## Flushing Financial Corporation

Reports 2023 and 4Q23 GAAP EPS of $\$ 0.96$ and $\$ 0.27$, and Core EPS of $\$ 0.83$ and $\$ 0.25$, Respectively; Continues to Successfully Execute On Its Action Plan
"Flushing Financial delivered sequential GAAP and Core NIM expansion in 4Q23 of 7 and 18 basis points, respectively, as our team continued to successfully execute against the previously announced action plan amid this challenging environment. Importantly, during the quarter, total average deposits increased $3.1 \% \mathrm{YoY}$ and $0.9 \% \mathrm{QoQ}$, while average noninterest bearing deposits increased $\$ 21.6$ million, or $2.5 \%$ QoQ. Our loan portfolio remains resilient through the credit cycle with $89 \%$ secured by real estate, strong debt service coverage ratios, low average loan to values, and controllable repricing risk. Credit quality continues to be a strength for the Company with less than one basis point of net charge-offs in 4Q23 although there was a slight uptick in NPAs.

Given our progress to date, we are expanding our areas of focus to include: 1) increasing NIM and reducing volatility; 2) maintaining credit discipline; 3) preserving strong liquidity and capital; and 4) bending the expense curve. Continuing to advance these priorities will enable us to navigate the current environment while positioning the Company for long-term profitable growth."

## FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES RECONCILIATION OF GAAP EARNINGS and CORE EARNINGS

## Non-cash Fair Value Adjustments to GAAP Earnings

The variance in GAAP and core earnings is partly driven by the impact of non-cash net gains and losses from fair value adjustments. These fair value adjustments relate primarily to borrowings carried at fair value under the fair value option.

Core Net Income, Core Diluted EPS, Core ROAE, Core ROAA, Pre-provision Pre-tax Net Revenue, Core Net Interest Income FTE, Core Net Interest Margin FTE, Core Interest Income and Yield on Total Loans, Core Noninterest Income, Core Noninterest Expense and Tangible Book Value per common share are each non-GAAP measures used in this release. A reconciliation to the most directly comparable GAAP financial measures appears below in tabular form. The Company believes that these measures are useful for both investors and management to understand the effects of certain interest and noninterest items and provide an alternative view of the Company's performance over time and in comparison, to the Company's competitors. These measures should not be viewed as a substitute for net income. The Company believes that tangible book value per common share is useful for both investors and management as this measure is commonly used by financial institutions, regulators, and investors to measure the capital adequacy of financial institutions. The Company believes these measures facilitate comparison of the quality and composition of the Company's capital over time and in comparison, to its competitors. These measures should not be viewed as a substitute for total shareholders' equity.

These non-GAAP measures have inherent limitations, are not required to be uniformly applied and are not audited. They should not be considered in isolation or as a substitute for analysis of results reported under GAAP. These non-GAAP measures may not be comparable to similarly titled measures reported by other companies.

[^0]:    ${ }^{1}$ Episodic items include prepayment penalty income, customer swap termination fees, net reversals and recovered interest from nonaccrual loans, net gain/loss from fair value on qualifying hedges, and purchase accounting adjustments

[^1]:    ${ }^{\text {1) }}$ Ratios are presented on an annualized basis, where appropriate.
    Yields are calculated on the tax equivalent basis using the statutory federal income tax rate of $21 \%$ for the periods presented.
    ${ }^{(3)}$ Efficiency ratio, a non-GAAP measure, was calculated by dividing core noninterest expense (excluding OREO expense and the net gain/loss from the sale of OREO) by the total of core net interest income and core noninterest income.
    (4) Calculated by dividing stockholders' equity by shares outstanding.
    (5) Calculated by dividing tangible stockholders' common equity, a non-GAAP measure, by shares outstanding. Tangible stockholders' common equity is stockholders' equity less intangible assets. See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets". See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets".
    ${ }^{(7)}$ Excludes performing nonaccrual TDR loans in periods prior to 1Q23

[^2]:    ${ }^{(1)}$ Core diluted earnings per common share may not foot due to rounding.
    (2) Ratios are calculated on an annualized basis.
