

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q/A
(Amendment No. 1)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2023

Commission file number 001-33013

FLUSHING FINANCIAL CORPORATION
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

11-3209278
(I.R.S. Employer Identification No.)

220 RXR Plaza, Uniondale, New York 11556
(Address of principal executive offices)

(718) 961-5400
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.01 par value	FFIC	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the exchange act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares of the registrant's Common Stock outstanding as of July 31, 2023 was 28,963,936.

EXPLANATORY NOTE

This amended and restated Quarterly Report on Form 10-Q/A (this “Quarterly Report”) amends and restates in its entirety the Quarterly Report on Form 10-Q for the three and six months ended June 30, 2023, filed by Flushing Financial Corporation (the “Company”) with the Securities and Exchange Commission (the “SEC”) on August 9, 2023.

As disclosed in the Company’s Current Report on Form 8-K filed with the SEC on January 26, 2024, management and the Audit Committee of the Board of Directors of the Company determined that the Company’s consolidated financial statements for the three- and six-month periods ended June 30, 2023, required restatement to correct the accounting treatment of employee retention credits (the “ERCs”) and disclosures, which ERCs were incorrectly recognized as income during such periods. The change impacted net income by an increase of \$0.1 million and a decrease of \$1.1 million, respectively, for the three- and six-month periods ended June 30, 2023.

In the course of preparing the Company’s consolidated financial statements for the fiscal year ended December 31, 2023, the Company determined that, notwithstanding reliance on its independent tax credit advisors, it is not able to treat the ultimate realization of the ERCs as “probable” under U.S. generally accepted accounting practices, therefore, requiring the restatement of the Company’s previously issued consolidated financial statements for the referenced periods and amendments to the Company’s related previously filed quarterly reports on Form 10-Q during such year.

Although the Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for the ERCs as previously reported, the Company determined that it could no longer rely on such advice.

In connection with its evaluation of the restatements described above, management of the Company has concluded that a material weakness in the Company’s internal control over financial reporting existed as of June 30, 2023. Specifically, the Company did not maintain effective controls over the probability assessment associated with the recognition of income related to the ERCs. See additional discussion included in Part I – Item 4, “Controls and Procedures” of this Quarterly Report.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The primary business of Flushing Financial Corporation (the “Company”), a Delaware corporation, is the operation of its wholly owned subsidiary, Flushing Bank (the “Bank”).

The unaudited consolidated financial statements presented in this Quarterly Report on Form 10-Q/A (“Quarterly Report”) include the collective results of the Company and its direct and indirect wholly owned subsidiaries, including the Bank, Flushing Service Corporation and FSB Properties Inc., which are collectively herein referred to as “we,” “us,” “our” and the “Company.”

The Company also owns Flushing Financial Capital Trust II, Flushing Financial Capital Trust III, and Flushing Financial Capital Trust IV (the “Trusts”), which are special purpose business trusts. The Trusts are not included in the Company’s consolidated financial statements, as the Company would not absorb the losses of the Trusts if any losses were to occur.

The accompanying unaudited consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and general practices within the banking industry. The information furnished in these interim statements reflects all adjustments that are, in the opinion of management, necessary for a fair statement of the results for such presented periods of the Company. Such adjustments are of a normal recurring nature, unless otherwise disclosed in this Quarterly Report. All inter-company balances and transactions have been eliminated in consolidation. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for the full year.

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions to Quarterly Report on Form 10-Q and Article 10, Rule 10-01 of Regulation S-X for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The unaudited consolidated interim financial information should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2022.

When necessary, certain reclassifications were made to prior-year amounts to conform to the current-year presentation. Such reclassifications had no effect on the prior period net income or shareholders’ equity and were insignificant amounts.

This Quarterly Report amends and restates in its entirety the Quarterly Report on Form 10-Q for the three and six months ended June 30, 2023, filed with the SEC on August 9, 2023.

As disclosed in the Company’s Current Report on Form 8-K filed with the SEC on January 26, 2024, management and the Audit Committee of the Board of Directors of the Company determined that the Company’s consolidated financial statements for the three- and six-month periods ended June 30, 2023, required restatement to correct the accounting treatment of employee retention credits (the “ERCs”) and disclosures, which ERCs were incorrectly recognized as income during such periods. The change impacted net income by an increase of \$0.1 million and a decrease of \$1.1 million, respectively, for the three- and six-month periods ended June 30, 2023.

In the course of preparing the Company’s consolidated financial statements for the fiscal year ended December 31, 2023, the Company determined that, notwithstanding reliance on its independent tax credit advisors, it is not able to treat the ultimate realization of the ERCs as “probable” under U.S. generally accepted accounting practices, therefore, requiring the restatement of the Company’s previously issued consolidated financial statements for the referenced periods and amendments to the Company’s related previously filed quarterly reports on Form 10-Q during such year.

Although the Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for the ERCs as previously reported, the Company determined that it could no longer rely on such advice.

2. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Estimates that are particularly susceptible to change in the near term are used in connection with the determination of the allowance for credit losses, the evaluation of goodwill for impairment, the review of the need for a valuation allowance of the Company's deferred tax assets, and the fair value of financial instruments.

Goodwill represents the excess purchase price over the value assigned to tangible and identifiable intangible assets, and liabilities assumed of business acquired. Goodwill is presumed to have an indefinite life and is tested annually for impairment, or more frequently when certain conditions are met. If the fair value of the reporting unit is greater than the carrying value, no further evaluation is required. If the fair value of the reporting unit is less than the carrying value, further evaluation would be required to compare the fair value of the reporting unit to the carrying value and determine if impairment is required.

Quoted market prices in active markets are the best evidence of fair value and are to be used as the basis for measurement, when available. Other acceptable valuation methods include an asset approach, which determines a fair value based upon the value of assets net of liabilities, an income approach, which determines fair value using one or more methods that convert anticipated economic benefits into a present single amount, and a market approach, which determines a fair value based on the similar businesses that have been sold.

At June 30, 2023, the book value of our reporting unit exceeded market capitalization, however the fair value of our reporting unit is not driven solely by the market price of our stock. As described above, the fair value can also be derived using an asset approach, an income approach and a market approach, or a combination of these techniques. At June 30, 2023, the Company used an income approach and a market approach to determine the fair value of the reporting unit. These valuation techniques consider several other factors beyond our market capitalization, such as the estimated future cash flows of our reporting unit, the discount rate used to present value such cash flows and the market multiples of comparable companies. Changes to input assumptions used in the analysis could result in materially different evaluations of goodwill impairment. We qualitatively assess whether the carrying value of our reporting unit exceeds fair value. If this qualitative assessment determines that it is more likely than not that the carrying value of our reporting unit exceeds fair value, further quantitative evaluation for impairment would be required to compare the fair value of the reporting unit to the carrying value and determine if impairment is required.

In performing the goodwill impairment testing, the Company has identified a single reporting unit. The Company performed a quantitative assessment in reviewing the carrying value of goodwill as of December 31, 2022, which was repeated in the second quarter of 2023, concluding that there was no goodwill impairment at June 30, 2023. At June 30, 2023 and December 31, 2022, the carrying amount of goodwill totaled \$17.6 million at each period. The identification of additional reporting units, the use of other valuation techniques and/or changes to input assumptions used in the analysis could result in materially different evaluations of goodwill impairment.

The Company reviewed each available for sale security that had an unrealized loss at June 30, 2023, and December 31, 2022. The Company does not have the intent to sell these securities, and it is more likely than not the Company will not be required to sell the securities before recovery of the securities' amortized cost basis. If the Company identifies any decline in the fair value due to credit loss factors and evaluation indicates that a credit loss exists, then the present value of cash flows that is expected to be collected from the security is compared to the amortized cost basis of the security. If the present value of the cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. All of these securities are rated investment grade or above and have a long history of no credit losses. It is not anticipated that these securities would be settled at a price that is less than the amortized cost of the Company's investment.

In determining the risk of loss for available for sale securities, the Company considered that mortgage-backed securities are either fully guaranteed or issued by a government sponsored enterprise, which has a credit rating and perceived credit risk comparable to the U.S. government, and that issuers of the collateralized loan obligations ("CLO") and the issuer of corporate securities are global systematically important banks. Each of these securities is performing according to its terms and, in the opinion of management, will continue to perform according to its terms. Based on this review, management believes that the unrealized losses have resulted from other factors not deemed credit-related and no allowance for credit loss was recorded.

The Company reviewed each held-to-maturity security at June 30, 2023, and December 31, 2022 as part of its quarterly Current Expected Credit Loss ("CECL") process, resulting in an allowance for credit losses of \$1.1 million at each of June 30, 2023 and December 31, 2022.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

It is the Company’s policy to exclude accrued interest receivable from the calculation of the allowance for credit losses on held-to-maturity and the valuation of available for sale securities. Accrued interest receivable on held-to-maturity securities totaled \$0.1 million each at June 30, 2023 and December 31, 2022 and accrued interest receivable on available for sale debt securities totaled \$5.9 million and \$3.7 million at June 30, 2023 and December 31, 2022, respectively.

The following table presents the activity in the allowance for credit losses for debt securities held-to-maturity.

	For the three months ended June 30,		For the six months ended June 30,	
	2023	2022	2023	2022
	<i>(In thousands)</i>			
Beginning balance	\$ 1,087	\$ 986	\$ 1,100	\$ 862
(Benefit) provision	(8)	99	(21)	223
Allowance for credit losses	\$ 1,079	\$ 1,085	\$ 1,079	\$ 1,085

Realized gains and losses on the sales of securities are determined using the specific identification method. The Company did not sell any securities during the three and six months ended June 30, 2023 and 2022.

Total loans, net of fees and costs excluding portfolio layer basis adjustments	<u>6,839,050</u>	<u>6,934,769</u>
Unallocated portfolio layer basis adjustments ⁽¹⁾	(6,625)	—
Total loans, net of fees and costs	<u>\$ 6,832,425</u>	<u>\$ 6,934,769</u>

(1) This amount represents portfolio layer method basis adjustments related to loans hedged in a closed portfolio. Under GAAP portfolio layer method basis adjustments are not allocated to individual loans, however, the amounts impact the net loan balance. These basis adjustments would be allocated to the amortized cost of specific loans within the pool if the hedge was de-designated. See Note 11 (“Derivative Financial Instruments”) of the Notes to the Consolidated Financial Statements.

Loans are reported at their outstanding principal balance net of any unearned income, charge-offs, deferred loan fees and costs on originated loans and unamortized premiums or discounts on purchased loans. Loan fees and certain loan origination costs are deferred. Net loan origination costs and premiums or discounts on loans purchased are amortized into interest income over the contractual life of the loans using the level-yield method. Prepayment penalties received on loans which pay in full prior to their scheduled maturity are included in interest income in the period they are collected.

Interest on loans is recognized on an accrual basis. Accrued interest receivable totaled \$39.5 million and \$36.8 million at June 30, 2023, and December 31, 2022, respectively, and was reported in “Interest and dividends receivable” on the Consolidated Statements of Financial Condition. The accrual of income on loans is generally discontinued when certain factors, such as contractual delinquency of 90 days or more, indicate reasonable doubt as to the timely collectability of such income. Uncollected interest previously recognized on non-accrual loans is reversed from interest income at the time the loan is placed on non-accrual status. A non-accrual loan can be returned to accrual status when contractual delinquency returns to less than 90 days delinquent. Payments received on non-accrual loans that do not bring the loan to less than 90 days delinquent are recorded on a cash basis. Payments can also be applied first as a reduction of principal until all principal is recovered and then subsequently to interest, if in management’s opinion, it is evident that recovery of all principal due is likely to occur.

Allowance for credit losses

The allowance for credit losses (“ACL”) is an estimate that is deducted from the amortized cost basis of the financial asset to present the net carrying value at the amount expected to be collected on the financial assets. Loans are charged off against that ACL when management believes that a loan balance is uncollectable based on quarterly analysis of credit risk.

The amount of the ACL is based upon a loss rate model that considers multiple factors which reflects management’s assessment of the credit quality of the loan portfolio. Management estimates the allowance balance using relevant information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. The factors are both quantitative and qualitative in nature including, but not limited to, historical losses,

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

economic conditions, trends in delinquencies, value and adequacy of underlying collateral, volume and portfolio mix, and internal loan processes.

The Company recorded a provision for credit losses on loans totaling \$1.4 million and \$1.5 million for the three months ended June 30, 2023 and 2022, respectively. The Company recorded a provision for credit losses on loans totaling \$8.9 million and \$2.7 million for the six months ended June 30, 2023 and 2022, respectively. The provision recorded during the six months ended June 30, 2023, was driven by fully reserving for two non-accrual business loans that were subsequently charged-off in the first quarter of 2023, and increasing reserves for the elevated risk presented by the current rate environment to adjustable-rate loan’s debt coverage ratios, partially offset by a decline in loan balances during the period. During the six months ended June 30, 2023, the reasonable and supportable forecast period and reversion period were two and four quarters, respectively unchanged, from December 31, 2022. The ACL - loans totaled \$38.6 million on June 30, 2023 compared to \$40.4 million on December 31, 2022. On June 30, 2023, the ACL - loans represented 0.57% of gross loans and 207.1% of non-performing loans. On December 31, 2022, the ACL - loans represented 0.58% of gross loans and 124.9% of non-performing loans.

The Company may modify loans to enable a borrower experiencing financial difficulties to continue making payments when it is deemed to be in the Company’s best long-term interest. When modifying a loan, an assessment of whether a borrower is experiencing financial difficulty is made on the date of modification. This modification may include reducing the loan interest rate, extending the loan term, any other-than-insignificant payment delay, principal forgiveness or any combination of these types of modifications. When such modifications are performed, a change to the allowance for credit losses is generally not required as the methodologies used to estimate the allowance already capture the effect of borrowers experiencing financial difficulty. During the three months ended June 30, 2023, there was one loan modified to a borrower experiencing financial difficulty. On June 30, 2023, there were no commitments to lend additional funds to borrowers who have received a loan modification as a result of financial difficulty.

On January 1, 2023, the Company adopted ASU No. 2022-02, “Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures” without material impact on the business operations or consolidated financial statements. See Note 14 (“New Authoritative Accounting Pronouncements”) of the Notes to the Consolidated Financial Statements.

The following table shows loans modifications made to borrowers experiencing financial difficulty during the periods indicated:

<i>(Dollars in thousands)</i>	For the three and six months ended, June 30, 2023

In accordance with our policy and the current regulatory guidelines, we designate loans as “Special Mention,” which are considered “Criticized Loans,” and “Substandard,” “Doubtful,” or “Loss,” which are considered “Classified Loans.” If a loan does not fall within one of the previously mentioned categories and management believes weakness is evident then we designate the loan as “Watch;” all other loans would be considered “Pass.” Loans that are non-accrual are designated as Substandard, Doubtful or Loss. These loan designations are updated quarterly. We designate a loan as Substandard when a well-defined weakness is identified that may jeopardize the orderly liquidation of the debt. We designate a loan as Doubtful when it displays the inherent weakness of a Substandard loan with the added provision that collection of the debt in full, on the basis of existing facts, is highly improbable. We designate a loan as Loss if it is deemed the debtor is incapable of repayment. The Company does not hold any loans designated as Loss, as loans that are designated as Loss are charged to the Allowance for Credit Losses. We designate a loan as Special Mention if the asset does not warrant classification within one of the other classifications but does contain a potential weakness that deserves closer attention.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

Included within net loans were \$5.7 million and \$5.2 million at June 30, 2023 and December 31, 2022, respectively, of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings were in process according to local requirements of the applicable jurisdiction.

A loan is considered collateral dependent when the borrower is experiencing financial difficulties and repayment is expected to be substantially provided by the operation or sale of the collateral. The following table presents types of collateral-dependent loans by class of loans as of the periods indicated:

<i>(In thousands)</i>	Collateral Type			
	June 30, 2023		December 31, 2022	
	Real Estate	Business Assets	Real Estate	Business Assets
Multi-family residential	\$ 3,600	\$ —	\$ 3,547	\$ —
Commercial real estate	—	—	254	—
One-to-four family - mixed-use property	797	—	1,045	—
One-to-four family - residential	4,632	—	3,953	—
Small Business Administration	—	1,124	—	950
Commercial business and other	—	8,287	2,853	17,340
Total	<u>\$ 9,029</u>	<u>\$ 9,411</u>	<u>\$ 11,652</u>	<u>\$ 18,290</u>

Off-Balance Sheet Credit Losses

Also included within scope of the CECL standard are off-balance sheet loan commitments, which includes the unfunded portion of committed lines of credit and commitments “in-process”. Commitments “in-process” reflect loans not in the Company’s books but rather negotiated loan / line of credit terms and rates that the Company has offered to customers and is committed to honoring. In reference to “in-process” credits, the Company defines an unfunded commitment as a credit that has been offered to and accepted by a borrower, which has not closed and by which the obligation is not unconditionally cancellable.

Commitments to extend credit (principally real estate mortgage loans) and lines of credit (principally home equity lines of credit and business lines of credit) totaled \$402.4 million and \$438.5 million on June 30, 2023, and December 31, 2022, respectively.

The following table presents the activity in the allowance for off-balance sheet credit losses for the three and six months ended June 30, 2023, and 2022.

	For the three months ended		For the six months ended	
	June 30,		June 30,

7. Leases

The Company has 31 operating leases for branches (including headquarters) and office spaces, 9 operating leases for vehicles, and one operating lease for equipment. Our leases have remaining lease terms ranging from four months to approximately 13 years, none of which has a renewal option reasonably certain of exercise, which has been reflected in the Company’s calculation of the lease term.

The Company has elected the short-term lease recognition exemption such that the Company will not recognize Right of Use (“ROU”) assets or lease liabilities for leases with a term of less than 12 months from the commencement date. The Company has four agreements in 2023 and two agreements in 2022 that qualified as short-term leases.

Certain leases have escalation clauses for operating expenses and real estate taxes. The Company’s non-cancelable operating lease agreements expire through 2036.

Supplemental balance sheet information related to leases are as follows:

<i>(Dollars in thousands)</i>	June 30, 2023	December 31, 2022
Operating lease ROU asset	\$ 41,526	\$ 43,289
Operating lease liability	\$ 44,402	\$ 46,125
Weighted-average remaining lease term-operating leases	6.5 years	6.6 years
Weighted average discount rate-operating leases	3.2 %	2.9 %

Total minimum payments required	49,097
Less: implied interest	<u>4,695</u>
Total lease obligations	<u>\$ 44,402</u>

8. Stock-Based Compensation

The Company has a long-term incentive compensation program for certain Company executive officers that includes grants of performance-based restricted stock units (“PRSUs”) in addition to time-based restricted stock units (“RSU”). Under the terms of the PRSU Agreement, the number of PRSUs that may be earned depends on the extent to which performance goals for the award are achieved over a three-year performance period, as determined by the Compensation Committee of the Board. As of June 30, 2023, PRSUs granted in 2023 and 2022 are being accrued at target and PRSUs granted in 2021 are being accrued above target. The different levels of accrual are commensurate with the projected performance of the respective grant.

On May 18, 2021, stockholders approved an amendment to the 2014 Omnibus Plan (the “Amendment”) authorizing an additional 1,100,000 shares available for future issuance. Including the additional shares authorized from the Amendment, 744,593 shares were available for future issuance under the 2014 Omnibus Plan at June 30, 2023.

For the three months ended June 30, 2023 and 2022, the Company’s net income, as reported, included \$0.5 million and \$0.9 million, respectively, of stock-based compensation costs, including the benefit or expense of phantom stock awards, and \$0.1 million and \$0.3 million of income tax benefit respectively, related to the stock-based compensation plans. For the six months ended June 30, 2023 and 2022, the Company’s net income, as reported, included \$3.6 million and \$4.9 million, respectively, of stock-based compensation costs, including the benefit or expense of phantom stock awards, and \$0.9 million and \$1.3 million of income tax benefit, respectively, related to the stock-based compensation plans.

During the three months ended June 30, 2023 and 2022, the Company did not grant any RSU or PRSUs. During the six months ended June 30, 2023 and 2022, the Company granted 235,850 and 212,811 RSU awards and 79,050 and 63,250 PRSU awards, respectively.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The Company uses the fair value of the common stock on the date of award to measure compensation cost for restricted stock unit awards and performance restricted stock units. Compensation cost is recognized over the vesting period of the award using the straight-line method. Forfeitures are recorded in the period they occur.

The following table summarizes the Company's RSU and PRSU awards under the 2014 Omnibus Plan for the six months ended June 30, 2023:

	RSU Awards		PRSU Awards	
	Shares	Weighted-Average Grant-Date Fair Value	Shares	Weighted-Average Grant-Date Fair Value
Non-vested awards at December 31, 2022	275,588	\$ 22.30	68,800	\$ 20.90
Granted	235,850	19.84	79,050	19.99
Vested	(213,639)	21.19	(53,430)	19.94
Forfeited	(2,840)	22.14	—	—
Non-vested at June 30, 2023	294,959	\$ 21.14	94,420	\$ 20.68
Vested but unissued at June 30, 2023	249,780	\$ 20.78	142,065	\$ 20.80

As of June 30, 2023, there was \$5.8 million of total unrecognized compensation cost related to RSU and PRSU awards granted. That cost is expected to be recognized over a weighted-average period of 2.7 years. The total fair value of awards vested for the three months ended June 30, 2023 and 2022, was \$0.2 million, and \$0.5 million, respectively. The total fair value of awards vested for the six months ended June 30, 2023 and 2022 was \$5.2 million and \$7.1 million, respectively. The vested but unissued RSU and PRSU awards consist of awards made to employees and directors who are eligible for retirement. According to the terms of these awards, which provide for vesting upon retirement, these employees and directors have no risk of forfeiture. These shares will be issued at the original contractual vesting and settlement dates.

Phantom Stock Plan: The Company maintains a non-qualified phantom stock plan as a supplement to its profit-sharing plan for officers who have achieved the designated level and completed one year of service. The Company adjusts its liability under this plan to the fair value of the shares at the end of each period.

The following table summarizes the Phantom Stock Plan at or for the six months ended June 30, 2023:

Phantom Stock Plan	Shares	Fair Value	Weighted- Average Fair Value
Outstanding at December 31, 2022	158,410	\$ 19.38	
Granted	18,403		\$ 18.12
Distributions	(858)		\$ 18.87
Outstanding at June 30, 2023	175,955	\$ 12.29	
Vested at June 30, 2023	175,819	\$ 12.29	

The Company recorded stock-based compensation benefit for the Phantom Stock Plan of \$0.4 million and \$0.1 million for the three months ended June 30, 2023 and 2022, respectively. The total fair value of the distributions from the Phantom Stock Plan was \$1,000 and \$2,000 for the three months ended June 30, 2023 and 2022, respectively.

The Company recorded stock-based compensation benefit for the Phantom Stock Plan of \$1.1 million and \$0.4 million for the six months ended June 30, 2023 and 2022, respectively. The total fair value of the distributions from the Phantom Stock Plan was \$16,000 and \$18,000 for the six months ended June 30, 2023, and 2022, respectively.

Amortization of past service credit	—	(7)	—	(14)
Net other postretirement expense ⁽¹⁾	<u>\$ 76</u>	<u>\$ 129</u>	<u>\$ 151</u>	<u>\$ 259</u>

(1) Reported in the Consolidated Statements of Income as part of salaries and employee benefits.

(2) Reported in the Consolidated Statements of Income as part of other operating expenses.

The Company previously disclosed in its Consolidated Financial Statements for the year ended December 31, 2022 that it expects to contribute \$0.2 million to the Outside Director Pension Plan (the “Outside Director Pension Plan”) and \$0.3 million to the other postretirement benefit plans (the “Other Postretirement Benefit Plans”), during the year ending December 31, 2023. The Company does not expect to make a contribution to the Employee Pension Plan. As of June 30, 2023, the Company had contributed \$44,000 to the Outside Director Pension Plan and \$65,000 to the Other Postretirement Benefit Plans. As of June 30, 2023, the Company has not revised its expected contributions for the year ending December 31, 2023.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

10. Fair Value of Financial Instruments

The Company carries certain financial assets and financial liabilities at fair value in accordance with GAAP which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP permits entities to choose to measure many financial instruments and certain other items at fair value. At June 30, 2023, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$13.1 million and \$47.8 million, respectively. At December 31, 2022, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$13.0 million and \$50.5 million, respectively. The Company did not elect to carry any additional financial assets or financial liabilities under the fair value option during the three and six months ended June 30, 2023 and 2022.

The following table presents the financial assets and financial liabilities reported at fair value under the fair value option, and the changes in fair value included in the Consolidated Statement of Income – Net gain (loss) from fair value adjustments, at or for the periods ended as indicated:

Description	Fair Value Measurements at June 30, 2023	Fair Value Measurements at December 31, 2022	Changes in Fair Values For Items Measured at Fair Value Pursuant to Election of the Fair Value Option			
			For the three months ended		For the six months ended	
			June 2023	June 2022	June 2023	June 2022
<i>(In thousands)</i>						
Mortgage-backed securities	\$ 278	\$ 295	\$ —	\$ (8)	\$ 1	\$ (12)
Other securities	12,781	12,728	(192)	(484)	(83)	(1,020)
Borrowed funds	47,777	50,507	486	3,025	2,995	1,756
Net gain from fair value adjustments			\$ 294	\$ 2,533	\$ 2,913	\$ 724

Included in the fair value of the financial assets and financial liabilities selected for the fair value option is the accrued interest receivable or payable for the related instrument. The Company reports as interest income or interest expense in the Consolidated Statement of Income, the interest receivable or payable on the financial instruments selected for the fair value option at their respective contractual rates.

The borrowed funds had a contractual principal amount of \$61.9 million at both June 30, 2023 and December 31, 2022. The fair value of borrowed funds includes accrued interest payable of \$0.4 million at both June 30, 2023 and December 31, 2022.

The Company generally holds its earning assets to maturity and settles its liabilities at maturity. However, fair value estimates are made at a specific point in time and are based on relevant market information. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company’s entire holdings of a particular instrument. Accordingly, as assumptions change, such as interest rates and prepayments, fair value estimates change, and these amounts may not necessarily be realized in an immediate sale.

Disclosure of fair value does not require fair value information for items that do not meet the definition of a financial instrument or certain other financial instruments specifically excluded from its requirements. These items include core deposit intangibles and other customer relationships, premises and equipment, leases, income taxes and equity.

Further, fair value disclosure does not attempt to value future income or business. These items may be material and accordingly, the fair value information presented does not purport to represent, nor should it be construed to represent, the underlying “market” or franchise value of the Company.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

A description of the methods and significant assumptions utilized in estimating the fair value of the Company’s financial assets and liabilities that are carried at fair value on a recurring basis are as follows:

Level 1 – when quoted market prices are available in an active market. At June 30, 2023 and December 31, 2022, Level 1 included one mutual fund.

Level 2 – when quoted market prices are not available, fair value is estimated using quoted market prices for similar financial instruments and adjusted for differences between the quoted instrument and the instrument being valued. Fair value can also be estimated by using pricing models, or discounted cash flows. Pricing models primarily use market-based or independently sourced market parameters as inputs, including, but not limited to, yield curves, interest rates, equity or debt prices and credit spreads. In addition to observable market information, models also incorporate maturity and cash flow assumptions. At June 30, 2023 and December 31, 2022, Level 2 included mortgage-backed securities, CLOs, corporate debt, municipals, and interest rate swaps.

Level 3 – when there is limited activity or less transparency around inputs to the valuation, financial instruments are classified as Level 3. At June 30, 2023 and December 31, 2022, Level 3 included trust preferred securities owned, and junior subordinated debentures issued by the Company.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. While the Company believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies, assumptions, and models to determine fair value of certain financial instruments could produce different estimates of fair value at the reporting date.

The following table sets forth the Company’s assets and liabilities that are carried at fair value on a recurring basis, including those reported at fair value under the fair value option, and the level that was used to determine their fair value, at June 30, 2023 and December 31, 2022:

Liabilities:					
Junior subordinated debentures	\$ 50,507	Discounted cash flows	Spread over 3-month Libor	n/a	3.6 %

The significant unobservable inputs used in the fair value measurement of the Company's trust preferred securities and junior subordinated debentures valued under Level 3 at June 30, 2023 and December 31, 2022, are the effective yields used in the cash flow models. Significant increases or decreases in the effective yield in isolation would result in a significantly lower or higher fair value measurement.

The following table sets forth the Company's assets and liabilities that are carried at fair value on a non-recurring basis and the level that was used to determine their fair value at June 30, 2023 and December 31, 2022:

	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Other Unobservable Inputs (Level 3)		Total carried at fair value on a non-recurring basis

Certain delinquent loans	\$ 141	Discounted Cashflow	Discount Rate	4.3 %	4.3 %
			Probability of Default	35.0 %	35.0 %

The Company did not have any liabilities that were carried at fair value on a non-recurring basis at June 30, 2023 and December 31, 2022.

The methods and assumptions used to estimate fair value at June 30, 2023 and December 31, 2022 are as follows:

Securities:

The fair values of securities are contained in Note 4 (“Securities”) of the Notes to Consolidated Financial Statements. Fair value is based upon quoted market prices, where available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities and adjusted for differences between the quoted instrument and the instrument being valued. When there is limited activity or less transparency around inputs to the valuation, securities are valued using discounted cash flows.

Certain Delinquent Loans:

For certain delinquent loans, fair value is generally estimated by discounting management’s estimate of future cash flows with a discount rate commensurate with the risk associated with such assets or, for collateral dependent loans, 85% of the appraised or internally estimated value of the property. See Note 5 (“Loans”) of the Notes to the Consolidated Financial Statements.

Junior Subordinated Debentures:

The fair value of the junior subordinated debentures was developed using a credit spread based on stated spreads for recently issued subordinated debt instruments for issuers of similar asset size and credit quality of the Company and with similar durations adjusting for differences in the junior subordinated debt’s credit rating, liquidity, and time to maturity. The unrealized net gain/loss attributable to changes in our own credit risk was determined by adjusting the fair value as determined in the proceeding sentence by the average rate of default on debt instruments with a similar debt rating as our junior subordinated debentures, with the difference from the original calculation and this calculation resulting in the instrument-specific unrealized gain/loss.

Interest Rate Swaps:

The fair value of interest rate swaps is based upon broker quotes.

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

11. Derivative Financial Instruments

At June 30, 2023 and December 31, 2022, the Company's derivative financial instruments consisted of interest rate swaps. The Company's interest rate swaps are used for three purposes: 1) to mitigate the Company's exposure to rising interest rates on certain fixed rate loans and securities with \$864.2 million and \$273.6 million of swaps outstanding at June 30, 2023 and December 31, 2022, respectively; 2) to facilitate risk management strategies for our loan customers with \$240.7 million of swaps outstanding, which include \$120.4 million each with customers and bank counterparties at June 30, 2023 and \$221.2 million of swaps outstanding, which include \$110.6 million each with customers and bank counterparties at December 31, 2022; and 3) to mitigate exposure to rising interest rates on certain short-term advances, brokered deposits and municipal deposits with \$922.5 million of swaps outstanding at June 30, 2023, and \$871.5 million of swaps outstanding at December 31, 2022.

The Company adopted ASU No. 2022-01, Derivatives and Hedging (Topic 815): Fair Value Hedging – Portfolio Layer Method in the first quarter of 2023. During the six months ended June 30, 2023, the Company entered into portfolio layer hedges on a closed portfolio of AFS securities with a notional amount of \$200.0 million and a closed portfolio of loans with a notional amount of \$400.0 million. See Note 14 ("New Authoritative Accounting Pronouncements") of the Notes to the Consolidated Financial Statements.

For non-portfolio layer method fair value hedges, the hedge basis (the amount of the change in fair value) is added to (or subtracted from) the carrying amount of the hedged item. For portfolio layer method hedges, the hedge basis does not adjust the carrying value of the hedged item and is instead maintained on a closed portfolio basis. These basis adjustments would be allocated to the amortized cost of specific loans or AFS securities within the pools if either of the hedges were de-designated. The Company did not have any portfolio layer hedges prior to the first quarter of 2023.

At June 30, 2023 and December 31, 2022, we held derivatives designated as cash flow hedges, fair value hedges and certain derivatives not designated as hedges.

The Company's derivative instruments are carried at fair value in the Company's financial statements as part of Other Assets for derivatives with positive fair values and Other Liabilities for derivatives with negative fair values. The accounting for changes in the fair value of a derivative instrument is dependent upon whether or not it qualifies and has been designated as a hedge for accounting purposes, and further, by the type of hedging relationship.

At June 30, 2023 and December 31, 2022, derivatives with a combined notional amount of \$241.7 million and \$221.2 million, respectively, were not designated as hedges. At June 30, 2023 and December 31, 2022, derivatives with a combined notional amount of \$864.2 million and \$273.6 million, respectively, were designated as fair value hedges. At June 30, 2023 and December 31, 2022, derivatives with a combined notional amount of \$921.5 million and \$871.5 million, respectively, were designated as cash flow hedges.

For cash flow hedges, the changes in the fair value of the derivatives are reported in accumulated other comprehensive income (loss), net of tax. Amounts in accumulated other comprehensive loss are reclassified into earnings in the same period during which the hedged forecasted transaction effected earnings. During the three months ended June 30, 2023 and 2022, \$6.8 million in reduced expense and \$2.4 million in additional expense, respectively, was reclassified from accumulated other comprehensive loss to interest expense. During the six months ended June 30, 2023 and 2022, \$11.0 million in reduced expense and \$5.1 million in additional expense was reclassified from accumulated other comprehensive loss to interest expense. The estimated amount to be reclassified in the next 12 months out of accumulated other comprehensive loss is \$25.5 million in reduced expense.

Changes in the fair value of interest rate swaps not designated as hedges are reflected in "Net gain (loss) from fair value adjustments" in the Consolidated Statements of Income.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The following table sets forth information regarding the Company’s derivative financial instruments at the periods indicated:

	Assets		Liabilities	
	Notional Amount	Fair Value ⁽¹⁾	Notional Amount	Fair Value ⁽¹⁾
<i>(In thousands)</i>				
June 30, 2023				
Cash flow hedges:				
Interest rate swaps (borrowings and deposits)	\$ 921,500	\$ 35,655	\$ -	\$ -
Fair value hedges:				
Interest rate swaps (loans and securities)	864,192	35,564	-	-
Non hedge:				
Interest rate swaps (loans and deposits)	121,351	16,513	120,351	16,510
Total	\$ 1,907,043	\$ 87,732	\$ 120,351	\$ 16,510
December 31, 2022				
Cash flow hedges:				
Interest rate swaps (borrowings and deposits)	\$ 700,750	\$ 31,716	\$ 170,750	\$ 210
Fair value hedges:				
Interest rate swaps (loans)	273,607	24,673	-	-
Non hedge:				
Interest rate swaps (loans)	110,598	18,197	110,598	18,197
Total	\$ 1,084,955	\$ 74,586	\$ 281,348	\$ 18,407

(1) Derivatives in a positive position are recorded as “Other assets” and derivatives in a negative position are recorded as “Other liabilities” in the Consolidated Statements of Financial Condition.

The following table presents information regarding the Company’s fair value hedged items for the periods indicated:

Line Item in the Consolidated Statement of Financial Condition in Which the Hedged Item Is Included <i>(In thousands)</i>	Carrying Amount of the Hedged Assets/(Liabilities)		Cumulative Amount of the Fair Hedging Adjustment Included in the Carrying Amount of the Hedged Assets/(Liabilities)	
	June 30, 2023	December 31, 2022	June 30, 2023	December 31, 2022
	Loans			
Multi-family residential	\$ 81,741	\$ 82,613	\$ (10,094)	\$ (10,480)
Commercial real estate	159,727	167,353	(14,686)	(15,442)
Total	\$ 241,468	\$ 249,966	\$ (24,780)	\$ (25,922)
Portfolio Layer				
Loans held for Investment ⁽¹⁾	\$ 2,651,394	\$ —	\$ (6,625)	\$ —
Securities available for sale ⁽²⁾	294,931	—	(5,504)	—
Total	\$ 2,946,325	\$ —	\$ (12,129)	\$ —

(1) Carrying amount represents the amortized cost. At June 30, 2023, the amortized cost of the portfolio layer method closed portfolio was \$2.7 billion, of which \$400 million was designated as hedged. The basis adjustments at June 30, 2023 totaled \$6.6 million.

(2) Carrying amount represents the fair value. At June 30, 2023, the fair value of the portfolio layer method closed portfolio was \$295 million, of which \$200 million was designated as hedged. The basis adjustments at June 30, 2023 totaled \$5.5 million.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The following table sets forth the effect of derivative instruments on the Consolidated Statements of Income for the periods indicated:

<i>(In thousands)</i>	Affected Line Item in the Statements Where Net Income is Presented	For the three months ended		For the six months ended	
		June 30,		June 30,	
		2023	2022	2023	2022

13. Regulatory Capital

Under current capital regulations, the Bank is required to comply with four separate capital adequacy standards and a Capital Conservation Buffer (“CCB”). As of June 30, 2023, the Bank continues to be categorized as “well-capitalized” under the prompt corrective action regulations and continues to exceed all regulatory capital requirements. The CCB for the Bank was 6.31% and 6.37% at June 30, 2023 and December 31, 2022, respectively.

Set forth below is a summary of the Bank’s compliance with banking regulatory capital standards.

	June 30, 2023 (As Restated)		December 31, 2022	
	Amount	Percent of Assets	Amount	Percent of Assets
<i>(Dollars in thousands)</i>				
Tier I (leverage) capital:				
Capital level	\$ 914,191	10.66 %	\$ 915,628	10.56 %
Requirement to be well-capitalized	428,900	5.00	433,667	5.00
Excess	485,291	5.66	481,961	5.56
Common Equity Tier I risk-based capital:				
Capital level	\$ 914,191	13.74 %	\$ 915,628	13.79 %
Requirement to be well-capitalized	432,376	6.50	431,734	6.50
Excess	481,815	7.24	483,894	7.29
Tier I risk-based capital:				
Capital level	\$ 914,191	13.74 %	\$ 915,628	13.79 %

14. New Authoritative Accounting Pronouncements

Accounting Standards Adopted in 2023:

In March 2022, FASB issued ASU No. 2022-02, “Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures” (Topic 326), which replaces the recognition and measurement guidance related to TDRs for creditors that have adopted ASC Topic 326 (commonly referred to as “CECL”) with the recognition and measurement guidance contained in Accounting Standards Codification (“ASC”) 310-20, to determine whether a modification results in a new loan or a continuation of an existing loan. This ASU also enhances disclosures about loan modifications for borrowers who are experiencing financial difficulty. The guidance also requires public business entities to present gross write-offs by year of origination in their vintage disclosures. ASU 2022-02 is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The amendments in this ASU should be applied on a prospective basis; however, institutions have the option to apply a modified retrospective transition method as it relates to the recognition and measurement of TDRs, resulting in a cumulative-effect adjustment to retained earnings in the period of adoption. The ASU was adopted on January 1, 2023 without material impact on our business operations or to our consolidated financial statements.

In March 2022, the FASB issued ASU 2022-01, “Derivatives and Hedging (Topic 815): Fair Value Hedging – Portfolio Layer Method”, which expanded the current last-of-layer method to allow multiple hedged layers of a single closed portfolio and allow hedge accounting to be achieved using different types of derivatives and layering techniques, including the use of amortizing swaps with clarification that such a trade would be viewed as being a single layer. Under this expanded scope, both prepayable and nonprepayable financial assets may be included in a single closed portfolio hedge.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

This update also provides clarifications to breach requirements and disclosures. As a result of these changes, the last-of-layer method has been renamed the portfolio layer method. No cumulative-effect adjustment to the opening balance of retained earnings was required upon adoption of these amendments. The Company did not have any portfolio layer or last of layer hedges prior to the first quarter of 2023. The amendments related to disclosures were applied on a prospective basis. The ASU was adopted in the first quarter of 2023 – see Notes 4 (“Securities”), 5 (“Loans”) and 11 (“Derivative Financial Instruments”) of the Notes to the Consolidated Financial Statements for more information regarding the impact to our consolidated financial statements.

Management’s Discussions and Analysis of
Financial Condition and Results of Operations

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report should be read in conjunction with the more detailed and comprehensive disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2022. In addition, please read this section in conjunction with our Consolidated Financial Statements and Notes to Consolidated Financial Statements contained herein.

As used in this Quarterly Report, the words “we,” “us,” “our” and the “Company” are used to refer to Flushing Financial Corporation and its direct and indirect wholly owned subsidiaries, Flushing Bank (the “Bank”), Flushing Service Corporation, and FSB Properties Inc.

Statements contained in this Quarterly Report relating to plans, strategies, objectives, economic performance and trends, projections of results of specific activities or investments and other statements that are not descriptions of historical facts may be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking information is inherently subject to risks and uncertainties and actual results could differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, factors discussed elsewhere in this Quarterly Report and in other documents filed by us with the Securities and Exchange Commission from time to time, including, without limitation, our Annual Report on Form 10-K for the year ended December 31, 2022. Forward-looking statements may be identified by terms such as “may,” “will,” “should,” “could,” “expects,” “plans,” “intends,” “anticipates,” “believes,” “estimates,” “predicts,” “forecasts,” “goals,” “potential” or “continue” or similar terms or the negative of these terms. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We have no obligation to update these forward-looking statements.

The Management’s Discussion and Analysis of Financial Condition and Results of Operations that follow have been amended where appropriate to reflect the changes resulting from the restatement as discussed in the Explanatory Note above. The following sections have been updated to reflect this restatement: “Executive Summary”, “Comparison of Operating Results for the Three Months Ended June 30, 2023 and 2022”, “Comparison of Operating Results for the Six Months Ended June 30, 2023 and 2022” “Financial Condition”, “Average Balances”, “Item 4 - Controls and Procedures” and “Item 1A – Risk Factors”. The remaining sections were not impacted by the restatement and therefore were not updated.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Executive Summary

We are a Delaware corporation organized in May 1994. The Bank was organized in 1929 as a New York State-chartered mutual savings bank. Today the Bank operates as a full-service New York State-chartered commercial bank. The Bank’s primary regulator is the New York State Department of Financial Services, and its primary federal regulator is the Federal Deposit Insurance Corporation (“FDIC”). Deposits are insured to the maximum allowable amount by the FDIC. Additionally, the Bank is a member of the Federal Home Loan Bank system. The primary business of Flushing Financial Corporation has been the operation of the Bank. At June 30, 2023, the Bank owns two subsidiaries: Flushing Service Corporation, and FSB Properties Inc. The Bank also operates an internet branch, which operates under the brands of iGObanking.com® and BankPurely® (the “Internet Branch”). The activities of Flushing Financial Corporation are primarily funded by dividends, if any, received from the Bank, issuances of subordinated debt, junior subordinated debt, and issuances of equity securities. Flushing Financial Corporation’s common stock is traded on the NASDAQ Global Select Market under the symbol “FFIC.”

Our principal business is attracting retail deposits from the general public and investing those deposits together with funds generated from ongoing operations and borrowings, primarily in (1) originations and purchases of multi-family residential loans, commercial business loans, commercial real estate mortgage loans and, to a lesser extent, one-to-four family loans (focusing on mixed-use properties, which are properties that contain both residential dwelling units and commercial units); (2) Small Business Administration (“SBA”) loans and other small business loans; (3) construction loans; (4) mortgage loan surrogates such as mortgage-backed securities; and (5) U.S. government securities, corporate fixed-income securities and other marketable securities. We also originate certain other consumer loans including overdraft lines of credit. Our results of operations depend primarily on net interest income, which is the difference between the income earned on our interest-earning assets and the cost of our interest-bearing liabilities. Net interest income is the result of our net interest rate margin, which is the difference between the average yield earned on interest-earning assets and the average cost of interest-bearing liabilities, adjusted for the difference in the average balance of interest-earning assets as compared to the average balance of interest-bearing liabilities. We also generate non-interest income primarily from loan fees, service charges on deposit accounts, and other fees, income earned on Bank Owned Life Insurance (“BOLI”), dividends on Federal Home Loan Bank of New York (“FHLB-NY”) stock and net gains and losses on sales of securities and loans. Our operating expenses consist principally of employee compensation and benefits, occupancy and equipment costs, other general and administrative expenses and income tax expense. Our results of operations can also be significantly affected by changes in the fair value of financial assets and financial liabilities for which changes in value are recorded through earnings and our periodic provision for credit losses.

Our investment policy, which is approved by the Board of Directors, is designed primarily to manage the interest rate sensitivity of our overall assets and liabilities, to generate a favorable return without incurring undue interest rate risk and credit risk, to complement our lending activities and to provide and maintain liquidity. In establishing our investment strategies, we consider our business and growth strategies, the economic environment, our interest rate risk exposure, our interest rate sensitivity “gap” position, the types of securities to be held and other factors. We classify our investment securities as available for sale or held-to-maturity.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

We carry a portion of our financial assets and financial liabilities under the fair value option and record changes in their fair value through earnings in non-interest income on our Consolidated Statements of Income and Comprehensive Income. A description of the financial assets and financial liabilities that are carried at fair value through earnings can be found in Note 10 (“Fair Value of Financial Instruments”) of the Notes to the Consolidated Financial Statements.

For the three months ended June 30, 2023 we reported net income of \$8.7 million, or \$0.29 per diluted common share, an increase of \$4.6 million, or 114.8% from net income of \$4.0 million, or \$0.13 per diluted common share earned in the three months ended March 31, 2023. The increase in net income was primarily driven by a decrease in provision for loan losses of \$6.1 million and a decrease in non-interest expense of \$4.0 million, offset by lower net interest income and non-interest income of \$1.9 million and \$1.8 million, respectively.

During the three months ended June 30, 2023, the yield on interest-earning assets increased 23 basis points, while the cost of interest-bearing liabilities increased 35 basis points from the three months ended March 31, 2023, which resulted in a decrease of nine basis points in net interest margin to 2.18% from 2.27%. Excluding net gains (losses) from qualifying hedges and purchase accounting adjustments, the net interest margin decreased eight basis points to 2.17% for the three months ended June 30, 2023, from 2.25% for the three months ended March 31, 2023.

Our loan portfolio is greater than 88% collateralized by real estate with an average loan to value of less than 36%. We have a long history and foundation built upon disciplined underwriting, strong credit quality, and a resilient seasoned loan portfolio with solid asset protection. At June 30, 2023, our allowance for credit losses (“ACL”) - loans stood at 57 basis points of gross loans and 207.1% of non-performing loans. Non-performing assets at the end of the quarter were 47 basis points of total assets.

Goodwill is presumed to have an indefinite life and is tested for impairment, rather than amortized, on at least an annual basis. Quoted market prices in active markets are the best evidence of fair value and are to be used as the basis for measurement, when available. If the fair value of the reporting unit exceeds its carrying amount, there is no impairment of goodwill. At June 30, 2023, the book value of our reporting unit exceeded market capitalization, however the fair value of our reporting unit is not driven solely by the market price of our stock. For the purpose of goodwill impairment testing, management has concluded that the Company has one reporting unit. We performed our annual impairment tests of goodwill during the fourth quarter of 2022 using a quantitative assessment and concluded that the fair value of the reporting unit exceeded its carrying value. We performed the quantitative assessment again in the second quarter of 2023 and came to the same conclusion. We monitor goodwill for potential impairment triggers on a quarterly basis. Given the inherent uncertainties resulting from global macroeconomic conditions, actual results may differ from management’s current estimates and could have an adverse impact on one or more of the assumptions used in our quantitative model prepared for the reporting unit, which could result in impairment charges in subsequent periods.

The Bank and Company remain well-capitalized under current capital regulations of the FDIC and the Federal Reserve Board, respectively, and are subject to the similar regulatory capital requirements. See Note 13 (“Regulatory Capital”) of the Notes to the Consolidated Financial Statements.

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

The following table presents quarterly operating data highlights for the periods indicated:

	For the three months ended	
	June 30,	
	2023	2022
	(As Restated)	
	<i>(In thousands except per share data)</i>	
Quarterly operating data:		
Interest income	\$ 96,561	\$ 74,291
Interest expense	53,183	9,561
Net interest income	43,378	64,730
Provision for credit losses	1,416	1,590
Noninterest income	5,020	7,353
Noninterest expense	35,110	35,522
Income before income tax expense	11,872	34,971
Income tax expense	3,186	9,936
Net income	\$ 8,686	\$ 25,035
Basic earnings per common share	\$ 0.29	\$ 0.81
Dividends per common share	0.29	0.81
Average diluted shares	30,090	30,937

COMPARISON OF OPERATING RESULTS FOR THE THREE MONTHS ENDED JUNE 30, 2023 AND 2022

General. Net income for the three months ended June 30, 2023 was \$8.7 million, a decrease of \$16.3 million, or 65.3%, from \$25.0 million for the three months ended June 30, 2022. Diluted earnings per common share were \$0.29 for the three months ended June 30, 2023, a decrease of \$0.52 or 64.2%, from \$0.81 for the three months ended June 30, 2022. The decrease in net income was primarily due to a decline in the net interest margin which decreased 117 basis points to 2.18% for the three months ended June 30, 2023 from 3.35% for the comparable prior year period. The decline in the net interest margin was driven by the impact Federal Reserve rate increases had on our liability sensitive balance sheet as our interest-bearing liabilities repriced quicker than our interest-earning assets. To mitigate the sensitivity and ease net interest margin compression, the Company opportunistically sought out derivative swaps to align with our strategic business plan.

Return on average equity was 5.16% for the three months ended June 30, 2023 compared to 15.00% for the three months ended June 30, 2022. Return on average assets was 0.41% for the three months ended June 30, 2023 compared to 1.22% for the three months ended June 30, 2022.

Interest Income. Interest and dividend income increased \$22.3 million, or 30.0%, to \$96.6 million for the three months ended June 30, 2023 from \$74.3 million for the three months ended June 30, 2022. The increase in interest income was primarily attributable to the 99 basis point increase in the yield on interest-earning assets to 4.84% for the three months ended June 30, 2023 compared to 3.85% for the three month ended June 30, 2022. In addition, the average balance of total interest-earning assets increased \$251.1 million from the comparable prior year period. Excluding prepayment penalty income from loans, net recoveries/reversals of interest from non-accrual loans, net gains (losses) from fair value adjustments on qualifying hedges, and purchase accounting adjustments, the yield on total interest-earning assets increased 110 basis points to 4.81% for the three months ended June 30, 2023 from 3.71% for the three months ended June 30, 2022.

Interest Expense. Interest expense increased \$43.6 million, or 456.2%, to \$53.2 million for the three months ended June 30, 2023 from \$9.6 million for the three months ended June 30, 2022. The growth in interest expense was primarily due to an increase of 255 basis points in the average cost of interest-bearing liabilities to 3.15% for the three months ended June 30, 2023 from 0.60% for the three months ended June 30, 2022 and the increase of \$419.5 million in the average balance of interest-bearing liabilities to \$6,756.9 million for the three months ended June 30, 2023 from \$6,337.4 million for the comparable prior year period. Rising rates have driven the increase in our cost of funds as the Federal Reserve increased rates 350 basis points between June 30, 2022 and June 30, 2023.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Net Interest Income. Net interest income for the three months ended June 30, 2023 was \$43.4 million, a decrease of \$21.4 million, or 33.0%, from \$64.7 million for the three months ended June 30, 2022. The decrease in net interest income was driven by the net interest margin decreasing 117 basis points to 2.18% for the three months ended June 30, 2023 from 3.35% for the three months ended June 30, 2022. In addition, net interest income was negatively impacted by a decline in net interest-earning assets totaling \$168.4 million to \$1,234.9 million for the quarter ended June 30, 2023. The decrease in net interest-earning assets was primarily due to the average balance of non-interest-bearing deposits declining \$194.9 million to \$849.7 million for the three months ended June 30, 2023 compared to \$1,044.6 million for the three months ended June 30, 2022. Included in net interest income for the three months ended June 30, 2023 and 2022, was prepayment penalty income, net reversals and recovered interest from non-accrual loans totaling \$0.3 million and \$2.3 million, respectively, net losses from fair value adjustments on qualifying hedges totaling \$0.2 million and \$0.1 million, respectively, and purchase accounting income adjustments of \$0.3 million and \$0.4 million, respectively. Excluding all of these items, the net interest margin for the three months ended June 30, 2023 was 2.15%, a decrease of 107 basis points, from 3.22% for the three months ended June 30, 2022.

Provision for Credit Losses. During the three months ended June 30, 2023, the provision for credit losses was \$1.4 million compared to \$1.6 million for the three months ended June 30, 2022. The provision recorded during the three months ended June 30, 2023 was primarily due to increased reserves from the elevated risk presented by the current rate environment to adjustable-rate loan's debt coverage ratios, partially offset by a decline in loan balances during the period. The current average loan-to-value ratio for our non-performing assets collateralized by real estate was 50.0% at June 30, 2023. The Bank continues to maintain conservative underwriting standards.

Non-Interest Income. Non-interest income for the three months ended June 30, 2023 was \$5.0 million, a decrease of \$2.3 million, or 31.7% from \$7.4 million in the prior year comparable period. The decrease was primarily due to the prior year period inclusion of net gains from fair value adjustments totaling \$2.5 million compared to net gains totaling \$0.3 million recorded during the current year period.

Non-Interest Expense. Non-interest expense for the three months ended June 30, 2023 was \$35.1 million, a decrease of \$0.4 million, or 1.2%, from \$35.5 million for the three months ended June 30, 2022. The decrease was primarily due to lower salary related expense accruals, partially offset by higher FDIC insurance expense and other operating expenses.

Income before Income Taxes. Income before income taxes for the three months ended June 30, 2023 was \$11.9 million, a decrease of \$23.1 million, or 66.1%, from \$35.0 million for the three months ended June 30, 2022 for the reasons discussed above.

Provision for Income Taxes. The provision for income taxes was \$3.2 million for the three months ended June 30, 2023, a decrease of \$6.8 million, or 67.9%, from \$9.9 million for the three months ended June 30, 2022. The decrease was primarily due to the decline in income before income taxes and a decrease in the effective tax rate. The effective tax rate for the three months ended June 30, 2023 was 26.8% compared to 28.4% for the three months ended June 30, 2022.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

The following table presents operating data highlights for the periods indicated:

	For the six months ended June 30,	
	2023 (As Restated)	2022
<i>(In thousands except per share data)</i>		
Operating data:		
Interest income	\$ 188,678	\$ 145,611
Interest expense	100,038	17,402
Net interest income	88,640	128,209
Provision for credit losses	8,924	2,948
Noninterest income	11,877	8,666
Noninterest expense	74,266	74,316
Income before income tax expense	17,327	59,611
Income tax expense	4,597	16,357
Net income	<u>\$ 12,730</u>	<u>\$ 43,254</u>
Basic earnings per common share	\$ 0.42	\$ 1.39
Dividends per common share	0.42	1.39
Average diluted shares	30,177	31,095

COMPARISON OF OPERATING RESULTS FOR THE SIX MONTHS ENDED JUNE 30, 2023 AND 2022

General. Net income for the six months ended June 30, 2023 was \$12.7 million, a decrease of \$30.5 million, or 70.6%, from \$43.3 million for the six months ended June 30, 2022. Diluted earnings per common share were \$0.42 for the six months ended June 30, 2023, a decrease of \$0.97 or 69.8%, from \$1.39 for the six months ended June 30, 2022. The decrease in net income was primarily due to a decline in the net interest margin which decreased 114 basis points to 2.22% for the six months ended June 30, 2023 from 3.36% for the comparable prior year period. The decline in the net interest margin was driven by the impact Federal Reserve rate increases had on our liability sensitive balance sheet as our interest-bearing liabilities repriced quicker than our interest-earning assets. To mitigate the sensitivity and ease net interest margin compression, the Company opportunistically sought out derivative swaps to align with our strategic plans.

Return on average equity was 3.76% for the six months ended June 30, 2023 compared to 12.91% for the six months ended June 30, 2022. Return on average assets was 0.30% for the six months ended June 30, 2023 compared to 1.06% for the six months ended June 30, 2022.

Interest Income. Interest and dividend income increased \$43.1 million, or 29.6%, to \$188.7 million for the six months ended June 30, 2023 from \$145.6 million for the six months ended June 30, 2022. The increase in interest income was primarily attributable to the 91 basis point increase in the yield on interest-earning assets to 4.72% for the six months ended June 30, 2023 compared to 3.81% for the comparable prior year period. In addition, the average balance of interest-earning assets increased \$341.0 million from the comparable prior year period. Excluding prepayment penalty income from loans, net recoveries/reversals of interest from non-accrual loans, net gains (losses) from fair value adjustments on qualifying hedges, and purchase accounting adjustments, the yield on total interest-earning assets, increased 101 basis points to 4.68% for the six months ended June 30, 2023 from 3.67% for the six months ended June 30, 2022.

Interest Expense. Interest expense increased \$82.6 million, or 474.9%, to \$100.0 million for the six months ended June 30, 2023 from \$17.4 million for the six months ended June 30, 2022. The growth in interest expense was primarily due to an increase of 242 basis points in the average cost of interest-bearing liabilities to 2.97% for the six months ended June 30, 2023 from 0.55% for the six months ended June 30, 2022 and an increase of \$451.1 million in the average balance of interest-bearing liabilities to \$6,730.4 million for the six months ended June 30, 2023 from \$6,279.3 million for the comparable prior year period. Rising rates have driven the increase in our cost of funds as the Federal Reserve increased rates by 350 basis points between June 30, 2022 and June 30, 2023.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Net Interest Income. Net interest income for the six months ended June 30, 2023 was \$88.6 million, a decrease of \$39.6 million, or 30.9%, from \$128.2 million for the six months ended June 30, 2022. The decrease in net interest income was driven by the net interest margin decreasing 114 basis points to 2.22% for the six months ended June 30, 2023 from 3.36% for the six months ended June 30, 2022. In addition, net interest income was negatively impacted by a decline in net interest-earning assets totaling \$110.1 million to \$1,266.7 million for the six months ended June 30, 2023. The decrease in net interest-earning assets was primarily due to the average balance of non-interest-bearing deposits declining \$150.2 million to \$872.9 million for the six months ended June 30, 2023 compared to \$1,023.2 million for the six months ended June 30, 2022. Included in net interest income for the six months ended June 30, 2023 and 2022, was prepayment penalty income, net reversals and recovered interest from non-accrual loans totaling \$1.0 million and \$4.0 million, respectively, net losses from fair value adjustments on qualifying hedges totaling \$0.1 million and \$0.2 million, respectively, and purchase accounting income of \$0.6 million and \$1.4 million, respectively. Excluding all of these items, the net interest margin for the six months ended June 30, 2023 was 2.18%, a decrease of 104 basis points, from 3.22% for the six months ended June 30, 2022.

Provision for Credit Losses. During the six months ended June 30, 2023, the provision for credit losses was \$8.9 million compared to \$2.9 million for the six months ended June 30, 2022. The provision recorded during the six months ended June 30, 2023 was primarily due to fully reserving for two non-accrual business loans that were subsequently charged-off in the first quarter of 2023, and increasing reserves for the elevated risk presented by the current rate environment to adjustable-rate loan’s debt coverage ratios, partially offset by a decline in loan balances during the period. The current average loan-to-value ratio for our non-performing assets collateralized by real estate was 50.0% at June 30, 2023. The Bank continues to maintain conservative underwriting standards.

Non-Interest Income. Non-interest income for the six months ended June 30, 2023 was \$11.9 million, an increase of \$3.2 million, or 37.1% from \$8.7 million in the prior year comparable period. The increase was primarily due to net gains from fair value adjustments totaling \$2.9 million in the current period compared to \$0.7 million recorded during the prior year period.

Non-Interest Expense. Non-interest expense for the six months ended June 30, 2023 was unchanged at \$74.3 million for both the six months ended June 30, 2023 and 2022. Decreases from lower salary related expense accruals and the effects of the decreased stock price on the attendant benefits plans were offset by increased FDIC premiums and other operating expense.

Income before Income Taxes. Income before income taxes for the six months ended June 30, 2023 was \$17.3 million, a decrease of \$42.3 million, or 70.9%, from \$59.6 million for the six months ended June 30, 2022 for the previously discussed reasons.

Provision for Income Taxes. The provision for income taxes was \$4.6 million for the six months ended June 30, 2023, a decrease of \$11.8 million, or 71.9%, from \$16.4 million for the six months ended June 30, 2022. The decrease was primarily due to the decline in income before income taxes, and a decrease in the effective tax rate. The effective tax rate for six months ended June 30, 2023 was 26.5% compared to 27.4% for the six months ended June 30, 2022.

FINANCIAL CONDITION

Assets. Total assets at June 30, 2023 were \$8,474.9 million, an increase of \$51.9 million, or 0.6%, from \$8,422.9 million at December 31, 2022. Total net loans decreased \$100.5 million, or 1.5%, during the six months ended June 30, 2023, to \$6,793.8 million from \$6,894.3 million at December 31, 2022. Loan originations and purchases were \$332.3 million for the six months ended June 30, 2023, a decrease of \$500.8 million, or 60.1%, from \$833.1 million for the six months ended June 30, 2022. The decreased loan originations were a result of interest rate increases over the past year as customers adapt to the increased rate environment. We continue to focus on the origination of multi-family residential, commercial real estate and commercial business loans with a full banking relationship. The loan pipeline was \$415.5 million at June 30, 2023, compared to \$252.2 million at December 31, 2022.

The following table shows loan originations and purchases for the periods indicated:

<i>(In thousands)</i>	For the three months ended June 30,		For the six months ended June 30,	
	2023	2022	2023	2022
Multi-family residential	\$ 31,901	\$ 136,902	\$ 74,065	\$ 235,082
Commercial real estate	38,523	164,826	54,093	209,928
One-to-four family – mixed-use property	5,812	12,228	10,750	20,726
One-to-four family – residential	63	4,211	4,359	13,472
Construction ⁽¹⁾	8,811	8,319	19,403	17,121
Small Business Administration	820	2,750	1,138	2,750
Commercial business and other ⁽²⁾	72,850	174,551	168,518	334,027
Total	\$ 158,780	\$ 503,787	\$ 332,326	\$ 833,106

(1) Includes purchases of \$0.9 million for the three months ended June 30, 2022. Includes purchases of \$0.1 million and \$1.6 million for the six months ended June 30, 2023 and 2022, respectively.

(2) Includes purchases of \$39.6 million and \$55.8 million for the three months ended June 30, 2023 and 2022, respectively. Includes purchases of \$83.9 million and \$109.4 million for the six months ended June 30, 2023 and 2022, respectively.

The Bank maintains its conservative underwriting standards that include, among other things, a loan-to-value ratio of 75% or less and a debt coverage ratio of at least 125%. Multi-family residential (excluding underlying co-operative mortgages), commercial real estate and one-to-four family mixed-use property mortgage loans originated and purchased during the six months ended June 30, 2023 had an average loan-to-value ratio of 48.6% and an average debt coverage ratio of 161.0%.

The Bank’s non-performing assets totaled \$39.6 million at June 30, 2023, a decrease of \$13.7 million, or 25.8% from December 31, 2022. Total non-performing assets as a percentage of total assets were 0.47% at June 30, 2023 and 0.63% at December 31, 2022. The ratio of ACL – loans to total non-performing loans was 207.1% at June 30, 2023 and 124.9% at December 31, 2022.

During the six months ended June 30, 2023 mortgage-backed securities decreased \$18.4 million, or 4.7%, to \$373.8 million from \$392.2 million at December 31, 2022. The decrease in mortgage-backed securities during the six months ended June 30, 2023 was primarily due to the principal repayment of securities totaling \$18.4 million.

During the six months ended June 30, 2023, other securities increased \$152.2 million, or 36.5%, to \$569.1 million from \$416.9 million at December 31, 2022. The increase in other securities during the six months ended June 30, 2023, was primarily due to purchases of \$171.7 million at an average rate of 6.55% partially offset by maturities totaling \$10.0 million and a decrease in the fair value totaling \$6.6 million. At June 30, 2023, other securities primarily consisted of securities issued by mutual or bond funds that invest in government and government agency securities, municipal bonds, corporate bonds, and CLOs.

Liabilities. Total liabilities were \$7,804.6 million at June 30, 2023, an increase of \$58.8 million, or 0.8%, from \$7,745.8 million at December 31, 2022. During the six months ended June 30, 2023, due to depositors increased \$228.7 million, or 3.6%, to \$6,665.9 million due an increase of certificates of deposit totaling \$706.4 million partially offset by a net decrease in all other deposit accounts totaling \$468.0 million. The Company has based deposit growth on certificates of deposit as they extend liabilities thus reducing interest rate risk. Included in deposits were brokered deposits totaling \$1,034.2 million, an increase of \$177.9 million from \$856.3 million at December 31, 2022. Borrowed funds decreased \$195.6 million during the six months ended June 30, 2023.

Total interest-bearing deposits	5,838,053	5,515,945		
Non-interest bearing demand deposits	827,820	921,238		
Total due to depositors	6,665,873	6,437,183		
Mortgagors' escrow deposits	57,817	48,159		
Total deposits	<u>\$ 6,723,690</u>	<u>\$ 6,485,342</u>		

(1) The weighted average rate does not reflect the benefit of interest rate swaps.

Equity. Total stockholders’ equity decreased \$6.9 million, or 1.0%, to \$670.2 million at June 30, 2023, from \$677.2 million at December 31, 2022. Stockholders’ equity decreased due to the declaration and payment of dividends on the Company’s common stock of \$0.44 per common share totaling \$13.3 million and 688,331 shares repurchased totaling \$9.9 million. These decreases were partially offset by net income of \$12.7 million and a decrease of \$0.5 million in accumulated other comprehensive loss. Book value per common share increased to \$23.14 at June 30, 2023 compared to \$22.97 at December 31, 2022.

Liquidity. Liquidity is the ability to economically meet current and future financial obligations. The Company’s primary objectives in terms of managing liquidity are to maintain the ability to originate and purchase loans, repay borrowings as they mature, satisfy financial obligations that arise in the normal course of business and meet our customer’s deposit withdrawal needs. Our primary sources of funds are deposits, borrowings, principal and interest payments on loans, mortgage-backed and other securities, and proceeds from sales of securities and loans. Deposit flows and mortgage prepayments, however, are greatly influenced by general interest rates, economic conditions, and competition. The Company has other sources of liquidity, including unsecured overnight lines of credit, and other types of borrowings. At June 30, 2023, the Company had available liquidity totaling \$3.7 billion.

Liquidity management is both a short and long-term function of business management. During 2023, funds were provided by the Company’s operating and financing activities, which were used to fund our investing activities. Our most liquid assets are cash and cash equivalents, which include cash and due from banks, overnight interest-earning deposits and federal funds sold with original maturities of 90 days or less. The level of these assets is dependent on our operating, financing, lending, and investing activities during any given period. At June 30, 2023, cash and cash equivalents totaled \$160.1 million, an increase of \$8.3 million, from \$151.8 million, at December 31, 2022. A portion of our cash and cash equivalents is restricted cash held as collateral for interest rate swaps. At June 30, 2023 and December 31, 2022, restricted cash totaled \$75.2 million and \$67.0 million, respectively.

Total Liquidity	\$ 5,721.3	\$ 2,022.7	\$ 3,698.6

INTEREST RATE RISK

Economic Value of Equity Analysis. The Consolidated Statements of Financial Position have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”), which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in fair value of certain investments due to changes in interest rates. Generally, the fair value of financial investments such as loans and securities fluctuate inversely with changes in interest rates. As a result, increases in interest rates could result in decreases in the fair value of the Company’s interest-earning assets which could adversely affect the Company’s results of operations if such assets were sold, or, in the case of securities classified as available for sale, decreases in the Company’s stockholders’ equity, if such securities were retained.

The Company quantifies the net portfolio value should interest rates immediately go up or down 100 or 200 basis points, assuming the yield curves of the rate shocks will be parallel to each other. Net portfolio value is defined as the market value of assets net of the market value of liabilities. The market value of assets and liabilities is determined using a discounted cash flow calculation. The net portfolio value ratio is the ratio of the net portfolio value to the market value of assets. The changes in value are measured as percentage changes from the net portfolio value at the base interest rate scenario. The base interest rate scenario assumes interest rates at June 30, 2023. Various estimates regarding prepayment assumptions are made at each level of rate shock. At June 30, 2023, the Company was within the guidelines set forth by the Board of Directors for each interest rate level.

The following table presents the change in the Company’s net portfolio value and the net portfolio value ratio as of June 30, 2023:

Change in Interest Rate	Projected Percentage Change In	
	Net Portfolio Value (NPV)	Net Portfolio Value Ratio
-200 Basis points	(4.1) %	10.0 %
-100 Basis points	(1.7)	10.4
Base interest rate	-	10.8
+100 Basis points	(2.3)	10.7
+200 Basis points	(4.5)	10.6

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Income Simulation Analysis. The Company manages the mix of interest-earning assets and interest-bearing liabilities on a continuous basis to maximize return and adjust its exposure to interest rate risk. On a quarterly basis, management provides a report for review by the Asset-Liability Investment Committee (“ALCO”) of the Board of Directors. This report quantifies the potential changes in net interest income through various interest rate scenarios.

The starting point for the net interest income simulation is an estimate of the next twelve months’ net interest income assuming that both interest rates and the Company’s interest-sensitive assets and liabilities remain at period-end levels.

The report quantifies the potential changes in net interest income should interest rates go up or down 100 or 200 basis points (shocked), assuming the yield curves of the rate shocks will be parallel to each other. All changes in income are measured as percentage changes from the projected net interest income at the base interest rate scenario. The base interest rate scenario assumes interest rates at June 30, 2023 and 2022. Various estimates regarding prepayment assumptions are made at each level of rate shock. However, prepayment penalty income is excluded from this analysis. Actual results could differ significantly from these estimates.

The following table presents the Company’s interest rate shock as of June 30, 2023 and 2022:

	Projected Percentage Change In Net Interest Income	
	2023	2022
-200 Basis points	(0.1)%	NA %
-100 Basis points	0.5	5.1
Base interest rate	-	-
+100 Basis points	(3.2)	(8.8)
+200 Basis points	(6.7)	(17.5)

Another net interest income simulation assumes that changes in interest rates change gradually in equal increments over the twelve-month period. Prepayment penalty income is also excluded from this analysis. Based on these assumptions, net interest income would be reduced by 2.2% from a 100 basis point increase in rates over the next twelve months. Actual results could differ significantly from these estimates.

At June 30, 2023, the Company had a derivative portfolio with a notional value totaling \$2.0 billion. This portfolio is designed to move the Company more towards interest rate neutral from changes in interest rates. See Note 11 (“Derivative Financial Instruments”) of the Notes to the Consolidated Financial Statements. The significant improvement in the rate sensitivity over the past year is primarily due to an increase in the use of interest rate hedges.

A portion of this portfolio is comprised of interest rate swaps on certain short-term advances and deposits totaling \$922.5 million. At June 30, 2023, \$872.5 million of the interest rate swaps are effective swaps at a weighted average rate of approximately 2.38% that mature through 2027 and \$50.0 million of the interest rate swaps are forward swaps effective in 2024, at an average rate of 0.80%. The Company also has \$200.0 million of portfolio layer pay fixed fair value swaps as a hedge for securities with a weighted average receive rate of 5.09% and \$400.0 million of pay fixed fair value swaps as a hedge for the loan portfolio with a weighted average receive rate of 5.17%.

Management’s Discussions and Analysis of
Financial Condition and Results of Operations

AVERAGE BALANCES

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income depends upon the relative amount of interest-earning assets and interest-bearing liabilities and the interest rates earned or paid on them. The following tables sets forth certain information relating to the Company’s Consolidated Statements of Financial Condition and Consolidated Statements of Income for the three and six months ended June 30, 2023 and 2022, and reflects the average yield on assets and average cost of liabilities for the periods indicated. Such yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods shown. Average balances are derived from average daily balances. The yields include amortization of fees which are considered adjustments to yields.

Total	18,637	29,782
Total non-performing loans	18,637	32,382
Other non-performing assets:		
Held-to-maturity securities	20,981	20,981
Total	20,981	20,981
Total non-performing assets	\$ 39,618	\$ 53,363
Non-performing assets to total assets	0.47 %	0.63 %
ACL - loans to non-accrual loans	207.08 %	135.79 %
ACL - loans to non-performing assets	97.41 %	75.79 %

(1) Adopted ASU No. 2022-02 Financial Instruments – Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures on January 1, 2023; Not included in the above analysis are the following non-accrual TDRs that are performing according to their restructured terms: one-to-four family mixed-use property loans totaling \$0.2 million at December 31, 2022, and commercial business loans totaling less than \$0.1 million at December 31, 2022.

CRITICIZED AND CLASSIFIED ASSETS

Our policy is to review our assets, focusing primarily on the loan portfolio, other real estate owned, and the investment portfolio, to ensure that credit quality is maintained at the highest levels. See Note 5 (“Loans”) of the Notes to the Consolidated Financial Statements for a description of how loans are determined to be criticized or classified and a table displaying criticized and classified loans at June 30, 2023. The amortized cost of Criticized and Classified assets were \$71.1 million at June 30, 2023, a decrease of \$17.8 million from \$88.9 million at December 31, 2022. The Company had one investment security with an amortized cost of \$21.0 million classified as substandard at June 30, 2023 and December 31, 2022.

Included within net loans at June 30, 2023 and December 31, 2022, were \$5.7 million and \$5.2 million respectively, of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings were in process according to local requirements of the applicable jurisdiction.

Ratio of ACL - loans to non-performing loans at end of period	207.08 %	141.06 %

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the qualitative and quantitative disclosures about market risk, see the information under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk."

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2023, the design and operation of these disclosure controls and procedures were effective. During the period covered by this Quarterly Report, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Since that evaluation, however, and as a result of the material weakness in the Company's internal control over financial reporting discussed below, the Company's Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2023, the Company's disclosure controls and procedures were not effective to provide reasonable assurance that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms, and that such information is accumulated and communicated to management to allow timely decisions regarding required disclosure.

The Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for certain ERCs for the three- and six-month periods ended June 30, 2023. In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, however, the Company determined that it could no longer rely on such advice and is not able to treat the ultimate realization of the ERCs as "probable" under GAAP.

Management determined that the foregoing constitutes a material weakness in the Company's internal control over financial reporting. Management is taking steps to remediate the material weakness in its internal control over financial reporting relating to the proper accounting treatment of the ERCs. These steps will include the preparation of a technical accounting memorandum for any material unusual transactions including careful evaluation of any probability assessments or other areas of judgment involved, such as the ERCs, to determine the correct accounting treatment for such transactions. Management believes the additional control procedures designed, and when implemented, will fully remediate the material weakness.

PART II – OTHER INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in various lawsuits. Management of the Company, after consultation with outside legal counsel, believes that the resolution of these various matters will not result in any material adverse effect on the Company's consolidated financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes from the risk factors disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2022, and quarterly report on Form 10-Q for the quarter ended March 31, 2023.

The Company has identified a material weakness in its internal controls and cannot provide assurances that this weakness will be effectively remediated or that additional material weaknesses will not occur in the future.

The Company's management is responsible for establishing and maintaining adequate internal control over our financial reporting, as defined in Rule 13a-15(f) under the Exchange Act, which is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

The Company had engaged an independent national tax credit advisory firm that had advised the Company that it qualified for certain ERCs for the three- and six-month periods ended June 30, 2023. In the course of preparing the Company's consolidated financial statements for the fiscal year ended December 31, 2023, however, the Company determined that it could no longer rely on such advice and was not able to treat the ultimate realization of the ERCs as "probable" under GAAP.

In connection with the foregoing, management of the Company concluded that a material weakness in the Company's internal control over financial reporting existed as of June 30, 2023. Specifically, the Company did not maintain effective controls over the probability assessment associated with the recognition of income related to the ERCs. While the Company is taking steps to remediate the material weakness, it cannot provide assurance that such remedial measures will be effective. If the Company fails to maintain effective internal control over financial reporting, it may not be able to accurately report its financial results, which may, among other adverse consequences, cause investors to lose confidence in the Company's reported financial information.

PART II – OTHER INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information regarding the shares of common stock repurchased by the Company during the three months ended June 30, 2023:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
April 1 to April 30, 2023	—	—	—	434,946
May 1 to May 31, 2023	290,338	11.50	290,338	1,144,608
June 1 to June 30, 2023	238,477	14.68	238,477	906,131
Total	528,815	\$ 12.94	528,815	

On May 30, 2023, the Board of Directors approved an additional one million shares of common stock for repurchase. During the quarter ended June 30, 2023, the Company repurchased 528,815 shares of the Company’s common stock. On June 30, 2023, 906,131 shares remained to be repurchased under the currently authorized stock repurchase programs. Stock will be purchased under the current stock repurchase programs from time to time, in the open market or through private transactions, subject to market conditions. There is no expiration or maximum dollar amount under these authorizations.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES
