruments selected for the fair value option at their respective contractual rates.

The borrowed funds had a contractual principal amount of \$61.9 million at both March 31, 2023 and December 31, 2022. The fair value of borrowed funds includes accrued interest payable of \$0.4 million at both March 31, 2023 and December 31, 2022.

The Company generally holds its earning assets to maturity and settles its liabilities at maturity. However, fair value estimates are made at a specific point in time and are based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular instrument. Accordingly, as assumptions change, such as interest rates and prepayments, fair value estimates change, and these amounts may not necessarily be realized in an immediate sale.

Disclosure of fair value does not require fair value information for items that do not meet the definition of a financial instrument or certain other financial instruments specifically excluded from its requirements. These items include core deposit intangibles and other customer relationships, premises and equipment, leases, income taxes and equity.

Further, fair value disclosure does not attempt to value future income or business. These items may be material and accordingly, the fair value information presented does not purport to represent, nor should it be construed to represent, the underlying "market" or franchise value of the Company.

A description of the methods and significant assumptions utilized in estimating the fair value of the Company's financial assets and liabilities that are carried at fair value on a recurring basis are as follows:

Level 1 – when quoted market prices are available in an active market. At March 31, 2023 and December 31, 2022, Level 1 included one mutual fund.

Level 2 – when quoted market prices are not available, fair value is estimated using quoted market prices for similar financial instruments and adjusted for differences between the quoted instrument and the instrument being valued. Fair value can also be estimated by using pricing models, or discounted cash flows. Pricing models primarily use market-based or independently sourced market parameters as inputs, including, but not limited to, yield curves, interest rates, equity or debt prices and credit spreads. In addition to observable market information, models also incorporate maturity and cash flow assumptions. At March 31, 2023 and December 31, 2022, Level 2 included mortgage-backed securities, CLOs, corporate debt, municipals, and interest rate swaps.

Notes to Consolidated Financial Statements

(Unaudited)

Level 3 – when there is limited activity or less transparency around inputs to the valuation, financial instruments are classified as Level 3. At March 31, 2023 and December 31, 2022, Level 3 included trust preferred securities owned, and junior subordinated debentures issued by the Company.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. While the Company believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies, assumptions, and models to determine fair value of certain financial instruments could produce different estimates of fair value at the reporting date.

The following table sets forth the Company's assets and liabilities that are carried at fair value on a recurring basis, including those reported at fair value under the fair value option, and the level that was used to determine their fair value, at March 31, 2023 and December 31, 2022:

	_	Quoted Prices in Active Markets for Identical Assets (Level 1) 2023 2022				Signific Observal (Lev 2023	Inputs 2) 2022	Significant Other Unobservable Inputs (Level 3) 2023 2022					Total carried at fair va on a recurring basis 2023 2022

Notes to Consolidated Financial Statements

(Unaudited)

The following table sets forth the Company's assets and liabilities that are carried at fair value on a recurring basis, classified within Level 3 of the valuation hierarchy for the periods indicated:

	For the three months ended											
		March 3	31, 20)23		March	31, 20	22				
	Trust preferred securities			nior subordinated debentures		Trust preferred securities	Jur	nior subordinated debentures				
				(In tho	usana	ls)						
Beginning balance	\$	1,516	\$	50,507	\$	1,695	\$	56,472				
Net (loss) gain from fair value adjustment of financial assets (1)		(71)		_		45		_				
Net (gain) loss from fair value adjustment of financial liabilities (1)		_		(2,509)		_		1,269				
Increase (decrease) in accrued interest		_		12		_		16				
Change in unrealized (gains) losses included in other comprehensive loss				107				198				
Ending balance	\$	1,445	\$	48,117	\$	1,740	\$	57,955				
Changes in unrealized gains held at period end	\$		\$	2,078	\$		\$	3,136				

¹⁾ Presented in the Consolidated Statements of Income under net gain (loss) from fair value adjustments.

The following tables present the quantitative information about recurring Level 3 fair value of financial instruments and the fair value measurements at the periods indicated:

				March 31, 2023		
	Fa	ir Value	Valuation Technique	Input Unobservable (Dollars in thousands)	Range	Weighted Average
Assets:						
Trust preferred securities	\$	1,445	Discounted cash flows	Spread over 3-month Libor	n/a	4.1 %
Liabilities:						
Junior subordinated debentures	\$	48,117	Discounted cash flows	Spread over 3-month Libor	n/a	4.1 %
				December 31, 2022		
	Fa	ir Value	Valuation Technique	Input Unobservable (Dollars in thousands)	Range	Weighted Average
Assets:				(=		
Trust preferred securities	\$	1,516	Discounted cash flows	Spread over 3-month Libor	n/a	3.6 %
Liabilities:						
Junior subordinated debentures	\$	50,507	Discounted cash flows	Spread over 3-month Libor	n/a	3.6 %

The significant unobservable inputs used in the fair value measurement of the Company's trust preferred securities and junior subordinated debentures valued under Level 3 at March 31, 2023 and December 31, 2022, are the effective yields used in the cash flow models. Significant increases or decreases in the effective yield in isolation would result in a significantly lower or higher fair value measurement.

Notes to Consolidated Financial Statements

(Unaudited)

The following table sets forth the Company's assets and liabilities that are carried at fair value on a non-recurring basis and the level that was used to determine their fair value at March 31, 2023 and December 31, 2022:

		Quoted Prices in Active Markets for Identical Assets (Level 1)			Significant Other Observable Inputs (Level 2)				Significant Other Unobservable Inputs (Level 3)				Total carried at fair value on a non-recurring basis			
	2	023	20)22	20)23	2	022		2023		2022		2023		2022
								(In tho	usand	ls)						
Assets:

The following tables present the qualitative information about non-recurring Level 3 fair value of financial instruments and the fair value measurements at the periods indicated:

				At March 31, 2023		
	F	air Value	Valuation Technique	Unobservable Input	Range	Weighted Average
				(Dollars in thousands)		
Assets:						
Certain delinquent loans	\$	8,474	Sales approach	Adjustment to sales comparison value	-16.9% to 0.0 %	-1.5%
				Reduction for planned expedited disposal	7.5% to 15.0 %	9.9 %
Certain delinquent loans	\$	61	Discounted Cashflow	Discount Rate	4.3 %	4.3 %
				Probability of Default	35.0 %	35.0 %
				At December 31, 2022		
	F	air Value	Valuation Technique	Unobservable Input	Range	Weighted Average
				(Dollars in thousands)		
Assets:						
Certain delinquent loans	\$	18,189	Sales approach	Adjustment to sales comparison value	-20.0% to 0.0 %	-1.3%
				Reduction for planned expedited disposal	10.0% to 15.0 %	13.6 %
Certain delinquent loans	\$	141	Discounted Cashflow	Discount Rate	4.3 %	4.3 %
1	Ψ	171	Discounted Cashillow	Probability of Default	35.0 %	35.0 %

The Company did not have any liabilities that were carried at fair value on a non-recurring basis at March 31, 2023 and December 31, 2022.

Notes to Consolidated Financial Statements

(Unaudited)

The methods and assumptions used to estimate fair value at March 31, 2023 and December 31, 2022 are as follows:

Securities:

The fair values of securities are contained in Note 4 ("Securities") of the Notes to Consolidated Financial Statements. Fair value is based upon quoted market prices, where available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities and adjusted for differences between the quoted instrument and the instrument being valued. When there is limited activity or less transparency around inputs to the valuation, securities are valued using discounted cash flows.

Certain Delinquent Loans:

For certain delinquent loans, fair value is generally estimated by discounting management's estimate of future cash flows with a discount rate commensurate with the risk associated with such assets or, for collateral dependent loans, 85% of the appraised or internally estimated value of the property. See Note 5 ("Loans") of the Notes to the Consolidated Financial Statements.

Junior Subordinated Debentures:

The fair value of the junior subordinated debentures was developed using a credit spread based on stated spreads for recently issued subordinated debt instruments for issuers of similar asset size and credit quality of the Company and with similar durations adjusting for differences in the junior subordinated debt's credit rating, liquidity, and time to maturity. The unrealized net gain/loss attributable to changes in our own credit risk was determined by adjusting the fair value as determined in the proceeding sentence by the average rate of default on debt instruments with a similar debt rating as our junior subordinated debentures, with the difference from the original calculation and this calculation resulting in the instrument-specific unrealized gain/loss.

Interest Rate Swaps:

The fair value of interest rate swaps is based upon broker quotes.

Notes to Consolidated Financial Statements

11. Derivative Financial Instruments

At March 31, 2023 and December 31, 2022, the Company's derivative financial instruments consisted of interest rate swaps. The Company's interest rate swaps are used for three purposes: 1) to mitigate the Company's exposure to rising interest rates on certain fixed rate loans and securities totaling \$471.5 million and \$273.6 million at March 31, 2023 and December 31, 2022, respectively; 2) to facilitate risk management strategies for our loan customers with \$219.5 million of swaps outstanding, which include \$109.7 million each with customers and with bank counterparties at March 31, 2023

Notes to Consolidated Financial Statements

(Unaudited)

and \$221.2 million of swaps outstanding, which include \$110.6 million each with customers and bank counterparties at December 31, 2022; 3) to mitigate exposure to rising interest rates on certain short-term advances and brokered deposits totaling \$921.5 million at March 31, 2023, and \$871.5 at December 31, 2022.

At March 31, 2023 and December 31, 2022, we held derivatives designated as cash flow hedges, fair value hedges and certain derivatives not designated as hedges.

The Company's derivative instruments are carried at fair value in the Company's financial statements as part of Other Assets for derivatives with positive fair values and Other Liabilities for derivatives with negative fair values. The accounting for changes in the fair value of a derivative instrument is dependent upon whether or not it qualifies and has been designated as a hedge for accounting purposes, and further, by the type of hedging relationship.

At March 31, 2023 and December 31, 2022, derivatives with a combined notional amount of \$219.5 million and \$221.2 million, respectively, were not designated as hedges. At March 31, 2023 and December 31, 2022, derivatives with a combined notional amount of \$471.5 million and \$273.6 million, respectively, were designated as fair value hedges. At March 31, 2023 and December 31, 2022, derivatives with a combined notional amount of \$921.5 million and \$871.5 million, respectively, were designated as cash flow hedges.

For cash flow hedges, the changes in the fair value of the derivatives are reported in accumulated other comprehensive income (loss), net of tax. Amounts in accumulated other comprehensive loss are reclassified into earnings in the same period during which the hedged forecasted transaction effects earnings. During the three months ended March 31, 2023 and 2022, \$4.3 million in reduced expense and \$2.7 million in additional expense, respectively, was reclassified from accumulated other comprehensive loss to interest expense. The estimated amount to be reclassified in the next 12 months out of accumulated other comprehensive loss is \$15.5 million in reduced expense.

Changes in the fair value of interest rate swaps not designated as hedges are reflected in "Net gain (loss) from fair value adjustments" in the Consolidated Statements of Income.

The following table sets forth information regarding the Company's derivative financial instruments at the periods indicated:

	As	sets		Liabilities					
	 Notional Amount	Fa	Fair Value (1)		Notional Amount	Fa	air Value (1)

13. Regulatory Capital

Under current capital regulations, the Bank is required to comply with four separate capital adequacy standards and a Capital Conservation Buffer ("CCB"). As of March 31, 2023, the Bank continues to be categorized as "well-capitalized" under the prompt corrective action regulations and continues to exceed all regulatory capital requirements. The CCB for the Bank was 6.16% and 6.37% at March 31, 2023 and December 31, 2022, respectively.

Set forth below is a summary of the Bank's compliance with banking regulatory capital standards.

	March 31, 2023 (As Restated)			December 31, 2022

Excess		277,327	4.16	290,251	4.37	

Notes to Consolidated Financial Statements

(Unaudited)

The Company is subject to the same regulatory capital requirements as the Bank. As of March 31, 2023, the Company continues to be categorized as "well-capitalized" under the prompt corrective action regulations and continues to exceed all regulatory capital requirements. The CCB for the Company at March 31, 2023 and December 31, 2022 was 5.05% and 5.25%, respectively.

Set forth below is a summary of the Company's compliance with banking regulatory capital standards.

14. New Authoritative Accounting Pronouncements

Accounting Standards Adopted in 2023:

In March 2022, FASB issued ASU No. 2022-02, "Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures" (Topic 326), which replaces the recognition and measurement guidance related to TDRs for creditors that have adopted ASC Topic 326 (commonly referred to as "CECL") with the recognition and measurement guidance contained in Accounting Standards Codification ("ASC") 310-20, to determine whether a modification results in a new loan or a continuation of an existing loan. This ASU also enhances disclosures about loan modifications for borrowers who are experiencing financial difficulty. The guidance also requires public business entities to present gross write-offs by year of origination in their vintage disclosures. ASU 2022-02 is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The amendments in this ASU should be applied on a prospective basis; however, institutions have the option to apply a modified retrospective transition method as it relates to the recognition and measurement of TDRs, resulting in a cumulative-effect adjustment to retained earnings in the period of adoption. The ASU was adopted on January 1, 2023 without material impact on our business operations or to our consolidated financial statements.

Accounting Standards Pending Adoption:

In December 2022, the FASB issued ASU 2022-06, Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848, which extends the sunset (or expiration) date of Accounting Standards Codification (ASC) Topic 848 to December 31, 2024. This gives reporting entities two additional years to apply the accounting relief provided under ASC Topic 848 for matters related to reference rate reform. ASU 2022-06 is effective for all reporting entities immediately upon issuance and must be applied on a prospective basis. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

Notes to Consolidated Financial Statements

(Unaudited)

In January 2021, the FASB issued ASU No. 2021-01, "Reference Rate Reform" (Topic 848), which clarifies that certain optional expedients and exceptions in ASC 848 for contract modifications and hedge accounting apply to derivatives that are affected by the discounting transition. ASU 2021-01 also amends the expedients and exceptions in ASC 848 to capture the incremental consequences of the scope clarification and to tailor the existing guidance to derivative instruments affected by discounting transition. ASU 2021-01 was effective upon issuance and generally can be applied through December 31, 2022.

In March 2020, the FASB issued ASU No. 2020-04, "Reference Rate Reform" (Topic 848), which provides optional expedients and exceptions for applying GAAP to loan and lease agreements, derivative contracts, and other transactions affected by the anticipated transition away from LIBOR toward new interest rate benchmarks. For transactions that are modified because of reference rate reform and that meet certain scope guidance (i) modifications of loan agreements should be accounted for by prospectively adjusting the effective interest rate and the modification will be considered "minor" so that any existing unamortized origination fees/costs would carry forward and continue to be amortized and (ii) modifications of lease agreements should be accounted for as a continuation of the existing agreement with no reassessments of the lease classification and the discount rate or re-measurements of lease payments that otherwise would be required for modifications not accounted for as separate contracts. ASU 2020-04 also provides numerous optional expedients for derivative accounting. ASU 2020-04 is effective March 12, 2020 through December 31, 2022. An entity could elect to apply ASU 2020-04 for contract modifications as of January 1, 2020, or prospectively from a date within an interim period that includes or is subsequent to March 12, 2020, up to the date that the financial statements are available to be issued. Once elected for a Topic or an Industry Subtopic within the Codification, the amendments in this ASU must be applied prospectively for all eligible contract modifications for that Topic or Industry Subtopic. We anticipate this ASU will simplify any modifications we execute between the selected start date (yet to be determined) and December 31, 2022 that are directly related to LIBOR transition by allowing prospective recognition of the continuation of the contract, rather than extinguishment of the old contract resulting in writing off unamortized fees/costs. We are evaluating the impacts of this ASU and have not yet determined whether LIBOR transition and this ASU will have material effects on our business operations and consolidated financial statements. The amendments in this update apply to contract modifications that replace a reference rate reform and contemporaneous modifications of other terms related to the replacement of the reference rate.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report should be read in conjunction with the more detailed and comprehensive disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2022. In addition, please read this section in conjunction with our Consolidated Financial Statements and Notes to Consolidated Financial Statements contained herein.

As used in this Quarterly Report, the words "we," "us," "our" and the "Company" are used to refer to Flushing Financial Corporation and its direct and indirect wholly owned subsidiaries, Flushing Bank (the "Bank"), Flushing Service Corporation, and FSB Properties Inc.

Statements contained in this Quarterly Report relating to plans, strategies, objectives, economic performance and trends, projections of results of specific activities or investments and other statements that are not descriptions of historical facts may be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking information is inherently subject to risks and uncertainties and actual results could differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, factors discussed elsewhere in this Quarterly Report and in other documents filed by us with the Securities and Exchange Commission from time to time, including, without limitation, our Annual Report on Form 10-K for the year ended December 31, 2022. Forward-looking statements may be identified by terms such as "may," "will," "should," "could," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "forecasts," "goals," "potential" or "continue" or similar terms or the negative of these terms. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We have no obligation to update these forward-looking statements.

The Management's Discussion and Analysis of Financial Condition and Results of Operations that follow have been amended where appropriate to reflect the changes resulting from the restatement as discussed in the Explanatory Note above. The following sections have been updated to reflect this restatement: "Executive Summary", "Comparison of Operating Results for the Three Months Ended March 31, 2023 and 2022", "Financial Condition", "Average Balances", "Item 4 - Controls and Procedures" and "Item 1A – Risk Factors". The remaining sections were not impacted by the restatement and therefore were not updated.

Executive Summary

We are a Delaware corporation organized in May 1994. The Bank was organized in 1929 as a New York State-chartered mutual savings bank. Today the Bank operates as a full-service New York State-chartered commercial bank. The Bank's primary regulator is the New York State Department of Financial Services, and its primary federal regulator is the Federal Deposit Insurance Corporation ("FDIC"). Deposits are insured to the maximum allowable amount by the FDIC. Additionally, the Bank is a member of the Federal Home Loan Bank system. The primary business of Flushing Financial Corporation has been the operation of the Bank. At March 31, 2023, the Bank owns two subsidiaries: Flushing Service Corporation, and FSB Properties Inc. The Bank also operates an internet branch, which operates under the brands of iGObanking.com® and BankPurely® (the "Internet Branch"). The activities of Flushing Financial Corporation are primarily funded by dividends, if any, received from the Bank, issuances of subordinated debt, junior subordinated debt, and issuances of equity securities. Flushing Financial Corporation's common stock is traded on the NASDAQ Global Select Market under the symbol "FFIC."

Our principal business is attracting retail deposits from the general public and investing those deposits together with funds generated from ongoing operations and borrowings, primarily in (1) originations and purchases of multi-family residential loans, commercial business loans, commercial real estate mortgage loans and, to a lesser extent, one-to-four family loans (focusing on mixed-use properties, which are properties that contain both residential dwelling units and commercial units); (2) Small Business Administration ("SBA") loans and other small business loans; (3) construction loans; (4) mortgage loan surrogates such as mortgage-backed securities; and (5) U.S. government securities, corporate fixed-income securities and other marketable securities. We also originate certain other consumer loans including overdraft lines of credit. Our results of operations depend primarily on net interest income, which is the difference between the income earned on our interest-earning assets and the cost of our interest-bearing liabilities. Net interest income is the result of our net interest rate margin, which is the difference between the average yield earned on interest-earning assets and the average cost of interest-bearing liabilities, adjusted for the difference in the average balance of interest-earning assets as compared to the average balance of interestbearing liabilities. We also generate non-interest income primarily from loan fees, service charges on deposit accounts, and other fees, income earned on Bank Owned Life Insurance ("BOLI"), dividends on Federal Home Loan Bank of New York ("FHLB-NY") stock and net gains and losses on sales of securities and loans. Our operating expenses consist principally of employee compensation and benefits, occupancy and equipment costs, other general and administrative expenses and income tax expense. Our results of operations can also be significantly affected by changes in the fair value of financial assets and financial liabilities for which changes in value are recorded through earnings and our periodic provision for credit losses.

Our investment policy, which is approved by the Board of Directors, is designed primarily to manage the interest rate sensitivity of our overall assets and liabilities, to generate a favorable return without incurring undue interest rate risk and credit risk, to complement our lending activities and to provide and maintain liquidity. In establishing our investment strategies, we consider our business and growth strategies, the economic environment, our interest rate risk exposure, our interest rate sensitivity "gap" position, the types of securities to be held and other factors. We classify our investment securities as available for sale or held-to-maturity.

Table of Contents

PART I – FINANCIAL INFORMATION FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES Management's Discussions and Analysis of Financial Condition and Results of Operations

We carry a portion of our financial assets and financial liabilities under the fair value option and record changes in their fair value through earnings in non-interest income on our Consolidated Statements of Income and Comprehensive Income. A description of the financial assets and financial liabilities that are carried at fair value through earnings can be found in Note 10 ("Fair Value of Financial Instruments") of the Notes to the Consolidated Financial Statements.

For the three months ended March 31, 2023 we reported net income of \$4.0 million, or \$0.13 per diluted common share, a decrease of \$14.2 million, or 77.8% from net income of \$18.2 million, or \$0.58 per diluted common share earned in the comparable prior year period. The decrease in net income was primarily driven by an increase of 230 basis points in the cost of interest-bearing liabilities, which resulted in the net interest margin declining 109 basis points to 2.27% for the three months ended March 31, 2023, compared to 3.36% for the three months ended March 31, 2022.

During the three months ended March 31, 2023, the yield on interest-earning assets increased 17 basis points, while the cost of interest-bearing liabilities increased 69 basis points from the three months ended December 31, 2022, which resulted in a decrease of 43 basis points in net interest margin to 2.27% from 2.70%. Excluding net gains (losses) from qualifying hedges and purchase accounting adjustments, the net interest margin decreased 38 basis points to 2.25% for the three months ended March 31, 2023, from 2.63% for the three months ended December 31, 2022.

Our loan portfolio is greater than 88% collateralized by real estate with an average loan to value of less than 37%. We have a long history and foundation built upon disciplined underwriting, strong credit quality, and a resilient seasoned loan portfolio with solid asset protection. At March 31, 2023, our allowance for credit losses ("ACL") - loans stood at 56 basis points of gross loans and 182.9% of non-performing loans. Non-performing assets at the end of the quarter were 50 basis points of total assets.

Goodwill is presumed to have an indefinite life and is tested for impairment, rather than amortized, on at least an annual basis. Quoted market prices in active markets are the best evidence of fair value and are to be used as the basis for measurement, when available. If the fair value of the reporting unit exceeds its carrying amount, there is no impairment of goodwill. At March 31, 2023, the fair value of our reporting unit did not exceed its carrying value, however the fair value of our reporting unit is not driven solely by the market price of our stock. For the purpose of goodwill impairment testing, management has concluded that the Company has one reporting unit. We performed our annual impairment tests of goodwill during the fourth quarter 2022 using a quantitative assessment and concluded that the fair value of the reporting unit exceeded its carrying value by \$152.0 million, or 22.5%. At March 31, 2023, we reviewed goodwill again through a qualitative assessment concluding no impairment was indicated. We monitor goodwill for potential impairment triggers on a quarterly basis. Given the inherent uncertainties resulting from global macroeconomic conditions, actual results may differ from management's current estimates and could have an adverse impact on one or more of the assumptions used in our quantitative model prepared for the reporting unit, which could result in impairment charges in subsequent periods.

The Bank and Company remain well-capitalized under current capital regulations and are subject to the same regulatory capital requirements. See Note 13 ("Regulatory Capital") of the Notes to the Consolidated Financial Statements.

COMPARISON OF OPERATING RESULTS FOR THE THREE MONTHS ENDED MARCH 31, 2023 AND 2022

General. Net income for the three months ended March 31, 2023 was \$4.0 million, a decrease of \$14.2 million, or 77.8%, from \$18.2 million for the three months ended March 31, 2022. Diluted earnings per common share were \$0.13 for the three months ended March 31, 2023, a decrease of \$0.45 or 77.6%, from \$0.58 for the three months ended March 31, 2022. The decrease in net income was primarily due to a decline in the net interest margin which decreased 109 basis points to 2.27% for the three months ended March 31, 2023 from 3.36% for the comparable prior year period. The decline in the net interest margin was driven by our liability sensitive balance sheet as our interest-bearing liabilities repriced quicker than our interest-earning assets.

Return on average equity was 2.37% for the three months ended March 31, 2023 compared to 10.83% for the three months ended March 31, 2022. Return on average assets was 0.19% for the three months ended March 31, 2023 compared to 0.91% for the three months ended March 31, 2022.

Interest Income. Interest and dividend income increased \$20.8 million, or 29.2%, to \$92.1 million for the three months ended March 31, 2023 from \$71.3 million for the three months ended March 31, 2022. The increase in interest income was primarily attributable to the 84 basis point increase in the yield on interest-earning assets to 4.61% for the three months ended March 31, 2023 compared to 3.77% for the comparable prior year period. Excluding prepayment penalty income from loans, net recoveries/reversals of interest from non-accrual loans, net gains (losses) from fair value adjustments on qualifying hedges, and purchase accounting adjustments, the yield on total loans, net, increased 82 basis points to 4.76% for the three months ended March 31, 2023 from 3.94% for the three months ended March 31, 2022.

Interest Expense. Interest expense increased \$39.0 million, or 497.6%, to \$46.9 million for the three months ended March 31, 2023 from \$7.8 million for the three months ended March 31, 2022. The growth in interest expense was primarily due to an increase of 230 basis points in the average cost of interest-bearing liabilities to 2.80% for the three months ended March 31, 2023 from 0.50% for the three months ended March 31, 2022 and the increase of \$483.0 million in the average balance of interest-bearing liabilities to \$6,703.6 million for the three months ended March 31, 2023 from \$6,220.5 million for the comparable prior year period. Rising rates have driven the increase in our cost of funds as the Federal Reserve increased rates by 450 basis points over the past year.

Net Interest Income. Net interest income for the three months ended March 31, 2023 was \$45.3 million, a decrease of \$18.2 million, or 28.7%, from \$63.5 million for the three months ended March 31, 2022. In addition, net interest-earning

assets declined \$51.0 million year over year to \$1,298.8 million for the quarter ended March 31, 2023. The net interest margin decreased 109 basis points to 2.27% from March 31, 2022. The decrease in net interest income was primarily due to the cost of interest-bearing liabilities rising faster than the yield on interest-earning assets. The average cost of interest-bearing liabilities increased 230 basis points to 2.80% for the three months ended March 31, 2023 from 0.50% for the three months ended March 31, 2022 compared to 84 basis points to 4.61% for the interest-earning assets from 3.77% for the same period. After a lag, the net interest margin is expected to expand when the Fed stops raising rates. Included in net interest income for the three months ended March 31, 2023 and 2022, was prepayment penalty income, net reversals and recovered interest from non-accrual loans totaling \$0.7 million and \$1.7 million, respectively, net gains (losses) from fair value adjustments on qualifying hedges totaling \$0.1 million and (\$0.1) million for the three months ended March 31, 2023 and 2022, respectively, and purchase accounting income adjustments of \$0.3 million and \$1.1 million, respectively. Excluding all of these items, the net interest margin for the three months ended March 31, 2023 was 2.21%, a decrease of 101 basis points, from 3.22% for the three months ended March 31, 2022.

Provision for Credit Losses. During the three months ended March 31, 2023, the provision for credit losses was \$7.5 million compared to \$1.4 million for the three months ended March 31, 2022. The provision recorded during the three months ended March 31, 2023 was primarily due to a charge-off and increased reserves on two previously identified credits. The current average loan-to-value ratio for our non-performing assets collateralized by real estate was 50.7% at March 31, 2023. The Bank continues to maintain conservative underwriting standards.

Non-Interest Income. Non-interest income for the three months ended March 31, 2023 was \$6.9 million, an increase of \$5.5 million from \$1.3 million in the prior year comparable period. The increase was primarily due to the prior year period inclusion of net losses from fair value adjustments totaling \$1.8 million compared to net gains totaling \$2.6 million recorded during the current year period.

Non-Interest Expense. Non-interest expense for the three months ended March 31, 2023 was \$39.2 million, an increase of \$0.4 million, or 0.9%, from \$38.8 million for the three months ended March 31, 2022. The increase was primarily due to increases in FDIC insurance assessment rates and other operating expenses, partially offset by a decrease in salary related expense accruals in the first quarter of 2023 and the effects of the decreased stock price on the attendant benefits plans. In addition, during the first quarter of 2023, the Company recognized seasonal expenses totaling \$4.1 million compared to \$4.3 million in the first quarter of 2022.

Income before Income Taxes. Income before income taxes for the three months ended March 31, 2023 was \$5.5 million, a decrease of \$19.2 million, or 77.9%, from \$24.6 million for the three months ended March 31, 2022 for the reasons discussed above

Provision for Income Taxes. The provision for income taxes was \$1.4 million for the three months ended March 31, 2023, a decrease of \$5.0 million, or 78.0%, from \$6.4 million for the three months ended March 31, 2022. The decrease was primarily due to the decline in income before taxes and a decrease in the effective tax rate. The effective tax rate for three months ended March 31, 2023 was 25.9% compared to 26.1% for the three months ended March 31, 2022.

FINANCIAL CONDITION

Assets. Total assets at March 31, 2023 were \$8,479.7 million, an increase of \$56.8 million, or 0.7%, from \$8,422.9 million at December 31, 2022. Total net loans decreased \$28.9 million, or 0.4%, during the three months ended March 31, 2023, to \$6,865.4 million from \$6,894.3 million at December 31, 2022. Loan originations and purchases were \$173.5 million for the three months ended March 31, 2023, a decrease of \$155.8 million, or 47.3%, from \$329.3 million for the three months ended March 31, 2022. We continue to focus on the origination of multi-family residential, commercial real estate and commercial business loans with a full banking relationship. The loan pipeline was \$266.1 million at March 31, 2023, compared to \$252.2 million at December 31, 2022.

The following table shows loan originations and purchases for the periods indicated:

	For the three months ended March 31,			
(In thousands)	 2023 20			
Multi-family residential	\$ 42,164	\$	98,180	
Commercial real estate	15,570		45,102	
One-to-four family – mixed-use property	4,938		8,498	
One-to-four family – residential	4,296		9,261	
Construction (1)	10,592		8,802	
Small Business Administration	318		_	
Commercial business and other (2)	95,668		159,476	
Total	\$ 173,546	\$	329,319	

- (1) Includes purchases of \$0.1 million and \$0.7 million for the three months ended March 31, 2023 and 2022, respectively.
- (2) Includes purchases of \$44.3 million and \$53.6 million for the three months ended March 31, 2023 and 2022, respectively.

The Bank maintains its conservative underwriting standards that include, among other things, a loan-to-value ratio of 75% or less and a debt coverage ratio of at least 125%. Multi-family residential (excluding underlying co-operative mortgages), commercial real estate and one-to-four family mixed-use property mortgage loans originated and purchased during the three months ended March 31, 2023 had an average loan-to-value ratio of 46.7% and an average debt coverage ratio of 167.0%.

The Bank's non-performing assets totaled \$42.2 million at March 31, 2023, a decrease of \$11.2 million, or 21.0% from December 31, 2022. Total non-performing assets as a percentage of total assets were 0.50% at March 31, 2023 and 0.63% at December 31, 2022. The ratio of ACL - loans to total non-performing loans was 182.9% at March 31, 2023 and 124.9% at December 31, 2022.

During the three months ended March 31, 2023 mortgage-backed securities decreased \$4.2 million, or 1.1%, to \$388.0 million from \$392.2 million at December 31, 2022. The decrease in mortgage-backed securities during the three months ended March 31, 2023 was primarily due to the principal repayment of securities totaling \$9.7 million partially offset by an increase in the fair value of the securities totaling \$5.8 million.

During the three months ended March 31, 2023, other securities increased \$80.6 million, or 19.3%, to \$497.5 million from \$416.9 million at December 31, 2022. The increase in other securities during the three months ended March 31, 2023, was primarily due to purchases of \$93.1 million at an average rate of 6.47% partially offset by maturities totaling \$10.0 million and a decrease in the fair value of other securities totaling \$1.0 million. At March 31, 2023, other securities primarily consisted of securities issued by mutual or bond funds that invest in government and government agency securities, municipal bonds, corporate bonds, and CLOs.

Liabilities. Total liabilities were \$7,807.4 million at March 31, 2023, an increase of \$61.6 million, or 0.8%, from \$7,745.8 million at December 31, 2022. During the three months ended March 31, 2023, due to depositors increased \$218.3 million, or 3.4%, to \$6,655.5 million due an increase of certificates of deposit totaling \$353.9 million partially offset by a decrease in transaction accounts of \$135.6 million. The Company has based deposit growth on certificates of deposit as they extend liabilities thus reducing interest rate risk. Included in deposits were brokered deposits totaling \$853.2 million, a decrease of \$3.1 million from \$856.3 million at December 31, 2022. At March 31, 2023, the Company had uninsured and uncollateralized deposits totaling \$1.1 billion, or 16% of deposits. Borrowed funds decreased \$165.5 million during the three months ended March 31, 2023.

PART I – FINANCIAL INFORMATION FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES Management's Discussions and Analysis of

Management's Discussions and Analysis of Financial Condition and Results of Operations

Total deposits at March 31, 2023 and December 31, 2022 and the weighted average rate on deposits at March 31, 2023 and December 31, 2022, are as follows:

		Weighted	Weighted
		Average	Average

Equity. Total stockholders' equity decreased \$4.8 million, or 0.7%, to \$672.3 million at March 31, 2023, from \$677.2 million at December 31, 2022. Stockholders' equity decreased due to an increase in accumulated other comprehensive loss of \$1.3 million, the declaration and payment of dividends on the Company's common stock of \$0.22 per common share totaling \$6.7 million and 159,516 shares repurchased totaling \$3.1 million. These decreases were partially offset by net income of \$4.0 million. Book value per common share decreased to \$22.80 at March 31, 2023 compared to \$22.97 at December 31, 2022.

Liquidity. Liquidity is the ability to economically meet current and future financial obligations. The Company's primary objectives in terms of managing liquidity is to maintain the ability to originate and purchase loans, repay borrowings as they mature, satisfy financial obligations that arise in the normal course of business and meet our customer's deposit withdrawal needs. Our primary sources of funds are deposits, borrowings, principal and interest payments on loans, mortgage-backed and other securities, and proceeds from sales of securities and loans. Deposit flows and mortgage prepayments, however, are greatly influenced by general interest rates, economic conditions, and competition. The Company has other sources of liquidity, including unsecured overnight lines of credit, and other types of borrowings. At March 31, 2023, the Company had available liquidity totaling \$3.7 billion.

Liquidity management is both a short and long-term function of business management. During 2023, funds were provided by the Company's operating and financing activities, which were used to fund our investing activities. Our most liquid assets are cash and cash equivalents, which include cash and due from banks, overnight interest-earning deposits and federal funds sold with original maturities of 90 days or less. The level of these assets is dependent on our operating, financing, lending, and investing activities during any given period. At March 31, 2023, cash and cash equivalents totaled \$176.7 million and \$151.8 million, an increase of \$25.0 million, at March 31, 2023 and December 31, 2022, respectively. A portion of our cash and cash equivalents is restricted cash held as collateral for interest rate swaps. At March 31, 2023 and December 31, 2022, restricted cash totaled \$61.5 million and \$67.0 million, respectively.

INTEREST RATE RISK

Economic Value of Equity Analysis. The Consolidated Statements of Financial Position have been prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"), which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in fair value of certain investments due to changes in interest rates. Generally, the fair value of financial investments such as loans and securities fluctuate inversely with changes in interest rates. As a result, increases in interest rates could result in decreases in the fair value of the Company's interest-earning assets which could adversely affect the Company's results of operations if such assets were sold, or, in the case of securities classified as available for sale, decreases in the Company's stockholders' equity, if such securities were retained.

The Company quantifies the net portfolio value should interest rates immediately go up or down 100 or 200 basis points, assuming the yield curves of the rate shocks will be parallel to each other. Net portfolio value is defined as the market value of assets net of the market value of liabilities. The market value of assets and liabilities is determined using a discounted cash flow calculation. The net portfolio value ratio is the ratio of the net portfolio value to the market value of assets. The changes in value are measured as percentage changes from the net portfolio value at the base interest rate scenario. The base interest rate scenario assumes interest rates at March 31, 2023. Various estimates regarding prepayment assumptions are made at each level of rate shock. At March 31, 2023, the Company was within the guidelines set forth by the Board of Directors for each interest rate level.

The following table presents the Company's interest rate shock as of March 31, 2023:

	Net Portfolio Value (N	PV)
Change in Interest Rate	% Change in NPV NI	PV Ratio
-200 Basis points	(2.6)%	10.1 %

Income Simulation Analysis. The Company manages the mix of interest-earning assets and interest-bearing liabilities on a continuous basis to maximize return and adjust its exposure to interest rate risk. On a quarterly basis, management provides a report for review by the ALCO Investment Committee of the Board of Directors. This report quantifies the potential changes in net interest income through various interest rate scenarios.

The starting point for the net interest income simulation is an estimate of the next twelve months' net interest income assuming that both interest rates and the Company's interest-sensitive assets and liabilities remain at period-end levels.

The report quantifies the potential changes in net interest income should interest rates go up or down 100 or 200 basis points (shocked), assuming the yield curves of the rate shocks will be parallel to each other. All changes in income are measured as percentage changes from the projected net interest income at the base interest rate scenario. The base interest rate scenario assumes interest rates at March 31, 2023. Various estimates regarding prepayment assumptions are made at each level of rate shock. However, prepayment penalty income is excluded from this analysis. Actual results could differ significantly from these estimates.

PART I – FINANCIAL INFORMATION FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES Management's Discussions and Analysis of

Financial Condition and Results of Operations

The following table presents the Company's interest rate shock as of March 31, 2023:

	Projected Percentage
	Change In
	Net Interest Income
-200 Basis points	4.9 %
-100 Basis points	3.0
Base interest rate	
+100 Basis points	(5.9)
+200 Basis points	(12.2)

Another net interest income simulation assumes that changes in interest rates change gradually in equal increments over the twelve-month period. Prepayment penalty income is also excluded from this analysis. Based on these assumptions, net interest income would be reduced by 3.1% from a 100 basis point increase in rates over the next twelve months. Actual results could differ significantly from these estimates.

At March 31, 2023, the Company had a derivative portfolio with a notional value totaling \$1.6 billion. This portfolio is designed to provide protection against rising interest rates. See Note 11 ("Derivative Financial Instruments") of the Notes to the Consolidated Financial Statements.

A portion of this portfolio is comprised of interest rate swaps on certain short-term advances and brokered deposits totaling \$921.5 million. At March 31, 2023, \$621.5 million of the interest rate swaps are effective swaps at a weighted average rate of approximately 2.53% that mature through 2027 and \$300.0 million of the interest rate swaps are forward swaps effective at different points through 2023 and 2024, at an average rate of 1.80%.

AVERAGE BALANCES

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income depends upon the relative amount of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them. The following tables sets forth certain information relating to the Company's Consolidated Statements of Financial Condition and Consolidated Statements of Income for the three months ended March 31, 2023 and 2022, and reflects the average yield on assets and average cost of liabilities for the periods indicated. Such yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods shown. Average balances are derived from average daily balances. The yields include amortization of fees which are considered adjustments to yields.

⁽¹⁾ Loan interest income includes loan fee income (which includes net amortization of deferred fees and costs, late charges, and prepayment penalties) of approximately \$0.2 million and \$2.9 million for the three months ended March 31, 2023 and 2022, respectively.

⁽²⁾ Loan interest income includes net gains (losses) from fair value adjustments on qualifying hedges of \$0.1 and (\$0.1) million for three months ended March 31, 2023 and 2022, respectively.

⁽³⁾ Interest and yields are calculated on the tax equivalent basis using the statutory federal income tax rate of 21% for the periods presented totaling \$0.1 million each for the three months ended March 31, 2023 and 2022.

LOANS

The following table sets forth the Company's loan originations (including the net effect of refinancing) and the changes in the Company's portfolio of loans, including purchases, sales and principal reductions for the periods indicated.

financial statements. See Note 14 ("New Authoritative Accounting Pronouncements") of the Notes to the Consolidated Financial Statements.

The following table shows loans classified as TDR at amortized cost that are performing according to their restructured terms at the period indicated:

(In thousands)	December 31, 2022	
Accrual Status:		
Multi-family residential	\$ 1,673	
Commercial real estate	7,572	
One-to-four family - mixed-use property	974	
One-to-four family - residential	253	
Commercial business and other	1,069	
Total	 11,541	
Non-Accrual Status:		
One-to-four family - mixed-use property	248	
Commercial business and other	 28	
Total	 276	
Total performing troubled debt restructured	\$ 11,817	

The following table shows our non-performing assets at the periods indicated:

(In thousands)	March 31, 2023	, ,	
Loans 90 days or more past due and still accruing:			
Construction	\$ —	\$	2,600
Total			2,600
Non-accrual loans:			
Multi-family residential	3,628		3,206
Commercial real estate			237
One-to-four family - mixed-use property (1)	790		790
One-to-four family - residential	4,961		4,425
Small business administration	937		937
Commercial Business and other (1)	10,860		20,187
Total	21,176	-	29,782
Total non-performing loans	21,176		32,382
Other non-performing assets:			
Held-to-maturity securities	20,981		20,981
Total	20,981		20,981
Total non-performing assets	\$ 42,157	\$	53,363
Non-performing assets to total assets	0.50	%	0.63 %
ACL - loans to non-accrual loans	182.89	%	135.79 %
ACL - loans to non-performing assets	91.87	⁄o	75.79 %

⁽¹⁾ Not included in the above analysis are the following non-accrual TDRs that are performing according to their restructured terms: one-to-four family mixed-use property loans totaling \$0.2 million at December 31, 2022, and commercial business loans totaling less than \$0.1 million at December 31, 2022.

CRITICIZED AND CLASSIFIED ASSETS

Our policy is to review our assets, focusing primarily on the loan portfolio, other real estate owned, and the investment portfolios, to ensure that credit quality is maintained at the highest levels. See Note 5 ("Loans") of the Notes to the Consolidated Financial Statements for a description of how loans are determined to be criticized or classified and a table displaying criticized and classified loans at March 31, 2022. The amortized cost of Criticized and Classified assets were \$80.6 million at March 31, 2023, a decrease of \$8.3 million from \$88.9 million at December 31, 2022. The Company had one investment security with an amortized cost of \$21.0 million classified as substandard at March 31, 2023 and December 31, 2022.

Included within net loans at both March 31, 2023 and December 31, 2022, were \$5.2 million of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings were in process according to local requirements of the applicable jurisdiction.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the qualitative and quantitative disclosures about market risk, see the information under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk."

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2023, the design and operation of these disclosure controls and procedures were effective. During the period covered by this Quarterly Report, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Since that evaluation, however, and as a result of the material weakness in the Company's internal control over financial reporting discussed below, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of March 31, 2023, the Company's disclosure controls and procedures were not effective to provide reasonable assurance that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms, and that such information is accumulated and communicated to management to allow timely decisions regarding required disclosure.

The Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for certain ERCs for the three-month period ended March 31, 2023. In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, however, the Company determined that it could no longer rely on such advice and is not able to treat the ultimate realization of the ERCs as "probable" under GAAP.

Management determined that the foregoing constitutes a material weakness in the Company's internal control over financial reporting. Management is taking steps to remediate the material weakness in its internal control over financial reporting relating to the proper accounting treatment of the ERCs. These steps will include the preparation of a technical accounting memorandum for any material unusual transactions including careful evaluation of any probability assessments or other areas of judgment involved, such as the ERCs, to determine the correct accounting treatment for such transactions. Management believes the additional control procedures designed, and when implemented, will fully remediate the material weakness.

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in various lawsuits. Management of the Company, after consultation with outside legal counsel, believes that the resolution of these various matters will not result in any material adverse effect on the Company's consolidated financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes from the risk factors disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2022.

The Company has identified a material weakness in its internal controls and cannot provide assurances that this weakness will be effectively remediated or that additional material weaknesses will not occur in the future.

The Company's management is responsible for establishing and maintaining adequate internal control over our financial reporting, as defined in Rule 13a-15(f) under the Exchange Act, which is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

The Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for certain ERCs for the three-month period ended March 31, 2023. In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, however, the Company determined that it could no longer rely on such advice and was not able to treat the ultimate realization of the ERCs as "probable" under GAAP.

In connection with the foregoing, management of the Company concluded that a material weakness in the Company's internal control over financial reporting existed as of March 31, 2023. Specifically, the Company did not maintain effective controls over the probability assessment associated with the recognition of income related to the ERCs. While the Company is taking steps to remediate the material weakness, it cannot provide assurance that such remedial measures will be effective. If the Company fails to maintain effective internal control over financial reporting, it may not be able to accurately report its financial results, which may, among other adverse consequences, cause investors to lose confidence in the Company's reported financial information.

Recent events affecting the banking industry predicated by the failure of three regional banks and resulting media coverage may have eroded customer confidence in the banking system and have adversely impacted liquidity, particularly for regional and community banks like Flushing Bank.

Recent bank failures have generated significant market volatility and adversely impacted stock prices among publicly traded bank holding companies and, in particular, regional and community banks like the Company. Many regional banks experienced higher than normal deposit outflows immediately following the first regional bank failures in March 2023; however, Flushing Bank did not experience such outflows. These developments have negatively impacted customer confidence in the safety and soundness of regional and community banks. As a result of these recent events, customers may choose to maintain deposits with larger financial institutions or in other higher yielding alternatives, which could materially adversely impact the Company's liquidity, loan funding capacity, net interest margin, capital and results of operations. While the Department of the Treasury, the Federal Reserve, and the FDIC have made statements regarding the safety and soundness of the banking system and taken actions to ensure that depositors of recently failed banks would have access to their deposits, including uninsured deposit accounts, there is no guarantee that such actions will be successful in restoring customer confidence in regional and community banks and the banking system more broadly.

These recent events may result in potentially adverse changes to laws or regulations governing banks and bank holding companies or in the impositions of restrictions through supervisory or enforcement activities, including higher capital or liquidity requirements, which could have a material impact on our business. The cost of resolving the recent bank failures may prompt the FDIC to increase its deposit insurance premiums or assessments.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information regarding the shares of common stock repurchased by the Company during the three months ended March 31, 2023:

					Maximum
				Total Number of	Number of
	Total			Shares Purchased	Shares That May
	Number			as Part of Publicly	Yet Be Purchased
	of Shares	Av	erage Price	Announced Plans	Under the Plans
Period	Purchased	Pai	id per Share	or Programs	or Programs
January 1 to January 31, 2023	129,668	\$	18.89	129,668	464,794
February 1 to February 28, 2023	29,848		20.22	29,848	434,946
March 1 to March 31, 2023	_		_	_	434,946
Total	159,516	\$	19.14	159,516	

During the quarter ended March 31, 2023, the Company repurchased 159,516 shares of the Company's common stock. On March 31, 2023, 434,946 shares remained to be repurchased under the currently authorized stock repurchase programs. Stock will be purchased under the current stock repurchase programs from time to time, in the open market or through private transactions, subject to market conditions. There is no expiration or maximum dollar amount under these authorizations.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, John R. Buran, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q/A of Flushing Financial Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32.2

CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Flushing Financial Corporation (the "Corporation") on Form 10-Q/A for the period ended March 31, 2023 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Susan K. Cullen, Chief Financial Officer of the Corporation, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- (1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Corporation.
