
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2020**

Commission file number **001-33013**

FLUSHING FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

11-3209278

(I.R.S. Employer Identification No.)

220 RXR Plaza, Uniondale, New York 11556

(Address of principal executive offices)

(718) 961-5400

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.01 par value	FFIC	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the exchange act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares of the registrant's Common Stock outstanding as of July 31, 2020 was 28,217,733.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The primary business of Flushing Financial Corporation (the “Holding Company”), a Delaware corporation, is the operation of its wholly owned subsidiary, Flushing Bank (the “Bank”).

The unaudited consolidated financial statements presented in this Quarterly Report on Form 10-Q (“Quarterly Report”) include the collective results of the Holding Company and its direct and indirect wholly-owned subsidiaries, including the Bank, Flushing Preferred Funding Corporation, Flushing Service Corporation, and FSB Properties Inc., which are collectively herein referred to as “we,” “us,” “our” and the “Company.”

The Holding Company also owns Flushing Financial Capital Trust II, Flushing Financial Capital Trust III, and Flushing Financial Capital Trust IV (the “Trusts”), which are special purpose business trusts. The Trusts are not included in the Company’s consolidated financial statements, as the Company would not absorb the losses of the Trusts if any losses were to occur.

The accompanying unaudited consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and general practices within the banking industry. The information furnished in these interim statements reflects all adjustments that are, in the opinion of management, necessary for a fair statement of the results for such presented periods of the Company. Such adjustments are of a normal recurring nature, unless otherwise disclosed in this Quarterly Report. All inter-company balances and transactions have been eliminated in consolidation. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for the full year.

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions to Quarterly Report on Form 10-Q and Article 10, Rule 10-01 of Regulation S-X for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The unaudited consolidated interim financial information should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2019.

When necessary, certain reclassifications were made to prior-year amounts to conform to the current-year presentation. Such reclassifications had no effect on prior period net income or shareholders’ equity and were insignificant amounts.

2. Use of Estimates

In December 2019, a novel coronavirus (COVID-19) was reported in China, and, in March 2020, the World Health Organization declared it a pandemic. The outbreak of COVID-19 has adversely impacted a broad range of industries in which the Company’s customers operate and could impair their ability to fulfill their financial obligations to the Company. The World Health Organization has declared COVID-19 to be a global pandemic indicating that almost all public commerce and related business activities must be, to varying degrees, curtailed with the goal of decreasing the rate of new infections. The spread of the outbreak has caused significant disruptions in the U.S. economy and has disrupted banking and other financial activity in the areas in which the Company operates.

As a result of the emergence of the pandemic and the uncertainty, it is not possible to determine the overall impact of the pandemic on the Company’s business. However, if the pandemic continues for an extended period of time, there could be a material adverse effect on the Company’s business, results of operations, financial condition and cash flows.

On March 27, 2020, the President of the United States signed into law the Coronavirus Aid, Relief and Economic Security (“CARES”) Act in response to the coronavirus pandemic. This legislation aims at providing relief for individuals and businesses that have been negatively impacted by the coronavirus pandemic.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The CARES Act includes a provision for the Company to opt out of applying the “troubled-debt restructuring” (“TDR”) accounting guidance in Accounting Standards Codification (“ASC”) 310-40 for certain loan modifications. Loan modifications made between March 1, 2020 and the earlier of i) December 30, 2020 or ii) 60 days after the President declares a termination of the COVID-19 national emergency are eligible for this relief if the related loans were not more than 30 days past due as of December 31, 2019. The Bank adopted this provision and at June 30, 2020, we have 808 active forbearances for loans with an aggregate outstanding loan balance of approximately \$1.3 billion, as disclosed more fully in Note 5 (“Loans”) of the Notes to the Consolidated Financial Statements.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenue and expenses during the reporting period. Estimates that are particularly susceptible to change in the near term, including COVID-19 related changes, are used in connection with the determination of the allowance for credit losses, the evaluation of goodwill for impairment, the review of the need for a valuation allowance of the Company’s deferred tax assets and the fair value of financial instruments.

Goodwill

Goodwill is presumed to have an indefinite life and is tested annually for impairment, or more frequently when certain conditions are met. If the fair value of the reporting unit is greater than the carrying value, no further evaluation is required. If the fair value of the reporting unit is less than the carrying value, further evaluation would be required to compare the fair value of the reporting unit to the carrying value and determine if impairment is required.

Quoted market prices in active markets are the best evidence of fair value and are to be used as the basis for measurement, when available. Other acceptable valuation methods include an asset approach, which determines a fair value based upon the value of assets net of liabilities, an income approach, which determines fair value using one or more methods that convert anticipated economic benefits into a present single amount, and a market approach, which determines a fair value based on the similar businesses that have been sold.

In performing the goodwill impairment testing, the Company has identified a single reporting unit. The Company continues to evaluate the impact of the COVID-19 pandemic and as such, evaluated goodwill for impairment at June 30, 2020. The Company conducted a quantitative impairment test of goodwill as of June 30, 2020. The impairment testing did not indicate an impairment of goodwill. Management will continue to monitor if events requiring further goodwill impairment testing have occurred. At June 30, 2020 and December 31, 2019, the carrying amount of goodwill totaled \$16.1 million. The identification of additional reporting units, the use of other valuation techniques and/or changes to input assumptions used in the analysis could result in materially different evaluations of goodwill impairment.

Volatility in the Company’s stock price primarily driven by the COVID-19 pandemic has resulted in the net book value of our reporting unit exceeding market capitalization, however, the fair value of our reporting unit is not driven solely by the market price of our stock. As described above, fair value of our reporting unit is derived using a combination of an asset approach, an income approach and a market approach. These valuation techniques consider several other factors beyond our market capitalization, such as the estimated future cash flows of our reporting unit, the discount rate used to present value such cash flows and the market multiples of comparable companies. Changes to input assumptions used in the analysis could result in materially different evaluations of goodwill impairment. We qualitatively assess whether the carrying value of our reporting unit exceeds fair value. If this qualitative assessment determines that it is more likely than not that the carrying value exceeds fair value, further qualitative evaluation for impairment would be required to compare the fair value of the reporting unit to the carrying value and determine if impairment is required.

3. Earnings Per Share

Earnings per common share have been computed based on the following:

	For the three months ended June 30,		For the six months ended June 30,	
	2020	2019	2020	2019
	<i>(In thousands, except per share data)</i>			
Net income	\$ 18,272	\$ 10,556	\$ 16,882	\$ 17,624
Divided by:				
Weighted average common shares outstanding	28,867	28,761	28,860	28,691
Weighted average common stock equivalents	—	—	—	—
Total weighted average common shares outstanding and common stock equivalents	<u>28,867</u>	<u>28,761</u>	<u>28,860</u>	<u>28,691</u>
Basic earnings per common share	\$ 0.63	\$ 0.37	\$ 0.58	\$ 0.61
Diluted earnings per common share ⁽¹⁾	\$ 0.63	\$ 0.37	\$ 0.58	\$ 0.61
Dividend payout ratio	33.3 %	56.8 %	72.4 %	68.9 %

(1) For the three and six months ended June 30, 2020 and 2019, there were no common stock equivalents that were anti-dilutive.

4. Securities

The Company did not hold any trading securities at June 30, 2020 and December 31, 2019. Securities available for sale are recorded at fair value. Securities held-to-maturity (“HTM”) are recorded at amortized cost.

Allowance for credit losses

The Company’s estimate of expected credit losses for held-to-maturity debt securities is based on historical information, current conditions and a reasonable and supportable forecast. The Company’s portfolio is made up of three securities, two of which are structured similar to a commercial owner occupied loan, which is modeled for credit losses similar to commercial business loans secured by real estate. The other security is issued and guaranteed by Fannie Mae, which is a government sponsored enterprise that has a credit rating and perceived credit risk comparable to the U.S. government and therefore the Company assumes a zero loss expectation. At June 30th, 2020, we have one active forbearance for held-to-maturity securities with an outstanding balance of \$20.9 million. During the time this security is in forbearance, it is considered current and as such, continues to accrue interest at its original contractual terms. Accrued interest receivable on held-to-maturity securities totaled \$0.1 million at June 30, 2020 and is excluded from estimates of credit losses.

The following table summarizes the Company’s portfolio of securities held-to-maturity at June 30, 2020:

The Company reviewed each available for sale debt security that had an unrealized loss at June 30, 2020 and December 31, 2019. At June 30, 2020, the Company evaluated whether the decline in fair value of a debt security resulted from credit losses or other factors under ASC 326. The Company does not have the intent to sell these securities and it is more likely than not the Company will not be required to sell the securities before recovery of the securities’ amortized cost basis. This conclusion is based upon considering the Company’s cash and working capital requirements and contractual and regulatory obligations, none of which the Company believes would cause the sale of the securities. All of these securities are rated investment grade or above and have a long history of no credit losses. It is not anticipated that these securities would be settled at a price that is less than the amortized cost of the Company’s investment.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

In determining the risk of loss for available for sale securities, the Company considered that mortgage-backed securities are either fully guaranteed or issued by a government sponsored enterprise, which has a credit rating and perceived credit risk comparable to U.S. government, the issuer of Corporate securities are global systematically important banks, and the tranche of the purchased CLO's. Each of these securities is performing according to its terms and, in the opinion of management, will continue to perform according to its terms. Based on this review, management believes that the unrealized losses have resulted from other factors not deemed credit-related and no allowance for credit loss was recorded.

Accrued interest receivable on available-for-sale debt securities totaled \$1.8 million at June 30, 2020 and is excluded from the estimate of credit losses.

Upon adoption of ASC Topic 326, "Credit Losses" on January 1, 2020, see Note 16 related to the adoption of Topic 326, we recorded a transition adjustment of \$0.3 million in the allowance for credit losses for held-to-maturity debt securities.

The following table presents the activity in the allowance for credit losses for debt securities held-to-maturity for the three months ended June 30, 2020:

	Mortgage-backed securities	Other securities
	<i>(In thousands)</i>	
Beginning balance	\$ —	\$ 402
Provision	—	—
Allowance for credit losses - securities	\$ —	\$ 402

The following table presents the activity in the allowance for credit losses for debt securities held-to-maturity for the six months ended June 30, 2020:

	Mortgage-backed securities	Other securities
	<i>(In thousands)</i>	
Beginning balance	\$ —	\$ —
CECL adoption	—	340
Provision	—	62
Allowance for credit losses - securities	\$ —	\$ 402

Realized gains and losses on the sales of securities are determined using the specific identification method. The Company sold \$66.2 million and \$130.8 million in mortgage-backed securities during the three and six months ended June 30, 2020, respectively. The Company sold \$26.4 million in mortgage-backed securities during the three and six months ended June 30, 2019.

The following table represents the gross gains and gross losses realized from the sale of securities available for sale for the periods indicated:

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2020	2019	2020	2019
	<i>(In thousands)</i>

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

5. Loans

Loans are reported at their outstanding principal balance net of any unearned income, charge-offs, deferred loan fees and costs on originated loans and unamortized premiums or discounts on purchased loans. Loan fees and certain loan origination costs are deferred. Net loan origination costs and premiums or discounts on loans purchased are amortized into interest income over the contractual life of the loans using the level-yield method. Prepayment penalties received on loans which pay in full prior to their scheduled maturity are included in interest income in the period they are collected.

Interest on loans is recognized on the accrual basis. Accrued interest receivable totaled \$28.2 million at June 30, 2020 and was reported in “Interest and dividends receivable” on the Consolidated Statements of Financial Condition. The accrual of income on loans is generally discontinued when certain factors, such as contractual delinquency of 90 days or more, indicate reasonable doubt as to the timely collectability of such income. Uncollected interest previously recognized on non-accrual loans is reversed from interest income at the time the loan is placed on non-accrual status. A non-accrual loan can be returned to accrual status when contractual delinquency returns to less than 90 days delinquent. Payments received on non-accrual loans that do not bring the loan to less than 90 days delinquent are recorded on a cash basis. Payments can also be applied first as a reduction of principal until all principal is recovered and then subsequently to interest, if in management’s opinion, it is evident that recovery of all principal due is likely to occur.

The Company recognizes a loan as non-performing when the borrower has demonstrated the inability to bring the loan current, or due to other circumstances which, in management’s opinion, indicate the borrower will be unable to bring the loan current within a reasonable time. All loans classified as non-performing, which includes all loans past due 90 days or more, are classified as non-accrual unless the loan is well secured and there is, in our opinion, compelling evidence the borrower will bring the loan current in the immediate future. Prior to a real estate secured loan becoming 90 days delinquent, an updated appraisal is ordered and/or an internal evaluation is prepared.

Allowance for credit losses

The Allowance for credit losses (“ACL”) is an estimate that is deducted from the amortized cost basis of the financial asset to present the net carrying value at the amount expected to be collected on the financial assets. Loans are charged off against that allowance when management believes that a loan balance is uncollectable based on quarterly analysis of credit risk.

As of January 1, 2020, the Company adopted Topic 326, see Note 16 related to the adoption of Topic 326.

The amount of the ACL is based upon a loss rate model that considers multiple factors which reflects management’s assessment of the credit quality of the loan portfolio. Management estimates the allowance balance using relevant information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. The factors are both quantitative and qualitative in nature including, but not limited to, historical losses, economic conditions, trends in delinquencies, value and adequacy of underlying collateral, volume and portfolio mix, and internal loan processes.

The quantitative allowance is calculated using a number of inputs and assumptions. The process and guidelines were developed using, among other factors, the guidance from federal banking regulatory agencies and GAAP. The results of this process, support management’s assessment as to the adequacy of the ACL at each balance sheet date.

The process for calculating the allowance for credit losses begins with our historical losses by portfolio segment. The losses are then incorporated into reasonable and supportable forecast to develop the quantitative component of the allowance for credit losses.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The Bank has established an Asset Classification Committee which carefully evaluates loans which are past due 90 days and/or are classified. The Asset Classification Committee thoroughly assesses the condition and circumstances surrounding each loan meeting the criteria. The Bank also has a Delinquency Committee that evaluates loans meeting specific criteria. The Bank's loan policy requires loans to be placed into non-accrual status once the loan becomes 90 days delinquent unless there is, compelling evidence the borrower will bring the loan current in the immediate future.

For the quantitative measurement, the Company's portfolio consists of mortgage loans secured by real estate (both commercial and retail) and non-mortgage loans, which are primarily commercial business term loans and line of credit. Based on the Company's evaluation of the loan portfolio, below are the pools that were established as a baseline level of segmentation with their primary risk factor. The Company confirms this data remains relevant in absence of changes to the composition of the portfolio.

The mortgage portfolio is a substantial component of Company's portfolio and it is a focus of the Company's lending strategy, primarily focusing on multi-family and commercial real estate. While the mortgage portfolio consists of real-estate secured loans, the source of repayment and types of properties securing these loans varies and thus the Company first considered these differences as follows:

1. **One-to-four family residential property** – These loans are secured by residential properties for which the primary source of repayment is the income generated by the residential borrower. Delinquency status is considered a risk factor in this pool.
2. **One-to-four family mixed use** – These loans are secured by residential properties for which the primary source of repayment is the income generated by the property. Unlike the one-to-four residential credits, properties securing mixed use loans include a commercial space component. Delinquency status is considered a risk factor in this pool.
3. **Multi-family residential** – These loans are secured by multi-unit residential buildings for which the primary source of repayment is the income generated by the property. Properties securing multifamily loans have five or more residential units and thus a greater number of cash flow streams compared to one-to-four mixed use loans. Delinquency status and risk rating are considered risk factors in this pool.
4. **Commercial real estate (CRE)** – These loans are secured by properties for commercial use for which the primary source of repayment is the income generated by the property. Delinquency status, risk rating and collateral type are considered risk factors in this pool.
5. **Construction** – These loans are provided to fund construction projects for both residential and commercial properties. These loans are inherently different from all others as they represent "work in progress" and expose the Company to risk from non-completion and less recovery value should the sponsor of an unfinished property default. Delinquency status and risk rating are considered risk factors in this pool.

Relative to the non-mortgage portfolio, the Company considered the following categories as a baseline for evaluation:

6. **Commercial Business** – These loans are not typically secured by real estate. The primary source of repayment is cash flows from operations of the borrower's business. Within this category are Small Business Administration ("SBA") credits and equipment finance credits. Delinquency status, risk rating and industry are considered a risk factors in this pool.
7. **Commercial Business secured by real estate** – These loans are secured by properties used by the borrower for commercial use where the primary source of repayment is expected to be the income generated by the borrower's business use of the property. As a result of the Coronavirus pandemic and the strain placed upon many businesses, the Company recognized in circumstances where the borrower is not performing, the real estate collateral would be the source of repayment. The Company considers these credits to be less risky than commercial business loans, however, riskier than commercial real estate loans. Delinquency status, risk rating and industry are considered risk factors in this pool.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

8. **Taxi Medallions** – These loans consist primarily of loans made to New York taxi medallion owners and are secured by liens on the taxi medallions. No new taxi medallions have been originated since 2014, the remaining portfolio is running off and all credits are individually evaluated for expected credit losses

Lastly, the Company identified that the remainder of the portfolio includes overdraft lines of credit.

9. **Overdrafts** – These are unsecured consumer lines of credits and are an immaterial component of the Company's portfolio.

For the qualitative measurement, the Company aggregated the portfolio segments according to three business units: commercial banking, residential and commercial real estate. In accordance with the interagency statement and SEC guidance, Management evaluates nine qualitative risk factors to determine if the risk is captured elsewhere in the ACL process. If not captured elsewhere, the Company has identified specific risk factors to evaluate and incorporate into its Qualitative Framework. Some risk factors include time to maturity, origination loan-to-value, loan type composition, the value of underlying collateral, changes in policies and procedures for lending strategies and underwriting standards, collection and recovery practices, internal credit review, changes in personnel, divergence between the levels of NYC and national unemployment, divergence between the NYC GDP and national GDP, industry concentrations and riskiness and large borrower concentrations.

The Company recorded a provision for loans in the amount of \$16.7 million for the six months ending June 30, 2020, primarily due to the economic conditions from COVID-19 and the growth in the loan portfolio. The Company specifies both the reasonable and supportable forecast and reversion periods in three economic conditions (expansion, transition, contraction). When calculating the ACL estimate for June 30, 2020, Management acknowledged the deteriorating economic conditions as a result of the COVID-19 pandemic were captured in the forecast within the model platform, however, there is substantial uncertainty of the forecast as the economy remains severely unstable. As such, when determining the reasonable and supportable forecast, Management adjusted the period to reflect a supportable forecast of one quarter, to align with a previously established framework for contraction periods. Similarly, a reversion period of three quarters was adjusted to reflect the shorter end of a contraction period. Management believed these adjustments are necessary as forecasts are generally less reliable in unstable environments. This resulted in the ACL for loans totaling \$36.7 million at June 30, 2020, representing 0.61% of gross loans and 181.85% of non-performing loans.

In response to COVID-19, the Company is actively assisting customers by providing short-term modifications in the form of deferrals of interest, principal and/or escrow for terms ranging from one to six months. At June 30th, 2020 we have 808 active forbearances for loans with an aggregate outstanding loan balance of approximately \$1.3 billion of which 82% is in our real estate portfolio and 18% is in our business banking portfolio. Given the pandemic and current economic environment, we continue to work with our customers to modify loans although the pace of requests slowed late in the second quarter. The Company actively participated in the SBA Paycheck Protection Program, closing \$93.2 million of these loans through June 30, 2020. We are also a proud participant in the Main Street Lending Program in order to assist customers. Pursuant to the CARES Act, loan modifications made between March 1, 2020 and the earlier of i) December 30, 2020 or ii) 60 days after the President declares a termination of the COVID-19 national emergency are not classified as TDRs if the related loans were not more than 30 days past due as of December 31, 2019. The Company has elected that loans temporarily modified for borrowers directly impacted by COVID-19 are not considered TDR, assuming the above criteria is met and as such, these loans are considered current and continue to accrue interest at its original contractual terms. These loans were captured in the portfolio segments described above and the potential losses captured in the variables used in the ACL calculation.

The Company may restructure loans that are not directly impacted by COVID-19 to enable a borrower experiencing financial difficulties to continue making payments when it is deemed to be in the Company's best long-term interest. This restructure may include reducing the interest rate or amount of the monthly payment for a specified period of time, after which the interest rate and repayment terms revert to the original terms of the loan. We classify these loans as TDR.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The Company believes that restructuring these loans in this manner will allow certain borrowers to become and remain current on their loans. All loans classified as TDR are individually evaluated, however TDR loans which have been current for six consecutive months at the time they are restructured as TDR remain on accrual status and are not included as part of non-performing loans. Loans which were delinquent at the time they are restructured as a TDR are placed on non-accrual status and reported as non-accrual performing TDR loans until they have made timely payments for six consecutive months. These restructurings have not included a reduction of principal balance.

The allocation of a portion of the allowance for loan losses for a performing TDR loan is based upon the present value of the future expected cash flows discounted at the loan's original effective rate, or for a non-performing TDR loan which is collateral dependent, the fair value of the collateral. At June 30, 2020, there were no commitments to lend additional funds to borrowers whose loans were modified to a TDR. The modification of loans to a TDR did not have a significant effect on our operating results, nor did it require a significant allocation of the allowance for loan losses.

There were no TDR loan modifications during the three and six months ended June 30, 2020 and 2019.

The following table shows our recorded investment for loans classified as TDR at amortized cost that are performing according to their restructured terms at the periods indicated:

	June 30, 2020	
	Number of contracts	Amortized Cost
<i>(Dollars in thousands)</i>		
Multi-family residential	7	\$ 1,860
One-to-four family - mixed-use property	3	1,143
One-to-four family - residential	3	518
Taxi medallion ⁽¹⁾	6	1,512
Commercial business and other ⁽¹⁾	3	950
Total performing troubled debt restructured	22	\$ 5,983

(1) These loans in the table above continue to pay as agreed, however the Company records interest received on a cash basis.

The following table shows our recorded investment for loans classified as TDR that are performing according to their restructured terms at the periods indicated :

	December 31, 2019	
	Number of contracts	Recorded investment
<i>(Dollars in thousands)</i>		
Multi-family residential	7	\$ 1,873
One-to-four family - mixed-use property	4	1,481
One-to-four family - residential	3	531
Taxi medallion ⁽¹⁾	7	1,668
Commercial business and other ⁽¹⁾	3	941
Total performing troubled debt restructured	24	\$ 6,494

(1) These loans in the table above continue to pay as agreed, however the Company records interest received on a cash basis.

During the three and six months ended June 30, 2020 and 2019, there were no defaults of TDR loans within 12 months of their modification date.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

In accordance with our policy and the current regulatory guidelines, we designate loans as “Special Mention,” which are considered “Criticized Loans,” and “Substandard,” “Doubtful,” or “Loss,” which are considered “Classified Loans”. If a loan does not fall within one of the previous mentioned categories and management believes weakness is evident then we designate the loan as “Watch”, all other loans would be considered “Pass.” Loans that are non-accrual are designated as Substandard, Doubtful or Loss. These loan designations are updated quarterly. We designate a loan as Substandard when a well-defined weakness is identified that may jeopardize the orderly liquidation of the debt. We designate a loan Doubtful when it displays the inherent weakness of a Substandard loan with the added provision that collection of the debt in full, on the basis of existing facts, is highly improbable. We designate a loan as Loss if it is deemed the debtor is incapable of repayment. The Company does not hold any loans designated as Loss, as loans that are designated as Loss are charged to the Allowance for Credit Losses. We designate a loan as Special Mention if the asset does not warrant classification within one of the other classifications, but does contain a potential weakness that deserves closer attention. Loans that are in forbearance pursuant to the CARES Act, continue to be reported in the same category as they were reported immediately prior to modification.

(Unaudited)

Off-Balance Sheet Credit Losses

Also included within scope of the CECL standard are off-balance sheet loan commitments, which includes the unfunded portion of committed lines of credit and commitments “in-process”. Commitments “in-process” reflect loans not in the Company’s books but rather negotiated loan / line of credit terms and rates that the Company has offered to customers and is committed to honoring. In reference to “in-process” credits, the Company defines an unfunded commitment as a credit that has been offered to and accepted by a borrower, which has not closed and by which the obligation is not unconditionally cancellable.

The Company estimates expected credit losses over the contractual period in which the company is exposed to credit risk through a contractual obligation to extend credit, unless that obligation is unconditionally cancellable by the Company. The allowance for credit losses on losses on off-balance sheet exposures is adjusted as a provision for credit loss expense. The Company uses similar assumptions and risk factors that are developed for collectively evaluated financing receivables. This estimates includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments to be funded over its estimated life.

At June 30, 2020, allowance for off-balance-sheet credit losses is \$1.3 million, which is included the “Other liabilities” on the Consolidated Statements of Financial Condition. During the three and six months ended June 30, 2020, the Company has \$0.5 million and \$0.7 million, respectively, in credit loss expense for off-balance-sheet items, which is included in the “Other operating expense” on the Consolidated Statements of Income.

6. Loans held for sale

Loans held for sale are carried at the lower of cost or estimated fair value. At June 30, 2020 and December 31, 2019, the Bank did not have any loans held for sale.

The Company has implemented a strategy of selling certain delinquent and non-performing loans. Once the Company has decided to sell a loan, the sale usually closes in a short period of time, generally within the same quarter. Loans designated held for sale are reclassified from loans held for investment to loans held for sale. Terms of sale include cash due upon the closing of the sale, no contingencies or recourse to the Company and servicing is released to the buyer. Additionally, at times the Company may sell participating interests in performing loans.

There were no loans sold for the three months ended June 30, 2020.

The following tables show loans sold during the period indicated:

<i>(Dollars in thousands)</i>	For the three months ended June 30, 2019

8. Leases

The Company has 21 operating leases for branches (including headquarters) and office spaces, nine operating leases for vehicles, and one operating lease for equipment. Our leases have remaining lease terms ranging from five months to 12 years, none of which has a renewal option reasonably certain of exercise, which has been reflected in the Company's calculation of lease term.

The Company has elected the short-term lease recognition exemption such that the Company will not recognize Right-Of-Use ("ROU") assets or lease liabilities for leases with a term of less than 12 months from the commencement date. The Company's operating lease expense totaled \$1.9 million and was recorded in Occupancy and equipment on the Consolidated Statements of Income for each of the three month periods ended June 30, 2020 and 2019. The Company's operating lease expense totaled \$3.8 million and was recorded in Occupancy and equipment on the Consolidated Statements of Income for each of the six month periods ended June 30, 2020 and 2019.

The Company has one agreement that qualifies as a short-term lease with expense totaling approximately \$34,000 for each of the three month periods ended June 30, 2020 and 2019 and approximately \$68,000 for each of the six month periods ended June 30, 2020 and 2019, included in Professional services on the Consolidated Statements of Income. The Company has \$0.3 million and \$0.2 million in variable lease payments, which include insurance and real estate tax expenses and was recorded in Occupancy and equipment on the Consolidated Statements of Income, for the three months ended June 30, 2020 and 2019, respectively. The Company has \$0.6 million and \$0.4 million in variable lease payments, which include insurance and real estate tax expenses and was recorded in Occupancy and equipment on the Consolidated Statements of Income, for the six months ended June 30, 2020 and 2019, respectively. At June 30, 2020, the weighted-average remaining lease term for our operating leases is approximately seven years and the weighted average discount rate is 3.8%. Our lease agreements do not contain any residual value guarantees.

Certain leases have escalation clauses for operating expenses and real estate taxes. The Company's non-cancelable operating lease agreements expire through 2032.

Supplemental balance sheet information related to leases was as follows:

<i>(Dollars in thousands)</i>	June 30, 2020	December 31, 2019
Operating lease ROU assets	\$ 38,303	\$ 41,254
Operating lease liabilities	\$ 45,897	\$ 49,367
Weighted-average remaining lease term-operating leases	7.2 years	8.0 years
Weighted average discount rate-operating leases	3.8 %	3.8 %

9. Stock-Based Compensation

On January 31, 2019, the Board of Directors approved a 2019 long-term incentive compensation program for certain Company executive officers that includes grants of performance-based restricted stock units (“PRSUs”) in addition to time-based restricted stock units (“RSU”). Under the terms of the PRSU Agreement, the number of PRSUs that may be earned depends on the extent to which performance goals for the award are achieved over a three-year performance period, as determined by the Compensation Committee of the Board. The number of PRSUs that may be earned ranges from 0% to 150% of the target award, with no PRSUs earned for below threshold-level performance, 50% of PRSUs earned for threshold-level performance, 100% of PRSUs earned for target-level performance, and 150% of PRSUs earned for maximum-level performance. As of June 30, 2020, PRSU’s granted in 2020 are being accrued at target and PRSU’s granted in 2019 are being accrued above target. The different levels of accrual are commensurate with the projected performance of the respective grant.

For the three months ended June 30, 2020 and 2019, the Company’s net income, as reported, included \$0.9 million and \$1.4 million, respectively, of stock-based compensation costs, including the benefit or expense of phantom stock awards, and \$0.2 million and \$0.3 million of income tax benefits, respectively, related to the stock-based compensation plans. For the six months ended June 30, 2020 and 2019, the Company’s net income, as reported, included \$3.4 million and \$5.4 million, respectively, of stock-based compensation costs, including the benefit or expense of phantom stock awards, and \$0.8 million and \$1.3 million of income tax benefits, respectively, related to the stock-based compensation plans.

During the three months ended June 30, 2020, the Company granted 2,500 RSU awards. During the three months ended June 30, 2019, the Company did not grant any RSU awards. During the three months ended June 30, 2020 and 2019, the Company did not grant any PRSU awards. During the six months ended June 30, 2020 and 2019, the Company granted 172,728 and 263,574 in RSU awards, respectively. During the six months ended June 30, 2020 and 2019, the Company granted 72,143 and 57,870 in PRSU awards, respectively. The Company has not granted stock options since 2009 and at June 30, 2020, had none outstanding.

The Company uses the fair value of the common stock on the date of award to measure compensation cost for restricted stock unit awards. Compensation cost is recognized over the vesting period of the award using the straight-line method.

The following table summarizes the Company’s RSU and PRSU awards at or for the six months ended June 30, 2020:

	RSU Awards		PRSU Awards	
	Shares	Weighted-Average Grant-Date Fair Value	Shares	Weighted-Average Grant-Date Fair Value
Non-vested at December 31, 2019	428,295	\$ 24.42	34,186	\$ 22.38
Granted	172,728	19.66	72,143	20.38
Vested	(236,981)	22.34	(35,149)	20.54
Forfeited	(2,415)	24.62	—	—
Non-vested at June 30, 2020	361,627	\$ 23.51	71,180	\$ 21.26
Vested but unissued at June 30, 2020	215,017	\$ 23.24	62,515	\$ 21.35

As of June 30, 2020, there was \$7.4 million of total unrecognized compensation cost related to RSU and PRSU awards granted. That cost is expected to be recognized over a weighted-average period of 2.6 years. The total fair value of awards vested for the three months ended June 30, 2020 and 2019 was \$0.1 million and \$0.2 million, respectively. The total fair value of awards vested for the six months ended June 30, 2020 and 2019 was \$5.1 million and \$6.2 million, respectively. The vested but unissued RSU and PRSU awards consist of awards made to employees and directors who are eligible for

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

retirement. According to the terms of these awards, which provide for vesting upon retirement, these employees and directors have no risk of forfeiture. These shares will be issued at the original contractual vesting and settlement dates.

Phantom Stock Plan: The Company maintains a non-qualified phantom stock plan as a supplement to its profit sharing plan for officers who have achieved the designated level and completed one year of service. The Company adjusts its liability under this plan to the fair value of the shares at the end of each period.

The following table summarizes the Phantom Stock Plan at or for the six months ended June 30, 2020:

Phantom Stock Plan	Shares	Fair Value
Outstanding at December 31, 2019	109,226	\$ 21.61
Granted	8,024	15.84
Distributions	(628)	12.24
Outstanding at June 30, 2020	116,622	\$ 11.52
Vested at June 30, 2020	116,243	\$ 11.52

The Company recorded stock-based compensation (benefit) expense for the Phantom Stock Plan of (\$0.2) million and \$0.1 million for the three months ended June 30, 2020 and 2019, respectively. The total fair value of the distributions from the Phantom Stock Plan was \$7,000 and less than \$1,000 for the three months ended June 30, 2020 and 2019, respectively.

The Company recorded stock-based compensation (benefit) expense for the Phantom Stock Plan of (\$1.1) million and \$0.1 million for the six months ended June 30, 2020 and 2019, respectively. The total fair value of the distributions from the Phantom Stock Plan was less than \$8,000 and \$22,000 for the six months ended June 30, 2020 and 2019, respectively.

10. Pension and Other Postretirement Benefit Plans

The following table sets forth information regarding the components of net expense for the pension and other postretirement benefit plans.

<i>(In thousands)</i>	Three months ended June 30,		Six months ended June 30,	
	2020	2019	2020	2019
Employee Pension Plan:				
Interest cost	\$ 163	\$ 199	\$ 326	\$ 398

Interest cost	65	85	130	170
Amortization of past service credit	(23)	(20)	(43)	(42)
Net other postretirement expense	<u>\$ 110</u>	<u>\$ 135</u>	<u>\$ 224</u>	<u>\$ 268</u>

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The Company previously disclosed in its Consolidated Financial Statements for the year ended December 31, 2019 that it expects to contribute \$0.3 million to each of the Outside Director Pension Plan (the “Outside Director Pension Plan”) and the other postretirement benefit plans (the “Other Postretirement Benefit Plans”), during the year ending December 31, 2020. The Company does not expect to make a contribution to the Employee Pension Plan (the “Employee Pension Plan”). As of June 30, 2020, the Company had contributed \$72,000 to the Outside Director Pension Plan and \$40,000 in contributions were made to the Other Postretirement Benefit Plans. As of June 30, 2020, the Company has not revised its expected contributions for the year ending December 31, 2020.

11. Fair Value of Financial Instruments

The Company carries certain financial assets and financial liabilities at fair value in accordance with GAAP which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP permits entities to choose to measure many financial instruments and certain other items at fair value. At June 30, 2020, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$14.4 million and \$35.6 million, respectively. At December 31, 2019, the Company carried financial assets and financial liabilities under the fair value option with fair values of \$14.3 million and \$44.4 million, respectively. The Company did not elect to carry any additional financial assets or financial liabilities under the fair value option during the three and six months ended June 30, 2020 and 2019.

The following table presents the financial assets and financial liabilities reported at fair value under the fair value option, and the changes in fair value included in the Consolidated Statement of Income – Net gain (loss) from fair value adjustments, at or for the periods ended as indicated:

<i>(In thousands)</i>	Fair Value Measurements at June 30, 2020	Fair Value Measurements at December 31, 2019	Changes in Fair Values For Items Measured at Fair Value Pursuant to Election of the Fair Value Option			
			Three Months Ended		Six Months Ended	
			June 30, 2020	June 30, 2019	June 30, 2020	June 30, 2019
Mortgage-backed securities	\$ 703	\$ 772	\$ (1)	\$ 1	\$ 2	\$ 2
Other securities	13,707	13,548	(182)	184	37	363
Borrowed funds	35,570	44,384	10,334	(544)	7,983	(1,754)
Net gain (loss) from fair value adjustments ⁽¹⁾⁽²⁾			<u>\$ 10,151</u>	<u>\$ (359)</u>	<u>\$ 8,022</u>	<u>\$ (1,389)</u>

(1) The net gain (loss) from fair value adjustments presented in the above table does not include net gains (losses) of \$0.1 million and (\$1.6) million for the three months ended June 30, 2020 and 2019, respectively, from the change in the fair value of interest rate swaps.

(2) The net gain (loss) from fair value adjustments presented in the above table does not include net losses of \$3.8 million and \$2.6 million for the six months ended June 30, 2020 and 2019, respectively, from the change in the fair value of interest rate swaps.

Included in the fair value of the financial assets and financial liabilities selected for the fair value option is the accrued interest receivable or payable for the related instrument. The Company reports as interest income or interest expense in the Consolidated Statement of Income, the interest receivable or payable on the financial instruments selected for the fair value option at their respective contractual rates.

During the three months ended June 30, 2020, credit spreads used in the calculation of fair value of our junior subordinated debentures widened, causing a decrease of \$10.3 million in the fair value.

The borrowed funds had a contractual principal amount of \$61.9 million at both June 30, 2020 and December 31, 2019. The fair value of borrowed funds includes accrued interest payable of \$0.1 million and \$0.2 million at June 30, 2020 and December 31, 2019, respectively.

The Company generally holds its earning assets, other than securities available for sale, to maturity and settles its liabilities at maturity. However, fair value estimates are made at a specific point in time and are based on relevant market information.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular instrument. Accordingly, as assumptions change, such as interest rates and prepayments, fair value estimates change and these amounts may not necessarily be realized in an immediate sale.

Disclosure of fair value does not require fair value information for items that do not meet the definition of a financial instrument or certain other financial instruments specifically excluded from its requirements. These items include core deposit intangibles and other customer relationships, premises and equipment, leases, income taxes and equity.

Further, fair value disclosure does not attempt to value future income or business. These items may be material and accordingly, the fair value information presented does not purport to represent, nor should it be construed to represent, the underlying "market" or franchise value of the Company.

Financial assets and financial liabilities reported at fair value are required to be measured based on either: (1) quoted prices in active markets for identical financial instruments (Level 1); (2) significant other observable inputs (Level 2); or (3) significant unobservable inputs (Level 3).

A description of the methods and significant assumptions utilized in estimating the fair value of the Company's assets and liabilities that are carried at fair value on a recurring basis are as follows:

Level 1 – when quoted market prices are available in an active market. At June 30, 2020 and December 31, 2019, Level 1 included one mutual fund.

Level 2 – when quoted market prices are not available, fair value is estimated using quoted market prices for similar financial instruments and adjusted for differences between the quoted instrument and the instrument being valued. Fair value can also be estimated by using pricing models, or discounted cash flows. Pricing models primarily use market-based or independently sourced market parameters as inputs, including, but not limited to, yield curves, interest rates, equity or debt prices and credit spreads. In addition to observable market information, models also incorporate maturity and cash flow assumptions. At June 30, 2020 and December 31, 2019, Level 2 included mortgage-backed securities, CLO's, corporate debt, municipals and interest rate swaps.

Level 3 – when there is limited activity or less transparency around inputs to the valuation, financial instruments are classified as Level 3. At June 30, 2020 and December 31, 2019, Level 3 included trust preferred securities owned and junior subordinated debentures issued by the Company.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. While the Company believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies, assumptions and models to determine fair value of certain financial instruments could produce different estimates of fair value at the reporting date.

December 31, 2019					
	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Input</u>	<u>Range</u>	<u>Weighted Average</u>
<i>(Dollars in thousands)</i>					
Assets:					
Trust preferred securities	\$ 1,332	Discounted cash flows	Discount rate	n/a	4.2 %
Liabilities:					
Junior subordinated debentures	\$ 44,384	Discounted cash flows	Discount rate	n/a	4.2 %

The significant unobservable inputs used in the fair value measurement of the Company’s trust preferred securities and junior subordinated debentures valued under Level 3 at June 30, 2020 and December 31, 2019, are the effective yields used in the cash flow models. Significant increases or decreases in the effective yield in isolation would result in a significantly lower or higher fair value measurement. The increase in the discount rate used at June 30, 2020, was primarily due to widening credit spreads resulting from the COVID-19 crisis.

The following table sets forth the Company’s assets and liabilities that are carried at fair value on a non-recurring basis and the level that was used to determine their fair value at June 30, 2020 and December 31, 2019:

	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Other Unobservable Inputs (Level 3)		Total carried at fair value on a non-recurring basis

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The Company did not have any liabilities that were carried at fair value on a non-recurring basis at June 30, 2020 and December 31, 2019.

The methods and assumptions used to estimate fair value at June 30, 2020 and December 31, 2019 are as follows:

Securities:

The fair values of securities are contained in Note 4 (“Securities”) of the Notes to Consolidated Financial Statements. Fair value is based upon quoted market prices, where available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities and adjusted for differences between the quoted instrument and the instrument being valued. When there is limited activity or less transparency around inputs to the valuation, securities are valued using discounted cash flows.

Non-accrual Loans:

For non-accruing loans, fair value is generally estimated by discounting management’s estimate of future cash flows with a discount rate commensurate with the risk associated with such assets or, for collateral dependent loans, 85% of the appraised or internally estimated value of the property, except for taxi medallion loans. The fair value of the underlying collateral of taxi medallion loans is the most recent reported arm’s length transaction. When there is no recent sale activity, the fair value is calculated using capitalization rates. See Note 5 (“Loans”) of the Notes to the Consolidated Financial Statements.

Junior Subordinated Debentures:

The fair value of the junior subordinated debentures was developed using a credit spread based on stated spreads for recently issued subordinated debt instruments for issuers of similar asset size and credit quality of the Company and with similar durations adjusting for differences in the junior subordinated debt’s credit rating, liquidity and time to maturity. The unrealized net gain/loss attributable to changes in our own credit risk was determined by adjusting the fair value as determined in the proceeding sentence by the average rate of default on debt instruments with a similar debt rating as our junior subordinated debentures, with the difference from the original calculation and this calculation resulting in the instrument-specific unrealized gain/loss.

Other Real Estate Owned and Other Repossessed Assets:

The fair value for OREO is based on appraised value through a current appraisal, or sometimes through an internal review, additionally adjusted by the estimated costs to sell the property. The fair value for other repossessed assets are based upon the most recently reported arm’s length sales transaction. When there is no recent sale activity, the fair value is calculated using capitalization rates.

Interest Rate Swaps:

The fair value of interest rate swaps is based upon broker quotes.

12. Derivative Financial Instruments

At June 30, 2020 and December 31, 2019, the Company's derivative financial instruments consist of interest rate swaps. The Company's interest rate swaps are used for three purposes: 1) to mitigate the Company's exposure to rising interest rates on a portion (\$18.0 million) of its floating rate junior subordinated debentures that have a contractual value of \$61.9 million, at June 30, 2020 and December 31, 2019; 2) to mitigate the Company's exposure to rising interest rates on certain fixed rate loans totaling \$326.7 million and \$326.0 million at June 30, 2020 and December 31, 2019, respectively; and 3) to mitigate exposure to rising interest rates on certain short-term advances totaling \$1,021.5 million and \$541.5 million at June 30, 2020 and December 31, 2019, respectively.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

At June 30, 2020 and December 31, 2019, we held derivatives designated as cash flow hedges, fair value hedges and certain derivatives not designated as hedges.

The Company’s derivative instruments are carried at fair value in the Company’s financial statements as part of Other Assets for derivatives with positive fair values and Other Liabilities for derivatives with negative fair values. The accounting for changes in the fair value of a derivative instrument is dependent upon whether or not it qualifies and has been designated as a hedge for accounting purposes, and further, by the type of hedging relationship.

At June 30, 2020 and December 31, 2019, derivatives with a combined notional amount of \$23.7 million were not designated as hedges. At June 30, 2020 and December 31, 2019, derivatives with a combined notional amount of \$321.1 million and \$326.0 million, respectively, were designated as fair value hedges. At June 30, 2020 and December 31, 2019, derivatives with a combined notional amount of \$1,021.5 million and \$541.5 million, respectively, were designated as cash flow hedges.

For cash flow hedges, the changes in the fair value of the derivative is reported in accumulated other comprehensive income (loss), net of tax. Amounts in accumulated other comprehensive income (loss) are reclassified into earnings in the same period during which the hedged forecasted transaction effects earnings. During the three months ended June 30, 2020 and 2019, \$0.6 million were reclassified from accumulated other comprehensive loss to interest expense. During the six months ended June 30, 2020 and 2019, \$0.8 million were reclassified from accumulated other comprehensive loss to interest expense. The estimated amount to be reclassified in the next 12 months out of the accumulated comprehensive income (loss) into earnings is \$1.6 million.

Changes in the fair value of interest rate swaps not designated as hedges are reflected in “Net gain/loss from fair value adjustments” in the Consolidated Statements of Income.

The following table sets forth information regarding the Company’s derivative financial instruments at the periods indicated:

	June 30, 2020		December 31, 2019	
	Notional Amount	Net Carrying Value ⁽¹⁾	Notional Amount	Net Carrying Value ⁽¹⁾
	<i>(In thousands)</i>			
Interest rate swaps (fair value hedge)	\$ —	\$ —	\$ 139,960	\$ 2,352

13. Income Taxes

Flushing Financial Corporation files consolidated Federal and combined New York State and New York City income tax returns with its subsidiaries, with the exception of the Company's trusts, which file separate Federal income tax returns as trusts, and Flushing Preferred Funding Corporation, which files a separate Federal income tax return as a real estate investment trust. Additionally, the Bank files New Jersey State tax returns. As of June 30, 2020, the Company is undergoing examination for its New York State income tax returns for 2014, 2015 and 2016 and its New York City income tax return for 2015, 2016 and 2017.

Income tax provisions are summarized as follows:

15. Regulatory Capital

Under current capital regulations, the Bank is required to comply with four separate capital adequacy standards. As of June 30, 2020, the Bank continues to be categorized as “well-capitalized” under the prompt corrective action regulations and continues to exceed all regulatory capital requirements. The Bank is also required to comply with a Capital Conservation Buffer (“CCB”). The CCB is designed to establish a capital range above minimum capital requirements and impose constraints on dividends, share buybacks and discretionary bonus payments when capital levels fall below prescribed levels. The minimum CCB is 2.50%. The CCB for the Bank at June 30, 2020 was 5.25%.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

16. Subsequent Events

On August 3, 2020, Flushing Financial Corporation and Empire Bancorp, Inc. issued a joint press release announcing that they have each advised the other they will not exercise their respective rights to terminate the Agreement and Plan of Merger, dated October 24, 2019, as amended, as would otherwise be permitted after July 31, 2020 under the agreement, and that they are discussing an extension of time to complete the proposed transaction.

17. New Authoritative Accounting Pronouncements

Accounting Standards Adopted in 2020:

Effective January 1, 2020, the Company adopted Accounting Standards Topic 326, “Financial Instruments – Credit Losses” which replaced the previously existing U.S. GAAP “incurred loss” approach to “expected credit losses” approach, which is referred as Current Expected Credit Losses (“CECL”). CECL measures the credit loss associated with financial assets carried at amortize cost, including loan receivables, held-to-maturity debt securities, off balance sheet credit exposures and certain leases recognized by a lessor. CECL introduced the concept of purchased credit-deteriorated (PCD) financial assets, in which it requires the estimate of expected credit losses embedded in the purchase price of PCD assets to be estimated and separately recognized as an allowance as of the date of acquisition. It also modifies the accounting of impairment on available-for-sale debt securities by recognizing a credit loss through an allowance for credit.

The Company adopted Topic 326 using the modified retrospective method for all financial assets measured at amortized cost and off-balances sheet exposures. Results for reporting periods beginning after January 1, 2020 are presented under Topic 326 while prior period amounts continue to be reported in accordance with previously applicable GAAP. Upon adoption we recorded a cumulative-effect adjustment to retained earnings totaling \$1.3 million, \$0.9 million, net of tax. The transition adjustment includes changes to the three applicable components of the ACL: increases of \$0.4 million in the allowance for loan losses, \$0.3 million in the allowance for held-to-maturity debt securities and \$0.6 million in the allowance for off-balance sheet items.

At January 1, 2020, the reasonable and supportable forecast indicated economic growth and low unemployment.

Effective January 1, 2020, the Company adopted ASU No. 2018-13, “Fair Value Measurement (Topic 820)”. The Update modifies the disclosure requirements on fair value measurements in Topic 820. The guidance did not have a significant impact on the Company’s financial positions, results of operations or disclosures.

Effective January 1, 2020, the Company adopted ASU No. 2017-04, “Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment.” The ASU simplifies the subsequent measurement of goodwill and eliminates Step 2 from the goodwill impairment test. Under this ASU, the Company should perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An impairment charge should be recognized for the amount by which the carrying amount exceeds the reporting unit’s fair value. The impairment charge is limited to the amount of goodwill allocated to that reporting unit. The guidance did not have a significant impact on the Company’s financial positions, results of operations or disclosures.

Accounting Standards Pending Adoption:

In August 2018, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2018-14, “Compensation – Retirement Benefits – Defined Benefit Plans – General (Subtopic 715-20)” providing targeted improvements to the disclosures required for Defined Benefit Plans. The amendments in in this Update are effective for fiscal years ended after December 15, 2020. Early adoption is permitted. The amendments are to be applied on a retrospective basis to all periods presented. The guidance is not expected to have a significant impact on the Company’s financial positions, results of operations or disclosures.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

In March 2020, the FASB issued ASU No. 2020-04, “Reference Rate Reform” (Topic 848), which provides optional expedients and exceptions for applying GAAP to loan and lease agreements, derivative contracts, and other transactions affected by the anticipated transition away from LIBOR toward new interest rate benchmarks. For transactions that are modified because of reference rate reform and that meet certain scope guidance (i) modifications of loan agreements should be accounted for by prospectively adjusting the effective interest rate and the modification will be considered "minor" so that any existing unamortized origination fees/costs would carry forward and continue to be amortized and (ii) modifications of lease agreements should be accounted for as a continuation of the existing agreement with no reassessments of the lease classification and the discount rate or re-measurements of lease payments that otherwise would be required for modifications not accounted for as separate contracts. ASU 2020-04 also provides numerous optional expedients for derivative accounting. ASU 2020-04 is effective March 12, 2020 through December 31, 2022. An entity may elect to apply ASU 2020-04 for contract modifications as of January 1, 2020, or prospectively from a date within an interim period that includes or is subsequent to March 12, 2020, up to the date that the financial statements are available to be issued. Once elected for a Topic or an Industry Subtopic within the Codification, the amendments in this ASU must be applied prospectively for all eligible contract modifications for that Topic or Industry Subtopic. We anticipate this ASU will simplify any modifications we execute between the selected start date (yet to be determined) and December 31, 2022 that are directly related to LIBOR transition by allowing prospective recognition of the continuation of the contract, rather than extinguishment of the old contract resulting in writing off unamortized fees/costs. We are evaluating the impacts of this ASU and have not yet determined whether LIBOR transition and this ASU will have material effects on our business operations and consolidated financial statements. The amendments in this Update apply to contract modifications that replace a reference rate reform and contemporaneous modifications of other terms related to the replacement of the reference rate.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report should be read in conjunction with the more detailed and comprehensive disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2019. In addition, please read this section in conjunction with our Consolidated Financial Statements and Notes to Consolidated Financial Statements contained herein.

As used in this Quarterly Report, the words “we,” “us,” “our” and the “Company” are used to refer to Flushing Financial Corporation and its direct and indirect wholly owned subsidiaries, Flushing Bank (the “Bank”), Flushing Preferred Funding Corporation, Flushing Service Corporation, and FSB Properties Inc.

Statements contained in this Quarterly Report relating to plans, strategies, objectives, economic performance and trends, projections of results of specific activities or investments and other statements that are not descriptions of historical facts may be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking information is inherently subject to risks and uncertainties and actual results could differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, factors discussed elsewhere in this Quarterly Report and in other documents filed by us with the Securities and Exchange Commission from time to time, including, without limitation, our Annual Report on Form 10-K for the year ended December 31, 2019. Forward-looking statements may be identified by terms such as “may,” “will,” “should,” “could,” “expects,” “plans,” “intends,” “anticipates,” “believes,” “estimates,” “predicts,” “forecasts,” “goals,” “potential” or “continue” or similar terms or the negative of these terms. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We have no obligation to update these forward-looking statements.

Impact of COVID-19

In March 2020, the World Health Organization recognized the outbreak of the novel Coronavirus Disease 2019 (“COVID-19”) as a pandemic. The Spread of COVID-19 has created a global public health crisis that has resulted in unprecedented uncertainty, volatility and disruption in financial markets and in governmental, commercial and consumer activity in the United States and globally, including the markets we serve. In response to the pandemic, the government placed orders for shelter in place, maintaining social distancing and closed businesses that are not deemed essential.

The Company was quick to respond to the pandemic with new health and safety measures, including social distancing, appointment banking and expansion of our remote capabilities. Our staff responded to these changes in a superb fashion and continue to provide our customers with excellent service. Today we have the capability of having our entire staff work remotely. On any given day, as many as 85% of staff work from home. The Federal Reserve’s dramatic 150 basis point drop in rates provided the country with much needed liquidity to counteract the negative economic effects of the COVID-19 pandemic.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (“CARES”) Act was signed in to law. It contains substantial tax and spending provisions intended to address the impact of the COVID-19 pandemic. The CARES Act includes the Paycheck Protection Program (“PPP”), a program to aid small and medium- sized businesses through federally guaranteed loans distributed through banks. These loans are intended to guarantee eight weeks of payroll and other costs to help those businesses remain viable and allow their workers to pay their bills.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

During these tumultuous times, we are actively assisting our customers by providing short-term forbearances in the form of deferrals of interest, principal and/or escrow for terms ranging from one to six months. At June 30th, 2020, we have 808 active forbearances for loans with an aggregate outstanding loan balance of approximately \$1.3 billion of which 82% is in our real estate portfolio and 18% is in our business banking portfolio. Given the pandemic and current economic environment, we continue to work with our customers to modify loans. We actively participated in the PPP, closing \$93.2 million of these loans through June 30, 2020. We are one of nine banks in the State of New York participating in the Main Street Lending Program. We are also a proud participant in the FHLBNY Small Business Recovery Grant Program, helping our customers and communities navigate through the current environment.

Executive Summary

We are a Delaware corporation organized in May 1994. The Bank was organized in 1929 as a New York State-chartered mutual savings bank. Today the Bank operates as a full-service New York State commercial bank. The Bank’s primary regulator is the New York State Department of Financial Services, and its primary federal regulator is the Federal Deposit Insurance Corporation (“FDIC”). Deposits are insured to the maximum allowable amount by the FDIC. Additionally, the Bank is a member of the Federal Home Loan Bank system. The primary business of Flushing Financial Corporation has been the operation of the Bank. The Bank owns three subsidiaries: Flushing Preferred Funding Corporation, Flushing Service Corporation, and FSB Properties Inc. The Bank also operates an internet branch, which operates under the brands of iGObanking.com® and BankPurely® (the “Internet Branch”). The activities of Flushing Financial Corporation are primarily funded by dividends, if any, received from the Bank, issuances of subordinated debt, junior subordinated debt, and issuances of equity securities. Flushing Financial Corporation’s common stock is traded on the NASDAQ Global Select Market under the symbol “FFIC.”

Our principal business is attracting retail deposits from the general public and investing those deposits together with funds generated from ongoing operations and borrowings, primarily in (1) originations and purchases of multi-family residential loans, commercial business loans, commercial real estate mortgage loans and, to a lesser extent, one-to-four family loans (focusing on mixed-use properties, which are properties that contain both residential dwelling units and commercial units); (2) Small Business Administration (“SBA”) loans and other small business loans; (3) construction loans; (4) mortgage loan surrogates such as mortgage-backed securities; and (5) U.S. government securities, corporate fixed-income securities and other marketable securities. We also originate certain other consumer loans including overdraft lines of credit. Our results of operations depend primarily on net interest income, which is the difference between the income earned on our interest-earning assets and the cost of our interest-bearing liabilities. Net interest income is the result of our net interest rate margin, which is the difference between the average yield earned on interest-earning assets and the average cost of interest-bearing liabilities, adjusted for the difference in the average balance of interest-earning assets as compared to the average balance of interest-bearing liabilities. We also generate non-interest income primarily from loan fees, service charges on deposit accounts, mortgage servicing fees, and other fees, income earned on Bank Owned Life Insurance (“BOLI”), dividends on Federal Home Loan Bank of New York (“FHLB-NY”) stock and net gains and losses on sales of securities and loans. Our operating expenses consist principally of employee compensation and benefits, occupancy and equipment costs, other general and administrative expenses and income tax expense. Our results of operations also can be significantly affected by changes in the fair value of financial assets and financial liabilities for which changes in value are recorded through earnings, our periodic provision for credit losses and specific provision for losses on real estate owned.

Our investment policy, which is approved by the Board of Directors, is designed primarily to manage the interest rate sensitivity of our overall assets and liabilities, to generate a favorable return without incurring undue interest rate risk and credit risk, to complement our lending activities and to provide and maintain liquidity. In establishing our investment strategies, we consider our business and growth strategies, the economic environment, our interest rate risk exposure, our interest rate sensitivity “gap” position, the types of securities to be held and other factors. We classify our investment securities as available for sale or held-to-maturity.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

We carry a portion of our financial assets and financial liabilities under the fair value option and record changes in their fair value through earnings in non-interest income on our Consolidated Statements of Income and Comprehensive Income. A description of the financial assets and financial liabilities that are carried at fair value through earnings can be found in Note 11 (“Fair Value of Financial Instruments”) of the Notes to the Consolidated Financial Statements.

During the three months ended June 30, 2020, we reported net income of \$18.3 million, or \$0.63 per diluted common share. Our earnings for the quarter were positively impacted by two items. First, we successfully executed on our strategic objective to manage our cost of funds and improve funding mix. We achieved record net interest income as a result of the Company’s quick response to the Federal Reserve decreasing interest rates in late March resulting in the cost of funds decreasing 62 basis points from the previous quarter with additional opportunity to further reduce funding costs in the third quarter. Adding to the reduction of cost of funds in the second quarter, core deposits increased 7% while the net interest margin expanded 43 basis points from the previous quarter.

The second item positively affecting our earnings was the non-cash fair value adjustment on our junior subordinated debt of \$10.3 million, or \$0.27 per diluted common share, after-tax, due to widening credit spreads in issuances of trust preferred debt, resulting from COVID-19 crisis.

During the three months ended June 30, 2020, the yield on interest-earning assets decreased 17 basis points, while the cost of interest-bearing liabilities decreased 65 basis points from the three months ended March 31, 2020, which resulted in an increase of 43 bps in net interest margin to 2.87% from 2.44% in the same period. This improvement in the net interest margin resulted in our net interest income increasing \$7.9 million to a record \$48.7 million for the three months ended June 30, 2020 from \$40.8 million for the three months ended March 2020.

Given the current economic environment at the end of the quarter, we adjusted our economic forecast in our current expected credit loss (“CECL”) model resulting in a provision for credit losses of \$9.6 million, or \$0.25 per diluted share, after-tax. At June 30, 2020 our allowance for credit losses stands at 61 basis points of gross loans and 182% of non-performing loans. CECL requires consideration of a broader range of information in order to update expected credit losses to capture life of loan and held-to-maturity debt securities estimated losses. These losses are estimated using historical loss experience, current conditions, and a reasonable and supportable forecast that affect the collectability of the reported amount.

Non-performing assets at the end of the quarter were 29 basis points of total assets. Our loan portfolio is 88% collateralized by real estate with an average loan to value of less than 40%. Despite the current economic environment due to COVID-19, we have a long history and foundation built upon disciplined underwriting, good credit quality and a resilient seasoned loan portfolio with strong asset protection. Net charge-offs totaled \$1.0 million for the three months ended June 30, 2020, primarily due to one small business loan relationship. The average loan-to-value on our non-performing real estate loans at June 30, 2020 remained conservative at approximately 30.3%.

The Bank and Company remain well capitalized under current capital regulations and are subject to the same regulatory capital requirements. See Note 15 (“Regulatory Capital”) of the Notes to the Consolidated Financial Statements.

COMPARISON OF OPERATING RESULTS FOR THE THREE MONTHS ENDED JUNE 30, 2020 and 2019

General. Net income for the three months ended June 30, 2020 was \$18.3 million, an increase of \$7.7 million, or 73.1%, compared to \$10.6 million for the three months ended June 30, 2019. Diluted earnings per common share were \$0.63 for the three months ended June 30, 2020, an increase of \$0.26, or 70.3%, from \$0.37 for the three months ended June 30, 2019.

Return on average equity increased to 13.1% for the three months ended June 30, 2020 from 7.5% for the three months ended June 30, 2019. Return on average assets increased to 1.0% for the three months ended June 30, 2020 from 0.6% for the three months ended June 30, 2019.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Interest Income. Interest and dividend income decreased \$4.8 million, or 6.9%, to \$64.8 million for the three months ended June 30, 2020 from \$69.6 million for the three months ended June 30, 2019. The decrease in interest income was primarily attributable to a decrease in the yield of average interest earning assets of 45 basis points, partially offset by an increase of \$269.7 million in the average balance of interest-earning assets to \$6,809.8 million for the three months ended June 30, 2020 from \$6,540.1 million for the comparable prior year period. The decrease in the yield on interest-earning assets was primarily due to decreases of 41 basis points and 99 basis points in the yield of total loans and taxable securities, respectively, partially offset by an improvement in asset mix, as the average balance of higher yielding total loans increased \$381.4 million, while the average balance of lower yielding taxable securities decreased \$119.2 million. The decrease of 41 basis points in the yield on the total loans, net, was primarily due to loans being both originated and repriced at lower rates. The decrease in the yield of securities was primarily due to higher yielding securities replaced by lower yielding securities. Excluding prepayment penalty income, recovered interest from loans and net losses from fair value adjustments on qualifying hedges, the yield on total loans, net, would have decreased 37 basis points to 4.05% for the three months ended June 30, 2020 from 4.42% for the three months ended June 30, 2019.

Interest Expense. Interest expense decreased \$13.5 million, or 45.7%, to \$16.1 million for the three months ended June 30, 2020 from \$29.6 million for the three months ended June 30, 2019. The decrease in interest expense was primarily due to a decrease of 94 basis points in the average cost of interest-bearing liabilities to 1.09% for the three months ended June 30, 2020 from 2.03% for the three months ended June 30, 2019, partially offset by an increase of \$87.6 million in the average balance of interest-bearing liabilities to \$5,912.8 million for the three months ended June 30, 2020 from \$5,825.2 million for the comparable prior year period. The decrease in the cost of interest-bearing liabilities was primarily due to the Company’s quick response to the Federal Reserve lowering rates.

Net Interest Income. Net interest income for the three months ended June 30, 2020 was \$48.7 million, an increase of \$8.7 million, or 21.8%, from \$40.0 million for the three months ended June 30, 2019. The increase in net interest income was primarily due to an increase of 42 basis points in the net interest margin to 2.87% for the quarter ended June 30, 2020 compared to the quarter ended June 30, 2019. Included in net interest income was prepayment penalty income from loans totaling \$0.7 million and \$1.1 million for the three months ended June 30, 2020 and 2019, respectively, recovered interest from non-accrual loans totaling \$0.1 million and \$0.5 million for the three months ended June 30, 2020 and 2019, respectively, and net losses from fair value adjustments on qualifying hedges totaling \$0.4 million and \$0.8 million for three months ended June 30, 2020 and 2019, respectively. Excluding prepayment penalty income, recovered interest, and net losses from fair value adjustment on qualifying hedges, the net interest margin for the three months ended June 30, 2020 was 2.85%, an increase of 45 basis points, from 2.40% for the three months ended June 30, 2019.

Provision for Credit Losses. During the three months ended June 30, 2020, a provision for credit losses was recorded totaling \$9.6 million, compared to \$1.5 million for the three months ended June 30, 2019. The provision was primarily the result of economic deterioration resulting from the impact of COVID-19. During the three months ended June 30, 2020, the Bank recorded net charge-offs totaling \$1.0 million, while non-accrual loans increased \$7.2 million to \$20.0 million from \$12.8 million at December 31, 2019. The current average loan-to-value ratio for our non-performing loans collateralized by real estate was 30.3% at June 30, 2020. The Bank continues to maintain conservative underwriting standards. See “Allowance for Credit Losses” below, Note 5 (“Loans”) and Note 16 (“New Authoritative Accounting Pronouncements”) of the Notes to the Consolidated Financial Statements.

Non-Interest Income. Non-interest income for the three months ended June 30, 2020 was \$13.7 million, an increase of \$11.3 million from the prior year comparable period. The increase in non-interest income was primarily due to an increase of \$12.2 million in net gains from fair value adjustments and life insurance proceeds of \$0.7 million for three months ended June 30, 2020. The increase in net gains was primarily due to \$10.3 million in net gains recorded on our junior subordinated debentures, as credit spreads had widened due to the COVID-19 crisis.

Non-Interest Expense. Non-interest expense increased \$1.6 million, or 5.9%, to \$28.8 million for the three months ended June 30, 2020 from \$27.2 million for the three months ended June 30, 2019. The increase in non-interest expense was primarily due to the growth of the Company.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Income before Income Taxes. Income before the provision for income taxes increased \$10.3 million, or 74.1%, to \$24.1 million for the three months ended June 30, 2020 from \$13.8 million for the three months ended June 30, 2019 for the reasons discussed above.

Provision for Income Taxes. The provision for income taxes was \$5.8 million for the three months ended June 30, 2020, an increase of \$2.5 million, or 77.5%, from \$3.3 million for the three months ended June 30, 2019. The increase was primarily due to an increase in income before income taxes. The effective tax rate for the three months ended June 30, 2020 was 24.1% compared to 23.7% for the three months ended June 30, 2019.

COMPARISON OF OPERATING RESULTS FOR THE SIX MONTHS ENDED JUNE 30, 2020 and 2019

General. Net income for the six months ended June 30, 2020 was \$16.9 million, a decrease of \$0.7 million, or 4.2%, compared to \$17.6 million for the six months ended June 30, 2019. Diluted earnings per common share were \$0.58 for the six months ended June 30, 2020, a decrease of \$0.03, or 4.9%, from \$0.61 for the six months ended June 30, 2019.

Return on average equity decreased to 6.0% for the six months ended June 30, 2020 from 6.3% for the six months ended June 30, 2019. Return on average assets was 0.5% for each of the six months ended June 30, 2020 and June 30, 2019.

Interest Income. Interest and dividend income decreased \$7.9 million, or 5.7%, to \$131.4 million for the six months ended June 30, 2020 from \$139.4 million for the six months ended June 30, 2019. The decrease in interest income was primarily attributable to a decrease in the yield of average interest earning assets of 39 basis points, partially offset by an increase of \$234.2 million in the average balance of interest-earning assets to \$6,764.8 million for the six months ended June 30, 2020 from \$6,530.7 million for the comparable prior year period. The decrease in the yield on interest-earning assets was primarily due to decreases of 35 basis points and 81 basis points in the yield of total loans and taxable securities, respectively, partially offset by an improvement in asset mix, as the average balance of higher yielding total loans increased \$315.7 million, while the average balance of lower yielding taxable securities decreased \$91.5 million. The decrease of 35 basis points in the yield on the total loans, net, was primarily due to loans being both originated and repriced at lower rates. The decrease in the yield of securities was primarily due to higher yielding securities replaced by lower yielding securities. Excluding prepayment penalty income, recovered interest from loans and net losses from fair value adjustments on qualifying hedges, the yield on total loans, net, would have decreased 26 basis points to 4.16% for the six months ended June 30, 2020 from 4.42% for the six months ended June 30, 2019.

Interest Expense. Interest expense decreased \$15.7 million, or 27.2%, to \$41.9 million for the six months ended June 30, 2020 from \$57.6 million for the six months ended June 30, 2019. The decrease in interest expense was primarily due to a decrease of 57 basis points in the average cost of interest-bearing liabilities to 1.41% for the six months ended June 30, 2020 from 1.98% for the six months ended June 30, 2019, partially offset by an increase of \$114.1 million in the average balance of interest-bearing liabilities to \$5,932.4 million for the six months ended June 30, 2020 from \$5,818.3 million for the comparable prior year period. The decrease in the cost of interest-bearing liabilities was primarily due to the Company’s quick response to the Federal Reserve lowering rates.

Net Interest Income. Net interest income for the six months ended June 30, 2020 was \$89.5 million, an increase of \$7.7 million, or 9.4%, from \$81.8 million for the six months ended June 30, 2019. The increase in net interest income was primarily due to an increase of 15 basis points in the net interest margin to 2.66% for the six months ended June 30, 2020 compared to the six months ended June 30, 2019. Included in net interest income was prepayment penalty income from loans totaling \$1.5 million and \$1.9 million for the six months ended June 30, 2020 and 2019, respectively, recovered interest from non-accrual loans totaling \$0.5 million and \$1.2 million for the six months ended June 30, 2020 and 2019, respectively, and net losses from fair value adjustments on qualifying hedges totaling \$2.4 million and \$1.5 million for six months ended June 30, 2020 and 2019, respectively. Excluding prepayment penalty income, recovered interest, and net losses from fair value adjustment on qualifying hedges, the net interest margin for the six months ended June 30, 2020 was 2.67%, an increase of 21 basis points, from to 2.46% for the six months ended June 30, 2019.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Provision for Credit Losses. During the six months ended June 30, 2020, a provision for credit losses was recorded totaling \$16.8 million, compared to \$2.4 million for the six months ended June 30, 2019. The provision was primarily the result of economic deterioration resulting from the impact of COVID-19. During the six months ended June 30, 2020, the Bank recorded net charge-offs totaling \$2.2 million, while non-accrual loans increased \$7.2 million to \$20.0 million from \$12.8 million at December 31, 2019. The current average loan-to-value ratio for our non-performing loans collateralized by real estate was 30.3% at June 30, 2020. The Bank continues to maintain conservative underwriting standards. See “Allowance for Credit Losses” below, Note 5 (“Loans”) and Note 16 (“New Authoritative Accounting Pronouncements”) of the Notes to the Consolidated Financial Statements.

Non-Interest Income. Non-interest income for the six months ended June 30, 2020 was \$10.9 million, an increase of \$7.5 million from the prior year comparable period. The increase in non-interest income was primarily due to an increase of \$8.2 million in net gains from fair value adjustments and life insurance proceeds of \$0.6 million for six months ended June 30, 2020. The increase in net gains was primarily due to \$8.0 million in net gains recorded on our junior subordinated debentures, as credit spreads had widened due to the COVID-19 crisis.

Non-Interest Expense. Non-interest expense for the six months ended June 30, 2020 was \$61.1 million, an increase of \$1.6 million, or 2.6% from \$59.6 million for the prior year comparable period. The increase in non-interest expense was primarily due to the growth of the Company.

Income before Income Taxes. Income before the provision for income taxes decreased \$0.7 million, or 3.0%, to \$22.5 million for the six months ended June 30, 2020 from \$23.2 million for the six months ended June 30, 2019 for the reasons discussed above.

Provision for Income Taxes. The provision for income taxes was \$5.6 million for each of the six months ended June 30, 2020 and June 30, 2019. The effective tax rate for the six months ended June 30, 2020 was 24.9% compared to 24.0% for the six months ended June 30, 2019.

FINANCIAL CONDITION

Assets. Total assets at June 30, 2020 were \$7,162.7 million, an increase of \$144.9 million, or 2.1%, from \$7,017.8 million at December 31, 2019. Total loans, net increased \$196.1 million, or 3.4%, during the six months ended June 30, 2020, to \$5,946.6 million from \$5,750.5 million at December 31, 2019. Loan originations and purchases were \$532.5 million for the six months ended June 30, 2020, an increase of \$38.1 million, or 7.7%, from \$494.4 million for the six months ended June 30, 2019. In response to the COVID-19 pandemic, we have originated \$93.2 million of PPP loans. We continue to focus on the origination of multi-family residential, commercial real estate and commercial business loans with a full banking relationship. The loan pipeline was \$310.8 million at June 30, 2020, compared to \$324.5 million at December 31, 2019.

Total	\$ 233,797	\$ 296,397	\$ 532,512	\$ 494,421

(1) Includes purchases of \$3.1 million for the six months ended June 30, 2020.

(2) Includes purchases of \$30.0 million for six months ended June 30, 2020.

(3) Includes purchases of \$0.7 million for three and six months ended June 30, 2019.

(4) Includes purchases of \$43,000 and \$3.4 million for the three and six months ended June 30, 2020. Includes purchases of \$13.7 million and \$16.0 million for the three and six months ended June 30, 2019.

(5) Includes \$93.2 million of PPP loans for the three and six months ended June 30, 2020.

(6) Includes purchases of \$35.0 million and \$75.7 million for the three and six months ended June 30, 2020. Includes purchases of \$44.9 million and \$99.5 for the three and six months ended June 30, 2019.

The Bank maintains its conservative underwriting standards that include, among other things, a loan-to-value ratio of 75% or less and a debt coverage ratio of at least 125%. Multi-family residential (excluding underlying co-operative mortgages), commercial real estate and one-to-four family mixed-use property mortgage loans originated and purchased during the six months ended June 30, 2020 had an average loan-to-value ratio of 45.3% and an average debt coverage ratio of 178%.

The Bank’s non-performing assets totaled \$20.4 million at June 30, 2020, an increase of \$6.9 million, or 51.0%, from \$13.5 million at December 31, 2019. Total non-performing assets as a percentage of total assets were 0.29% at June 30, 2020 compared to 0.19% at December 31, 2019. The ratio of allowance for loan losses to total non-performing loans was 181.8% at June 30, 2020 and 164.1% at December 31, 2019.

During the six months ended June 30, 2020, mortgage-backed securities decreased \$81.4 million, or 15.3%, to \$450.4 million from \$531.8 million at December 31, 2019. The decrease in mortgage-backed securities during the six months ended June 30, 2020 was primarily due to the sale of securities totaling \$130.8 million, that at the time of sale, due to increased prepayment speeds, had a negative weighted average book yield and principal repayments of \$87.7 million, partially offset by purchase of securities totaling \$130.2 million at an average rate of 1.84% and an increase in the fair value of \$8.8 million.

During the six months ended June 30, 2020, other securities, decreased \$16.7 million, or 5.6%, to \$282.9 million from \$299.6 million at December 31, 2019. The decrease in other securities during the six months ended June 30, 2020, was primarily due to the call of a municipal bond totaling \$9.0 million coupled with a decrease in the fair value of other securities of \$6.9 million. At June 30, 2020 other securities primarily consist of securities issued by mutual or bond funds that invest in government and government agency securities, municipal bonds, corporate bonds and CLO’s.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

Liabilities. Total liabilities were \$6,590.7 million at June 30, 2020, an increase of \$152.6 million, or 2.4%, from \$6,438.1 million at December 31, 2019. During the six months ended June 30, 2020, due to depositors increased \$27.8 million, or 0.6%, to \$5,049.9 million due to an increase of \$329.7 million in non-maturity deposits, partially offset by a decrease of \$301.9 million in certificates of deposit. The increase in non-maturity deposits was due to increases of \$306.7 million and \$146.8 million, in NOW and demand deposits accounts, respectively, partially offset by decreases of \$117.1 million and \$6.6 million in money market accounts and savings accounts, respectively. The decrease in certificates of deposit was due to management’s decision to allow these deposits to mature and replace with lower cost funding. Included in deposits were brokered deposits totaling \$638.9 million, an increase of \$250.1 million from \$388.8 million at December 31, 2019. Borrowed funds increased \$68.0 million during the six months ended June 30, 2020. The increase in borrowed funds was primarily due to an increase in wholesale borrowings, partially offset by a decrease in the fair value on junior subordinate debentures.

Equity. Total stockholders’ equity decreased \$7.8 million, or 1.3%, to \$571.9 million at June 30, 2020 from \$579.7 million at December 31, 2019. Stockholders’ equity decreased primarily due to an increase in accumulated comprehensive net loss of \$13.7 million combined with the purchase of 142,405 treasury shares, at an average cost of \$16.45 per share, totaling \$2.3 million and the adoption of CECL totaling \$0.9 million. Additionally, stockholders’ equity was reduced due to the declaration and payment of dividends on the Company’s common stock of \$0.42 per common share totaling \$12.1 million. These decreases were partially offset by the net income totaling \$16.9 million and the net impact of vesting and exercising of shares of employee and director stock plans totaling \$4.4 million. Book value per common share was \$20.27 at June 30, 2020 compared to \$20.59 at December 31, 2019.

Cash flow. During the six months ended June 30, 2020, funds provided by the Company’s operating activities amounted to \$29.9 million. These funds, combined with \$92.5 million from financing activities and \$49.8 million available from the beginning of the period were utilized to fund \$87.4 million used in investing activities. The Company’s primary business objective is the origination and purchase of multi-family residential loans, commercial business loans and commercial real estate mortgage loans and to a lesser extent one-to-four family (including mixed-use properties) and SBA loans. During the six months ended June 30, 2020, the net total of loan originations and purchases less loan repayments and sales was \$184.0 million. During the six months ended June 30, 2020, the Company also funded \$130.3 million in purchases of securities available for sale. During the six months ended June 30, 2020, funds were provided by sales, calls, prepayments and maturities of available for sale securities totaling \$227.4 million. During the six months ended June 30, 2020, funds were provided by increases of \$204.4 million and \$31.9 million in proceeds from long-term borrowings and deposits, respectively. The funds were used to repay \$127.8 million in long-term borrowings. The Company also used funds of \$12.1 million for dividend payments and \$3.9 million in purchases of treasury stock during the six months ended June 30, 2020.

INTEREST RATE RISK

The Consolidated Statements of Financial Position have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”), which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in fair value of certain investments due to changes in interest rates. Generally, the fair value of financial investments such as loans and securities fluctuates inversely with changes in interest rates. As a result, increases in interest rates could result in decreases in the fair value of the Company’s interest-earning assets which could adversely affect the Company’s results of operations if such assets were sold, or, in the case of securities classified as available for sale, decreases in the Company’s stockholders’ equity, if such securities were retained.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussions and Analysis of
Financial Condition and Results of Operations

The Company manages the mix of interest-earning assets and interest-bearing liabilities on a continuous basis to maximize return and adjust its exposure to interest rate risk. On a quarterly basis, management prepares the “Earnings and Economic Exposure to Changes in Interest Rate” report for review by the Asset Liability Committee of the Board of Directors, as summarized below. This report quantifies the potential changes in net interest income and net portfolio value should interest rates go up or down (shocked) 200 basis points, assuming the yield curves of the rate shocks will be parallel to each other. The Company’s regulators currently place focus on the net portfolio value, focusing on a rate shock up or down of 200 basis points. Net portfolio value is defined as the market value of assets net of the market value of liabilities. The market value of assets and liabilities is determined using a discounted cash flow calculation. The net portfolio value ratio is the ratio of the net portfolio value to the market value of assets. All changes in income and value are measured as percentage changes from the projected net interest income and net portfolio value at the base interest rate scenario. The base interest rate scenario assumes interest rates at June 30, 2020. Various estimates regarding prepayment assumptions are made at each level of rate shock. However, prepayment penalty income is excluded from this analysis. Actual results could differ significantly from these estimates. At June 30, 2020, the Company was within the guidelines set forth by the Board of Directors for each interest rate level.

The following table presents the Company’s interest rate shock as of June 30, 2020:

Change in Interest Rate	Projected Percentage Change In		Net Portfolio Value Ratio
	Net Interest Income	Net Portfolio Value	
-200 Basis points	1.06 %	0.54 %	8.45 %
-100 Basis points	2.82	9.60	9.23
Base interest rate	—	—	8.65
+100 Basis points	(5.72)	(12.99)	7.77
+200 Basis points	(11.41)	(20.14)	7.31

Management’s Discussions and Analysis of
Financial Condition and Results of Operations

AVERAGE BALANCES

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income depends upon the relative amount of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them. The following tables sets forth certain information relating to the Company’s Consolidated Statements of Financial Condition and Consolidated Statements of Income for the three and six months ended June 30, 2020 and 2019, and reflects the average yield on assets and average cost of liabilities for the periods indicated. Such yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods shown. Average balances are derived from average daily balances. The yields include amortization of fees which are considered adjustments to yields.

Allowance for loan losses to non-performing loans	164.05 %

(1) Not included in the above analysis are non-accrual performing TDR taxi medallion loans totaling \$1.7 million at December 31, 2019, respectively and non-accrual performing TDR commercial business loans totaling \$0.9 million at December 31, 2019.

CRITICIZED AND CLASSIFIED ASSETS

Our policy is to review our assets, focusing primarily on the loan portfolio, OREO and the investment portfolios, to ensure that credit quality is maintained at the highest levels. See Note 5 (“Loans”) of the Notes to the Consolidated Financial Statements for a description of how loans are determined to be criticized or classified and a table displaying criticized and classified loans at June 30, 2020 and December 31, 2019. The Company did not hold any criticized or classified investment securities at June 30, 2020 and December 31, 2019. Our total Criticized and Classified assets were \$48.7 million at June 30, 2020, an increase of \$10.4 million from \$38.3 million at December 31, 2019. Included in classified assets are classified OREO and other assets acquired through foreclosure totaling \$0.2 million and \$0.3 million at June 30, 2020 and December 31, 2019, respectively.

Financial Condition and Results of Operations

ALLOWANCE FOR CREDIT LOSSES

Upon adoption of CECL, the allowance for credit losses (“ACL”) increased by \$1.3 million, included an increase of \$0.6 million to the allowance of off-balance sheet credit losses, \$0.4 million to the allowance for loan losses and \$0.3 million to the allowance of credit losses of securities. We recorded \$16.7 million provision for credit losses for the six months ended June 30, 2020 utilizing the CECL methodology. The increase resulted primarily due to the effect of the COVID-19 on the economic forecast used in our CECL model, which includes adjusted reasonable and supportable period of 1 quarter and reversion period of 3 quarters. Additionally, it increased due to growth in the loan portfolio. The impact from the above resulted in the ACL totaling \$38.4 million at June 30, 2020. We recorded \$2.2 million in net charge-offs during the six months ended June 30, 2020.

<i>(Dollars in thousands)</i>	<u>At or for the six months ended June 30,</u>

**PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES**

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the qualitative and quantitative disclosures about market risk, see the information under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk."

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2020, the design and operation of these disclosure controls and procedures were effective. During the period covered by this Quarterly Report, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II – OTHER INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES**

ITEM 1. LEGAL PROCEEDINGS

The Company is a defendant in various lawsuits. Management of the Company, after consultation with outside legal counsel, believes that the resolution of these various matters will not result in any material adverse effect on the Company's consolidated financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

Except as set forth below, there have been no material changes from the risk factors disclosed in the Company's annual report on Form 10-K for the year ended December 31, 2019 as updated by the risk factors disclosed in the Company's quarterly report on Form 10-Q for the quarter ended March 31, 2020.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table sets forth information regarding the shares of common stock repurchased by the Company during the three months ended June 30, 2020:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
April 1 to April 30, 2020	—	\$ —	—	284,806
May 1 to May 31, 2020	—	—	—	284,806
June 1 to June 30, 2020	—	—	—	284,806
Total	—	—	—	

During the quarter ended June 30, 2020, the Company did not repurchase any shares of the Company's common stock. On June 30, 2020, 284,806 shares remained to be repurchased under the currently authorized stock repurchase program. Stock will be purchased under the current stock repurchase programs from time to time, in the open market or through private transactions, subject to market conditions. There is no expiration or maximum dollar amount under these authorizations.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, John R. Buran, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Flushing Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Flushing Financial Corporation (the "Corporation") on Form 10-Q for the period ended June 30, 2020 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, John R. Buran, Chief Executive Officer of the Corporation, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

(1) the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Corporation.
